ABOUT THE AUTHORS 319
ACKNOWLEDGMENTS

We are especially indebted to our colleagues in the field of higher education who responded to our requests for information. Without the assistance of colleagues around the world, we would not have been able to compile this inventory. Several organizations were especially helpful to us in identifying potential respondents. The Center for Higher Education Policy Studies (CHEPS) at the University of Twente was especially generous in providing us with their list of organizations. We are indebted to Peter A. M. Maassen and the CHEPS staff. The International Association of Universities in Paris assisted us with our journals list. Toru Umakoshi of the Center for Higher Education at Nagoya University in Japan and Ulrich Teichler and Jürgen Enders of the Gesamthochschule Universität Kassel in Germany also assisted us. Dr. Xiangming Chen of the Institute of Higher Education at Peking University, Beijing, China, helped us with our coverage of China. Jan Sadlak of the UNESCO European Center for Higher Education in Romania assisted us in checking some entries. At Boston College, Yoshikazu Ogawa and Kevin Sayers were involved with the project, as was Salina Kopellas.

This project is part of the research program of the Center for International Higher Education at Boston College. Our work is funded in part by the Ford Foundation, and we are indebted to Jorge Balán for his continuing support. The International Education Research Foundation of Los Angeles also assisted in the funding of the inventory.
This international inventory is a guide to higher education programs, centers, and related agencies. The book is a pioneering venture in that it is the first such international inventory in the field of higher education ever undertaken. While the goal was to create a comprehensive inventory, as an initial effort this project is inevitably incomplete. Nevertheless, we hope that it will be but the first in a series of efforts to bring the higher education research community together.

The book is divided into three main sections. The first is an essay that gives an overview of higher education research and training, providing a context for the programs and centers listed in the inventory. The second section is the inventory itself. The final section is a listing of journals in the field of higher education worldwide. Our intention has been to describe the growing worldwide network of institutions and programs devoted to higher education. As postsecondary education has become a major policy concern in every country, there has been an expansion of research, service, and training programs intended to serve higher education systems and institutions. This book is the first effort to capture this growing network of organizations. We hope that it will become a useful resource for the emerging community of specialists in higher education worldwide.

The Essay
Only in the past half century did higher education become an area of research and scholarly attention, although the roots of the field extend further back. Training programs for higher education administration are also of recent origin. The essay attempts to provide a brief summary of the development of the field and a discussion of current trends in research and training. It is intended as a kind of “road map” for a field of research and training that is rapidly expanding and maturing.
The Inventory

The main contribution of this book is the higher education inventory. Data for the inventory were collected over a period of two years, from 1998 to 2000. To facilitate the response process, respondents were able to reply through an on-line survey form, e-mail, or regular post. Approximately 265 requests for information were initially distributed to universities, research centers, and regional and international organizations. Persistent efforts were made to contact the relevant agencies, and to be as comprehensive as possible in coverage. All told, the inventory contains 187 centers, institutes, and programs. The response data were then edited for clarity and to conform to our specific categories. In some cases, incomplete information was received. Using available resources we have tried to complete all listings as much as possible. Nevertheless, some listings remain less complete than others. The inventory is alphabetically organized by country.

Criteria

We used the following categories to identify the programs and centers to be listed:

- academic programs—degree-granting programs located in universities that offer postgraduate degrees in the field of higher and postsecondary education;
- institutes and centers—such places may be located in universities, government ministries or departments, or they may be freestanding. Some may be focused on research, while others may be engaged mainly in data collection.

Definitions

Defining our target institutions was not an easy task. We used the following categories as a guide to including centers, programs, and institutes:

Academic programs
a. At least one FTE (full-time equivalent) faculty member who concentrates on higher education—this might mean two or more faculty who have only a partial commitment.
b. At least four graduate courses (postbaccalaureate) or the availability of the most-advanced degree, usually the doctorate—in some countries, programs offering only the master’s degree did not qualify for inclusion in the inventory.
c. Academic programs are generally housed in a university.
Centers or institutes
a. There should be a specific focus on research or policy in the field. We have excluded from the inventory centers or institutes that deal exclusively with institutional research.
b. The staff should include at least one full-time professional, and at least two professional support personnel.
c. The center or institute should have its own budget.
d. The center or institute may be housed in a university, in a government or private agency, or may be freestanding. Funding may come from a variety of sources.
e. The center or institute may have an academic program, a training program, or both.

The Questionnaire
The questionnaire requested the following information:
• the name of the center, institute, or program;
• full address, e-mail, fax, and other contact information;
• a short statement about focus, including key research interests and purposes;
• publications emanating from the center, institute, or program;
• the names of full-time and part-time staff members, with an indication of their research and teaching interests;
• an abbreviated list of major books used in academic programs, research projects undertaken, and major funding sources;
• courses offered (for academic programs); and
• numbers of students enrolled and degrees offered (for academic programs).

Coverage
This inventory is worldwide in scope, but obvious variations exist among the regions and countries. More than half the listings are from the United States. There are several reasons for this imbalance. Without question, the United States has the largest research and training enterprise in the field of higher education. Indeed it is the only country with a well-developed graduate degree-level training program in the field. The bulk of the American listings are for training programs. It also proved easiest to obtain responses from the U.S. Since the questionnaire and the responses were in English, it was clearly easier for academic systems that use English to respond. Additionally, we had a fully comprehensive list of academic programs in higher education in the United States. We estimate that the United States is home to about half of the programs and centers in the field. If one eliminated its
graduate training programs, the United States would decrease its worldwide share dramatically.

China, by contrast, is underrepresented in this inventory. This was done purposely. We know that there are about 400 centers and institutes of higher education in Chinese universities today. Most focus only on the specific university and have little national or international role. Working with Chinese colleagues, we selected what are considered to be the main centers in China, and many of these responded to our questionnaire.

There are national and regional organizations dealing with higher education issues in many countries. In the United States alone, there are perhaps 50 such groups in Washington, D.C., representing the interests of parts of the higher education community to the federal government. These range from the Association of Jesuit Colleges and Universities, to the Council of Graduate Schools, and the American Association of University Professors. The United Kingdom has organizations representing university vice chancellors, international education programs, and other groups. In Japan, the private universities have their own organization. Many of these groups sponsor research or publications, and some of the larger ones, such as the American Council on Education, have research staff. We have not, however, included such organizations in this inventory. We have also excluded most of the international groups that represent specific higher education interest groups, such as the International Federation of Catholic Universities.

It should be noted that our response rate from centers and programs that do not use English as a primary language was no doubt lower than for those that use English frequently.

The Journals List
This volume includes a listing of journals focusing directly on higher education. Our goal is to provide as complete a listing as possible in all languages. We have included national as well as regional and international journals. The information provided includes the publisher, editor, frequency of publication, and relevant addresses. This list is current as of the beginning of 2000.

While we have been especially concerned to cover research-oriented journals, we have also included as many other periodicals as possible. The listing is, of course, not a complete one. Our coverage is more thorough for journals appearing in English and for those published in North America. We have actually purposely excluded many of the higher education journals published in China. Only a few of these journals are circulated nation-
ally within China, and we have listed these. Purely local university-based publications were not included.

Yoshikazu Ogawa, a member of the staff of the Center for International Higher Education at Boston College, was mainly responsible for supervising the preparation of the journals list.

Related literature
This inventory is related to two volumes that analyze current trends in higher education research worldwide. These books are:

Chestnut Hill, Massachusetts
June 2000
In most countries, higher education has become a large, complex enterprise. As universities and other postsecondary institutions have grown, they acquire elaborate administrative structures that need major expenditures of public and, often, private funds. Perhaps most important, postsecondary education is recognized as a central element in modern society. Universities are considered engines of the postindustrial age and of the knowledge economy. Moreover, higher education has become big business. Single academic institutions employ thousands of people and educate tens of thousands—or in some cases hundreds of thousands. Degrees in a multiplicity of specialties from ancient history to biotechnology are offered. In 1971 Eric Ashby characterized the American academic system as offering “any person, any study,” in describing its diversity and scope. Several decades ago, Martin Trow looked at the progression of higher education from elite to mass and finally to universal access. In the industrialized nations, at least, mass access has been achieved, and a few countries—most notably the United States and Canada—have moved to semiuniversal access, enrolling half of the relevant age group. Many others, mainly in Europe and the Pacific Rim, educate 40 percent or more of the age group. Developing countries lag behind, but the main growth in the coming decades will be in this part of the world.

In this context, there is a great need for expertise and data about all aspects of higher education and for a sophisticated understanding of the nature of academic institutions. Academic institutions require thoughtful
and competent leadership. Research on higher education and training in the art and science of administration and institutional leadership are critical to the future of the university. Policymakers outside academic institutions, in government and in the private sector, who increasingly wield power over the future of academe, need knowledge and analysis in order to effectively coordinate complex institutions and systems.5

An Emerging Field
The field of higher education research is relatively new and undeveloped. Researchers have traditionally been reluctant to study the institution in which they work. Until the mid 20th century in most countries, academic institutions were small and enjoyed considerable autonomy. Government-mandated systems of higher education did not exist. Universities, though considered to be important, were seldom major social institutions. In a few cases, such as the Humboldtian reforms in Germany in the early 19th century where academic institutions became important institutions in national development, universities were somewhat peripheral. Social scientists preferred to focus their scholarly attention elsewhere, especially on subjects that might yield generalizable theories. Those interested in pedagogy and education were typically concerned with primary and secondary schools, and not with higher education. As a result, postsecondary education was ignored by researchers in the field of education as well as by social scientists.

The lack of interest on the part of academic institutions and agencies responsible for funding higher education research about academe meant there was little funding or support for research. Universities had a traditional pattern of governance and organization. University administrators were recruited from the ranks of the senior professoriate, very few of whom sought careers in administration. The complex administrative structures now found in most academic institutions did not exist. No training was provided to those who undertook leadership positions.

The reasons for the paucity of data, research, and analysis concerning higher education tell us something about the origin of the field. Few people claim that the study of higher education is a full-fledged academic discipline. Therefore, the infrastructures that go along with a scientific discipline—academic departments, professorships, and the like—are largely nonexistent.6 In part because higher education has no disciplinary base, it has never had a clear academic home. In the United States, Britain, Canada, Australia—countries with an Anglo-Saxon academic tradition—and some others, the study of higher education has been incorporated into the research and teaching activities of universities, mainly in schools of educa-
tion, where it is often considered peripheral to the main missions of these schools.

Only recently has a perceived need emerged for professionally educated administrators and other staff in postsecondary institutions. The growth of a group of midlevel administrators specifically trained in the field of higher education has been a development limited mainly to the United States, Canada, and Australia. Senior academic administrators continue to be drawn from the ranks of the professoriate and slowly gravitate to administration as a career. In contrast, in Germany there is a cadre of senior university managers appointed by government directly from the civil service who have responsibility for certain elements of university administration and management, especially in finance and nonacademic areas. These top administrative officials have little or no background in higher education. The lack of an institutional base has limited the growth and institutionalization of higher education as an academic specialty, although the growth in the number of professional middle managers in higher education has contributed to the expansion of the field of higher education studies.

The study of higher education is an interdisciplinary endeavor, which has been both a strength and a weakness. It is a strength because researchers in many social science disciplines—including but not limited to sociology, political science, psychology, economics, and history—have contributed very significantly to the development of research on higher education. Researchers in the field of educational studies have slowly begun to develop an interest in higher education; curriculum specialists, educational planners, and others now work on postsecondary issues. The small number of researchers focusing on higher education made the emergence of a distinctive field more difficult. In part because it is an interdisciplinary field, higher education research has no established methodology. It borrows from other fields. Again, this is both a strength and a weakness. Interdisciplinarity has made possible original and quite innovative research. On the other hand, it has hindered the creation of a permanent research community.

Until quite recently, there has been relatively little demand for data and analysis of higher education by potential users. Academic institutions themselves have been governed according to traditional norms and were fairly small, until after World War II. Governments tended to permit academic institutions considerable autonomy, even where state funds largely paid for postsecondary education. When decisions were made, research-based data and analysis were not seen as relevant for decision making.

Funding stimulates research, and until recently, little money was available for research on higher education. The few exceptions were short-lived and not sustained. For example, major reform efforts in Britain (the Robbins
Commission) and in Sweden (the U-68 Report) stimulated some research. More recently, government initiatives, such as the Thatcher government’s abolition of the binary system in the 1980s or the more recent Dearing Commission were not accompanied by major research studies. The Carnegie Foundation for the Advancement of Teaching in the United States and the Leverhulme Trust in Britain sponsored major studies of higher education in order to understand academic systems undergoing changes and facing considerable challenges in the aftermath of the expansion of the 1960s.

Within the field of higher education, several subject areas do have a fairly strong research base. For example, the economics of higher education has become an especially central topic in a period when the allocation of resources is of great concern. The Institut de recherche sur l’économie de l’éducation in Dijon, France and the Institute for Research on Higher Education at the University of Pennsylvania have both focused on economic issues in higher education beginning in the 1980s as funding became problematic. Funding issues have received attention from commissions in several countries.

Gathering international statistical information relating to higher education has been seen as a priority by UNESCO, which has been engaged in this area for several decades. The Organisation for Economic Cooperation and Development (OECD) and the World Bank have also been engaged in compiling statistics. In the United States, the National Center for Educational Statistics of the U.S. government has recently developed initiatives to ensure the availability of accurate international statistics concerning higher education. National agencies in many countries collect national statistics, but few efforts exist to link these statistics or to ensure comparability among them. Consistent, and reliable comparative statistical information concerning higher education is currently unavailable. With academic systems worldwide facing similar problems and with international student and staff mobility on the rise, more consistent statistical data are needed.

Comparative studies in higher education are also an identifiable trend in the literature, in part to provide national policymakers with a basis for comparison. Two recently published major international analyses of trends are contributing significantly to current discussions of comparative higher education. The World Bank’s 1994 policy review for higher education stimulated a good deal of discussion and controversy, including a volume of critiques. UNESCO also completed an overview of higher education trends worldwide. As part of the preparation for the UNESCO study, several reports were prepared. The Task Force on Higher Education and Society issued a useful report on higher education in developing countries in 2000. Truly comparative research is both difficult and expensive, and not
surprisingly there are few comparative studies. More common are compilations of case studies around a specific theme.

Much of the research and data concerning higher education have not been formally published in standard books and journals and may be considered part of a “gray literature” that is difficult to access and often not available in library or other collections. These data often relate to individual academic institutions and are circulated only within the institution. Governmental and other reports are frequently issued only for limited audiences, and there is no effort to disseminate them more widely. Similarly, many of the studies commissioned by the World Bank are kept confidential and are unavailable to the research community.

After almost a century of intellectual development as a field of research, higher education has, however, built up a sizable literature, a network of communications, and a community of researchers. Those responsible for planning and administering higher education institutions and systems are beginning to recognize the need for data and interpretation. Yet, the field has no widely accepted theories. Policymakers and administrators often do not find research produced by the research community directly applicable. Nonetheless, the field has grown and matured.

A Higher Education Research Infrastructure
The field of higher education research has expanded in large part because conditions have created a need for such research and the means with which to conduct it. The objective circumstances of higher education have changed: expansion of enrollment, staff, and budgets; a focus on the research mission of the universities; and the value of higher education to postindustrial society have all increased the attention paid to higher education in most societies. The following are some of the factors that have contributed to the development of higher education research and to the increasingly complex infrastructure of the field.

As academic institutions expand, they need more information about themselves—such as enrollment trends, statistics concerning student achievement, and data concerning faculty and staff. This data gathering is referred to as “institutional research” and is focused on a single institution but may be relevant to a wider audience. Institutional research offices exist in thousands of academic institutions worldwide—they are common in larger universities in countries such as the United States, Britain, Australia, and Canada and are of growing importance in Europe and Japan. Elsewhere, institutional research is less well organized, but it is commonly carried out as part of the administrative work of universities. Networks of researchers in this field are well organized in North America and Europe. The output of the institutional research offices of individual univer-
universities probably constitutes the largest part of research on higher education. However, much of this research is only of local interest, and little of it is made available to a wider audience.

University-based centers or departments with a focus on higher education have been established in a small number of countries to educate higher education professionals and researchers. These departments and academic programs, located mainly in academic institutions in Anglo-Saxon countries, have also been the source of a considerable amount of research. There are probably close to 200 university-based programs worldwide. In the United States alone, close to 100 universities have programs in higher education located in schools of education that provide postbaccalaureate degrees. While many of these U.S. programs are small and without a research emphasis, several have contributed significantly to research in the field—chief among them the University of California at Los Angeles, Pennsylvania State University, the University of Michigan, the University of Pennsylvania, and several others. Prominent European examples are the Center for Higher Education and Work at the Gesamthochschule-Universität Kassel in Germany, the Center for Higher Education Policy Studies at the University of Twente in the Netherlands, and the Institute for Higher Education Studies at the University of London. The centers in Kassel and Twente, for example, have conducted significant research for the European Union and a number of agencies, and have published many research studies. These centers, unlike their American counterparts, do not provide degree-level training for professionals. The Research Institute for Higher Education at Hiroshima University, a similar center at Tsukuba University in Tokyo, and a half dozen new higher education centers at the major national universities are Japanese examples (including Nagoya and Kyoto universities). The prominent Chinese institutions are the Institute for Higher Education at Peking University and the Institute of Higher Education at Xiamen University, although there are more than 400 higher education research institutes around the country. Some of these university-based centers focus mainly on research, others on teaching.

Outside the English-speaking countries, however, there are few academic programs offering degree study in higher education, although the numbers are growing. Some university-based institutes are government funded. For example, the National Center for Postsecondary Improvement, now located at Stanford University in the United States, is funded by the federal government for the purpose of research on improving higher education.

Governments require national data and research for planning in higher education, the allocation of funds, and related purposes. In some countries, national research institutes have been established with funding made...
available for higher education research and data collection. In some places, government-sponsored agencies assist with higher education reform and innovation. These agencies have responsibility for collecting statistical information on higher education, and some have a research mission as well. Research institutes vary greatly in size, purpose, and orientation. Some are linked with academic institutions, while others are attached to ministries of education. In Japan, for example, the Hiroshima University center is funded by the national government for the purpose of data collection and analysis on Japanese higher education as well as on overseas trends.

State planning and coordinating agencies have been established in many countries, and these organizations sometimes sponsor research and collect statistics to help them in their work. These agencies were established in the 1960s and more recently—during the period of expansion of higher education—to meet the need for relevant information and analysis. Not surprisingly, the former “socialist” countries of Central and Eastern Europe and the former Soviet Union, with their centrally planned economies, established large higher education research agencies to provide the data needed for centralized planning and development, as well as for coordination with other economic and political entities. The Higher Education Funding Council for England (HEFC) is the governmental body responsible in that country for allocating funds to academic institutions and also conducts limited research. Scotland has a similar agency. In the United States, most state governments have coordinating bodies for state-supported higher education, which in some cases do collect and publish research as well. The U.S. federal government, through such agencies as the National Center for Educational Statistics, collects data, publishes analyses of higher education developments, and commissions some research. The Indian University Grants Commission has a research function and a responsibility for allocating research and other funds from the national government to higher educational institutions. The semigovernmental Korean Council on University Education has funding and coordinating responsibilities and also sponsors some research. Other countries have similar agencies and organizations.

University associations in many countries engage in research domestically and to some extent internationally. In the United States, the American Council on Education, the National Association of State Universities and Land Grant Colleges, the Council of Graduate Schools, and many other entities have made research and the dissemination of information part of their missions. The German Hochschulrektorenkonferenz sponsors publications and supports some research. The Association of Indian Universities publishes books and journals and supports some research. These are just a few examples of university-sponsored organizations that conduct
research and analysis as well as representing the interests of academic institutions to government and the public. On a regional basis, the Association of African Universities and the European Rectors Conference disseminate information and occasionally conduct research. The International Association of Universities has promoted research and dissemination at an international level.26

International and regional organizations are among the most effective in bringing together specialists on higher education as well as providing a forum for discussing higher education issues. UNESCO, established in 1946, has from the beginning been involved with postsecondary education—sponsoring many conferences, stimulating research, and publishing books and reports. It has also established regional offices that focus on higher education, including the UNESCO European Center for Higher Education and the Center for Higher Education in Latin America and the Caribbean (CRESALC). In recent years, the World Bank has sponsored research and issued publications concerning higher education. While much of its research concerns World Bank loans and projects and thus is unavailable to the public, a growing number of studies have been published and now constitute some of the best sources for research on higher education on developing countries.27 OECD, an agency representing the industrialized nations, has long been involved with higher education research and related activities, and has produced a series of country-based studies that provides useful analysis.28 The OECD also sponsors the Institutional Management in Higher Education initiative and a journal, Higher Education Management. Some parts of the world, such as Southeast Asia, do not have active regional organizations, while others, such as Latin America, have a range of research-based groups.29

The perceived need for data and analysis has spurred a plethora of organizations and agencies that provide information. Many are new, reflecting the emerging nature of the field, and exist at institutional, national, regional, and international levels. There is relatively little interaction or cooperation among them. Almost the entire infrastructure of higher education research is a post–World War II phenomenon—a product of expansion in the 1960s and of the emphasis on accountability and assessment as postsecondary education experienced financial problems in the 1980s and 1990s.

The Information Infrastructure in Higher Education

With the proliferation of research centers and agencies concerned with higher education administration, coordination, and policy, a network of publications and other means of communicating the knowledge base in higher education has developed. In many countries journals relating to
higher education have been launched that are aimed at researchers and other professionals in the field. The listing of journals included in this inventory provides an indication of the scope of publications. While their circulation is usually limited, these journals do provide access to relevant research, current data, and analysis on the field. There are also many publishers who consistently publish books and monographs in the field of higher education. The Internet has stimulated the development of websites devoted to higher education, which are now significant sources of data and analysis. A few journals are now available on-line to subscribers as well, although there are no solely electronic journals in higher education as yet.

It is not possible, in the context of this essay, to discuss all of the national, regional, and international publications in the field. However, it is useful to focus on selected sources of information. As noted earlier, much of the higher education research base is not easily accessible either because it has not been published or has been issued by institutions only in limited editions. This “gray literature” is generally not included in standard indexes or reference sources. Much of the material deals only with specific academic institutions, but some are institutional planning documents and studies, reform reports, and similar policy-related materials with wider relevance. Unfortunately, there is no clearinghouse or data center for “gray literature” in higher education. The ERIC (Educational Resources Information Center) bibliographies and database, sponsored by the U.S. Department of Education, is the single largest source of bibliographical information; it includes some of this below-the-radar literature. However, ERIC collects mainly American material and is of limited relevance to the rest of the world.

In addition to ERIC, several bibliographical sources in higher education exist. Contents Pages in Education—a journal that covers scholarly and research journals in education, including higher education—is an important worldwide resource, although it is limited to publications in English. Several abstracting journals dealing with higher education publications in Britain and the United States have good coverage of their respective countries. However, as pointed out earlier, these publications include only material published in journals or, in some cases, books.

Additional contributions to the research literature can be found in two encyclopedias on higher education in an international context. These reference volumes provide not only worldwide coverage of higher education but also include “state-of-the-art” essays on key topics in the research literature. They are benchmarks for the field, showing that the study of higher education has come of age and has produced a coherent and reasonably comprehensive body of research. An earlier international encyclopedia,
published in 1976, helped to establish higher education studies as a field of inquiry. There are also several national encyclopedias or handbooks.

The number of research and other journals focusing on higher education has expanded in the past several decades. Most of the internationally circulated journals in the field have been established since the 1960s. Just in the past few years, new internationally focused specialized journals dealing with assessment, quality issues, technology, and teaching in higher education have been founded, reflecting important new trends in the field. A number of well-established more broadly focused internationally circulated magazines and newspapers relating to higher education provide news, commentary, and reporting on research and policy initiatives. The most important of these are the Chronicle of Higher Education in the United States, the Times Higher Education Supplement (The Higher) in Britain, and L’monde d’éducation in France. All three publications have significant international circulation, and all report on international developments as well as national news. There are also many national periodicals with similar aims—for example, University News in India, Das Hochschulwesen in Germany, Universitas in Italy, Universidades 2000 in Mexico, and others.

There are a small number of internationally circulated research journals in higher education. These publications set the standard internationally for research and disseminate key scholarship in the field. All are published in English, and most are edited and published in the United States or Western Europe. Higher Education, Higher Education Management, Minerva, and Higher Education Policy are the most explicitly international of the journals. Other periodicals are Studies in Higher Education and Higher Education Review (Britain), the Journal of Higher Education, Review of Higher Education, and Research in Higher Education (United States). Higher Education in Europe and the European Journal of Education focus on higher education from a mainly European perspective.

Hundreds of national journals also exist. In general, these do not circulate outside the country of origin. Among the most important of these journals, are the IDE Journal in Japan, Universidad Futura in Mexico, the Canadian Journal of Higher Education, and Change and Lingua Franca in the United States. Others, such as the Journal of Higher Education in India and the South African Journal of Higher Education are less well known internationally but publish valuable material. There are approximately 400 journals devoted to higher education in China alone—all but a half dozen published by individual universities and seldom circulated outside the sponsoring institution.

The publication of books on higher education has also increased significantly. Several publishers now specialize in books on higher education. Examples include Jessica Kingsley Publishers, Pergamon Press, and the
Open University Press in Britain, Routledge/Falmer Publishers, Jossey-Bass, Oryx Press, Agathon Press, and the Johns Hopkins University Press in the United States; Tamagawa University Press in Japan; Campus Verlag in Germany; and Lemma Publishers in Holland, among others. Research institutions and other organizations also publish books and monographs in the field—these include the Research Institute on Higher Education at Hiroshima University in Japan, the Russian Research Institute on Higher Education in Moscow, the American Council on Education in the United States, and others. The Society for Research into Higher Education in the United Kingdom has perhaps the largest series of books in the field of higher education, published in cooperation with the Open University Press.

A Map of the Field

Although the field of higher education studies did not exist until after the Second World War II, a small but insightful literature on higher education has existed and has shaped thinking about the nature of higher education. For example, Hastings Rashdall’s history of the medieval university remains a classic of scholarship. The Arab scholars who established the Al-Azhar University in Cairo thought about higher education, as did those responsible for the establishment of universities in medieval Europe. Philosophers such as John Henry Newman and sociologists Max Weber and Emile Durkheim analyzed higher education. Psychologist G. Stanley Hall is said to have taught the first academic course on higher education, at Clark University, in 1893. Visionary academic leaders, from Alexander von Humboldt to Robert M. Hutchins, have articulated their views on the development of the university. Plato and Aristotle discussed advanced education in their writings, and Confucius had a profound impact on the nature of higher education in China and East Asia.

One of the first formal policy-focused studies was Abraham Flexner’s influential report on American medical education, which inspired significant policy reforms in the training of physicians. Later, Flexner wrote one of the first books using a comparative approach to study higher education and recommend policy. His *Universities: American, English, German* was aimed at stimulating reforms in American higher education. One of the first government-sponsored reports on higher education was conducted as part of a reform effort in 1911 at the University of Calcutta in India. This document, and several others commissioned to shape higher education policies in colonial areas, influenced the later use of official reports on higher education. There is a rich literature on the history of higher education, focusing especially on the history of individual universities.

This brief review indicates that although the research has been scattered and lacking in focus, influential work of high quality has been pro-
duced in the century or more prior to the emergence of a field of higher education studies in the mid-20th century. Scholars and researchers worked within the confines of their disciplines, although with little if any communication across fields of study. Thus, higher education was hardly a neglected subject, although it did not emerge as a field of scholarly and research analysis until quite recently.

At approximately the same time that higher education was developing as an interdisciplinary field, researchers in other subspecialties were dealing with topics relating to the higher education enterprise. For example, the sociology of science grew dramatically as researchers turned to analyzing how research networks in the scientific disciplines work, how research is carried out, and how scientists and researchers measure productivity and influence in science. This subfield established its own journals and other infrastructures. The sociology of science and the history of science relate only indirectly to higher education studies. Researchers in the two disciplines rarely come into contact, and the science studies literature is seldom used by higher education scholars. Similarly, the subfield of bibliometrics, which examines the impact of research and the diffusion of scholarly work, is not generally consulted by researchers in the field of higher education.

The links are closer between the field of higher education and that of science policy studies. The journal Minerva, especially during the editorship of Edward Shils, straddled both fields and attempted to address the concerns of researchers in both areas. Others, such as Technology and Society, cover this intersection of fields. However, there has been little cross-fertilization, and only a limited number of researchers pay attention to both fields. Science policy is central to higher education now because it seeks to examine research networks that extend beyond the universities—for example to university-industry linkages.

More integrally related to higher education is the community of researchers involved with planning for college and universities. This field has its own professional organizations and a small research network. Higher education management has also emerged quite recently as a distinct subspecialty, but in this case there are strong links with higher education research. The OECD’s Higher Education Management journal provides an international perspective on this topic. Planning in Higher Education, an American journal, and Tertiary Education and Management, published in Britain, also focus on administrative and leadership issues. Because of the increasing complexity of academic institutions and the growing professionalization of university administration, there is a growing interest in management issues. So far, there seem to be few links between the broader field of management studies and higher education.
Another strand of research relates to international study and international students. The internationalization of higher education has become a topic of interest in many countries. The European Union, through TEMPUS and other programs, has fostered international study and scholarly exchange. There are more than one million students studying outside their home countries and numerous visiting scholars and researchers. The issues relating to international study are of increasing relevance in a globalized academic environment. Organizations such as the National Association for Foreign Student Affairs in the United States, the European Association for International Education, the Canadian Bureau of International Education, and other groups sponsor research—much of it applied and intended to improve international education programs and exchanges. A new publication, *Journal of Studies in International Education,* provides a focus for this research area. The Institute of International Education has published a series of studies focusing on international education issues.

The international centers of the field control most of the publications, and the major research paradigms originate mainly in the major English-speaking nations, which play a central role in defining the foci of the field. Other parts of the world are to a considerable extent peripheral in terms of setting research agendas and determining major trends. Approximately 75 percent of the world’s internationally circulated research in the field of higher education emanates from the United States, Britain, and Australia. In the 1990s, the research communities in such countries as Japan, the Netherlands, China, and Germany did, however, grow in size and scope. Initiatives on the Pacific Rim and, to a lesser extent, in Latin America are indications of growth of higher education research and analysis and the establishment of centers and institutes. While the major English-speaking countries continue to dominate the research networks, the balance is changing as other countries build up research capacity in higher education. The field of higher education displays the same geographical inequality as most scientific disciplines, although probably to a lesser extent than in many fields.

**Institutional Research**

Institutional research is in greater demand as academic institutions grow and as accountability becomes a more central part of governmental agendas worldwide. Data collected as part of institutional research is rarely reported outside the institution and is frequently restricted. For the most part, institutional reporting on such issues as trends in enrollments, student achievement, and fiscal arrangements have little relevance to a wider audience despite the importance of this data for institutional planning and
assessment. Although in some cases institutional research data would have applications beyond the direct and immediate institutional needs, their potential is almost never exploited. For example, the comparison of institutional trends within sectors in a country, regionally, or internationally, might be useful. The idea of “benchmarking” institutional trends in higher education is beginning to be implemented in many countries, and institutional research data are useful in this exercise.

The institutional research community is well organized in only a few countries; outside of Europe and North America, few international links exist. Outlets for publication and analysis of data based on institutional research are limited in numbers. In the United States, the Association for Institutional Research provides a professional forum for the research community, although there is a lack of coordination between the institutional researchers and the wider higher education research community. The European Association for Institutional Research recently broadened its mission to encompass higher education research. There are no international journals on institutional research and few forums for international discussion in this field other than at conferences held in the United States or Europe. Institutional research is coming into its own as a subfield of higher education research, and is increasingly part of the mainstream.

The Education of the Administrative Estate
Academic administration has become increasingly complex. As institutions have become larger and more complex, providing many more services and offering more specialties, the need to provide skilled management and administration has grown as well. It is no longer possible for amateurs without training or a serious interest in administration to run modern universities.

Senior academic leaders, including presidents, rectors, vice chancellors, and deans still come from the ranks of the senior professoriate. They typically have no specific training for the administrative roles they perform, and most who assume these offices return to teaching and research after serving one or two terms. The United States is somewhat unique in that many senior academic administrators enter into administrative careers, going from one senior post to another, often at different institutions, and do not return to the professoriate.

The situation is different for the large and growing number of middle-level managers in higher education, and it is here that major expansion has taken place. It is not surprising that the United States, with the largest, most diversified and complex academic system, developed this new profession first. There has been a recognition that this new cadre of administrators require training for their jobs. The field of higher education admin-
The first subspecialty in higher education was that of student personnel administration—which provides training for those responsible for counseling and guidance, student extracurricular activities, and administering dormitories and other student facilities. Later, training for general academic administration and the development of such subspecialties as financial administration, and university legal affairs evolved. Today, higher education programs are offered as graduate (postbaccalaureate) degrees, and serve both entry-level students seeking administrative careers as well as seasoned administrators wishing to upgrade their skills and qualify for higher office. Traditionally, higher education graduates were hired for lower- and middle-level management positions in colleges and universities, as well as posts in government agencies dealing with higher education, think tanks, and related jobs. Institutional researchers often hold graduate degrees in higher education. In recent years, higher education graduates have assumed presidencies and other upper management positions, especially in the community college sector and in lower-ranking four-year institutions.

As of 2000, higher education administration is a well-established field. The programs are housed in schools of education in many of the top universities in the United States. Faculty members in these programs provide much of the published research on higher education and are often called on to serve as consultants and advisers for postsecondary institutions.

Similar programs have been established in several other countries, although growth has been surprisingly slow given the expansion in the number of administrators worldwide. The major English-speaking countries of the United Kingdom, Canada, and Australia now have university-based programs that provide training for academic administrators. A few other countries, such as Japan, are beginning to provide training for administrators, and others are beginning to think about it. It is likely that this field will continue to grow in response to the need for career-level administrators knowledgeable about higher education and schooled in the application of management theory, legal issues, student psychological development, and other social science–based disciplines.

**Future Trends**

Higher education research is recognized as useful in analyzing the challenges facing higher education institutions. Yet, many in government and in academic administration feel that higher education research does not directly address the day-to-day problems faced by managers in postsecondary education. This is probably an inevitable and unresolvable tension in the field. Some of the research produced by higher education
scholars examines fundamental issues such as the relationship of academe to government or is designed to build up the methodologies or knowledge base in the field. This type of research is thus largely irrelevant to the search for immediate solutions to problems faced by academic institutions or systems. Practitioners and the public are often impatient for results. At the same time, at least some of this broadly based work is a necessary underpinning for more applied research. In fact, the tension between the two poles in the field is, in many ways, a strength. Those in control of research funding are insufficiently committed to the work of building a solid knowledge base, methodological rigor, and theoretical perspectives in the field. At the same time, there is often an unnecessary distance between university-based researchers and the “users” of research in academic administration or government agencies.\textsuperscript{53}

The following trends may characterize the future development of the field of higher education studies:

1. The field will expand into countries and regions where it is now either weak or nonexistent. Recognition of the value of information and analysis about postsecondary education will stimulate continued growth in the field. There will be an expansion of the sources of information—journals, books, and newsletters, etc.—in these new research communities.

2. The current centers of research in higher education may lose some of their dominance, in part because of financial cutbacks in higher education and in part because of the development of new research communities in other regions. Despite these trends, the traditional centers in the field will in all likelihood retain their influence.

3. There is a growing focus on the process of teaching, learning, and assessment in higher education. Instruction, the central element in higher education, is imperfectly understood. In part to improve learning and create better ways to measure the results of higher education, there has been increased interest in the evaluation of teaching, measurement of instructional results, and assessment.

4. The gulf between institutional research and other research on higher education remains considerable. The field would benefit from better links between institutional research and the broader research community. The tension between basic and applied research in higher education will continue, with some confusion regarding the audience for research in the field.
5. Higher education is definitely an interdisciplinary field of inquiry. It will not emerge as a separate scientific discipline.

6. The recognition that academic institutions require a trained cadre of administrators will mean the expansion worldwide of university-based training programs in higher education. Some programs may offer academic degrees and require a rigorous curriculum of studies. Others may consist of shorter courses, seminars, or other academic experiences. This will contribute to a larger research community, since many of the faculty members appointed to teaching positions in these programs may also engage in research.

7. Large-scale research, either within one country or internationally, will be limited due to lack of funds.

8. A better balance between the research agenda of higher education researchers and the users of that research will strengthen the research community. There is a tendency for funding agencies to provide support for research that will yield specific answers to questions of immediate concern. In the long run, this approach weakens the knowledge base. This conflict between “basic” and “applied” research is by no means limited to the field of higher education.

9. Strengthening regional and international networks for reporting data and research will improve communication and expand the field. Organizations, databases, and publications that bring together researchers from different countries will also expand. In short, there is a need to build better networks in the higher education research community. Regionally based publications, both journals and books, require additional support.

10. Comprehensive, comparable, and accurate international data concerning higher education are central to both research and for policy development. Stronger international organizations can provide a basis for improved data collection.

11. Bringing currently peripheral research communities, such as those in smaller countries or in regions without any tradition of research in the field, into the international mainstream is a key priority.

12. Better integration of the institutional research community as well as institutional research into the higher education research system will help this largely ignored part of the higher education research community to
become part of the mainstream. In Europe, the European Association for Institutional Research (EAIR) has linked the two streams in the field.

13. Improvement of links between the higher education research community—now located in faculties of education in universities, in government agencies, and in independent research centers—and with researchers in the social sciences will strengthen the field of higher education.

Conclusion

Higher education research and training in the field have developed impressively over the past three decades. The organized infrastructures of a research area have emerged. There is a research community in government, academe, and in research organizations that has impressive geographical scope and increasing sophistication. The field has contributed significantly to a broader understanding and recognition of the importance of the university and more specifically of the complexities of academe in a period of expansion. It has contributed insights into the specific policy needs of academic administrators and political authorities. Higher education has legitimized itself as a research area within educational studies, gaining acceptance among those who are responsible for the leadership of higher education. A small but growing number of social scientists have taken on higher education as an area of research. This, too, has improved the literature and has helped to provide an analytical base.

In a number of countries, university-based training programs for academic administrators have been established. These programs have contributed to the expansion and legitimization of higher education research. Some of the graduates of these programs become researchers in the field—although most go into academic administration or policymaking positions, where they make use of research results. This trend is likely to extend to other countries, as there is a demonstrated need for professionally trained administrators for large postsecondary institutions and systems.

The research output in the field ranges from what the social scientists would call “middle-range theory” to the most applied data gathering pertaining to a specific problem at a single university. Social scientists from a number of disciplines have attempted to theorize about the nature of the university, about the dynamic of leadership in higher education, and about the nature of teaching and learning. However, there are few accepted theories that apply generally to postsecondary institutions. The quality of the research is also mixed, as is probably inevitable for a field in its early stages of development.

The field of higher education research is poised for change. It is gaining importance and legitimacy in parts of the world traditionally
underserved. Expansion will be slower in the traditional centers as resources have become limited although research is still needed. The field has achieved a measure of legitimacy in the academic community, and it is now accepted as important by policymakers in national as well as regional and international organizations.

Notes

6. See Paul L. Dressel and Lewis B. Mayhew, Higher Education as a Field of Study (San Francisco: Jossey Bass, 1974) for a discussion of the origin of the field in the United States and of the debate about higher education as a discipline. For one of the few other studies of the development of the field, Xu Yu, “The Development of Higher Education in China” (Ph.D. diss., State University of New York at Buffalo, 1995), which focuses on similar debates in China, where many of the first generation of researchers attempted to establish higher education as a discipline.

8. In the early 1970s, under the leadership of Clark Kerr, the Carnegie Commission on Higher Education sponsored more than 50 volumes that provided an impressive research base for American higher education. The Commission also issued a number of policy-oriented reports. At the end of the decade, again under Kerr’s leadership, the Carnegie Council on Policy
Studies in Higher Education sponsored additional studies and reports. These impressive efforts were funded by the Carnegie Foundation for the Advancement of Teaching. The Foundation continues to be actively involved in sponsoring research, and has a special interest in policy-oriented studies. At about the same time, the Leverhulme Trust in Britain sponsored a dozen or more volumes relating to British higher education in the aftermath of the Robbins Report.

10. See World Education Report, 1993 (Paris: UNESCO, 1993) for some international statistical information. See also UNESCO’s Statistical Yearbooks for a range of information relating to education and other cultural developments.

11. See Higher Education in Developing Countries: Promise and Peril, for a very useful statistical appendix covering enrollments and related issues worldwide.

15. For example, see Trends and Issues Facing Higher Education in Asia and the Pacific (Bangkok: UNESCO Principal Regional Office for Asia and the Pacific, 1991), and Higher Education in Africa: Trends and Challenges for the 21st Century (Dakar: UNESCO Dakar Regional Office, n.d.).

16. Higher Education in Developing Countries: Promise and Peril.

19. In 1981, a directory of research institutes in higher education was published by UNESCO. See Jan Sadlak, ed., Directory of Institutes and Organiza-

20. Institutional researchers have organized themselves into several national and regional groups. The Association for Institutional Research in the United States is one of the largest research-oriented organizations in the world. In Europe, the European Association for Institutional Research has recently expanded its focus beyond institutional research to broader higher education issues.

21. In China, for example, there are some 400 higher education centers and institutes attached to universities. Many of these provide institutional research data and analysis to their sponsoring institutions.

22. In the United States, the Association for Institutional Research has been active for several decades, while the European Association for Institutional Research is newer and reflects a growing interest in the topic.

23. Examples of national organizations focused on higher education research and information are, among many others, the Hochschul-Information-System (HIS) in Germany, the Research Institute on Higher Education in Russia, and the National Center for Educational Statistics in the United States.

24. For a detailed discussion of this topic, see Jan Kluczynski, “Research on Higher Education in European Socialist Countries.”

25. The National Center for Higher Education, located at 1 Dupont Circle in Washington, D.C. is well known as the headquarters of many of the Washington-based associations representing the higher education community. The American Council on Education, representing the presidents of a large number of American universities, is the leading organization at 1 Dupont Circle.

26. The International Association of Universities (IAU) has been active recently in sponsoring publications on higher education issues, restoring a tradition established earlier. IAU sponsors an influential book series, published by Pergamon Publishers as well as the journal Higher Education Policy.

27. For example, see William S. Saint, Universities in Africa: Strategies for Stabilization and Revitalization (Washington, D.C.: World Bank, 1992). This is one of many valuable data-based studies on higher education issues.

29. The Regional Institute for Higher Education and Development (RIHED) was at one time active in providing a research base for higher education in
Southeast Asia. In the past decade, however, there is no research or policy institution active in the region.

32. Carfax Publishing Ltd. in England, now part of the Taylor and Francis group, has established new quarterly journals on teaching, assessment, and technology in higher education.

33. A key bibliographical resource for locating articles in journals in English worldwide is *Contents Pages in Education*, a bimonthly listing of articles in hundreds of educational periodicals.

34. It is also the case that many Chinese higher education journals are officially “restricted” and cannot be circulated outside of China.

45. The Society for College and University Planning in the United States is probably the largest organization in this area. It publishes its own journal and holds professional meetings.

48. Similar organizations exist in Japan and in several other countries.

49. The Institute of International Education is an American organization with branch offices in many countries. Its main responsibilities include the administration of exchange programs between the United States and other countries. It also sponsored research on international exchanges and related topics. See, for example Craufurd D. Goodwin and Michael Nacht, *Missing the Boat: The Failure to Internationalize American Higher Education* (New York: Cambridge University Press, 1991).

50. The Institute for the Study of the University at the National Autonomous University of Mexico (UNAM) as well as a research group at the Autonomous Metropolitan University and as the Association of Mexican Universities (ANUIES), all in Mexico City, now constitute an impressive research community.

51. Public higher education governing boards in about 15 states in the United States have developed and implemented accountability and performance measurement schemes, and information is collected and published concerning funding, productivity, quality, standards, and related issues.

52. The Association for the Study of Higher Education (ASHE) is the professional organization representing faculty members working in the field of higher education. The American College Personnel Association (ACPA) represents professionals who focus on student services.

53. In the United States as well as other countries there has been considerable criticism of the output of the higher education research community for its lack of relevance to the needs of administrators and policymakers.
CHAPTER 2

Inventory Usage Guide

Philip G. Altbach and David Engberg

This inventory provides details on 187 higher education centers, institutes, and programs. The entries are organized alphabetically, first by country, then by the name of the center, institute, or program. (See the “Country Index” for country-specific page numbers.) U.S. entries, the inventory’s largest subgroup, are alphabetized first by state, then by center, institute, or program name.

Every effort has been made to make the inventory user friendly, clear, and complete. Nevertheless, certain entries are more thorough than others. For instance, since most higher education centers do not include a teaching function, they are listed here without entries for courses, and student enrollments. Occasionally, the information received was incomplete. In such cases we have tried to obtain the missing data. As a rule, we have kept the editing of entries to a minimum.

Below are some comments about categories of information in the entries:

• Name. Formal center, institute, and program names are listed either alone or after their parent or sponsoring institutions. If available, national language and organizational acronyms are also included.
• Address. Addresses are listed in the format in which they were received.
• **Telephone/fax number.** Non-U.S. phone and fax numbers are listed as received. U.S. telephone and fax numbers have been standardized, with dashes separating area code.

• **Website.** All website URLs are complete.

• **Date of establishment.** There exist inconsistencies in date of establishment information. While some entries indicate when a particular higher education program or center was established, others refer to the establishment of the parent organization—a university, for instance.

• **Funding source.** Most of the places listed in the inventory receive their operational funding from state or federal government sources. For programs and centers affiliated with universities, we have simply listed the university as the funding source.

• **Staff.** Staff members in Asian countries are listed by last name first.

• **Current publications.** We received bibliographic information on textbooks, readings, and journals in a variety of formats. We have attempted to standardize these items.
CHAPTER 3

Inventory of Higher Education Programs, Institutes, and Centers

Philip G. Altbach and David Engberg

Australia

Australian National University, Policy Research Unit in Higher Education, Centre for Continuing Education

Address: ACT, 0221, Australia
Telephone: 61 6249 4623; 61 6249 3256
Fax: 61 6249 4959
E-mail: don.anderson@anu.edu.au; richard.johnson@anu.edu.au

Date established: 1992
Major source of funding: University

Organizational focus:
Our focus is higher education policy. We undertake two or three projects a year on questions of national (and occasionally international) interest; almost all in response to requests from government agencies. Recent projects (with publications actual or pending) have been: Performance-based Funding of Universities; University Autonomy in Twenty Countries; Qualifications of Australian Academics; The Equity Impli-
cations of Tuition Fees for Participation in Postgraduate Courses; and The Practice of Strategic Planning. A current interest is “how can anyone know what a university’s degree standards really are?” We also run a seminar series for senior academics and policy advisers, and provide a point of reference for visitors to ANU who share our professional interests. All members of the Unit are visiting fellows, having been granted the designation by ANU following retirement from salaried posts in university or government.

Staff (name • rank/title):
1. Richard Johnson • professor
2. Don Anderson • professor
3. Bruce Milligan
4. Colin Plowman
5. Geoff Caldwell
6. Larry Saha

Griffith University, Griffith Institute for Higher Education

Address: Mt. Gravatt Campus, Griffith University, Queensland, 4111, Australia

Phone: (+ 61 7) 3875 5982
Fax: (+ 61 7) 3875 5998
Website: http://www.gu.edu.au/centre/gihe/home.html

Date established: 1993
Major source of funding: University
Organizational focus:
The Griffith Institute for Higher Education is Griffith University’s center for academic staff development and the study of higher education. GIHE is recognized nationally and internationally for its contributions to the practice of academic staff development and its research. We offer an integrated range of postgraduate programs in higher education, including an internationally accredited qualification in university teaching. We provide practical support to help academic staff improve the quality of their students’ learning, enhance their teaching effectiveness, convene their courses, and develop their research performance. We help staff respond to the challenge of flexible learning, providing realistic
advice and sharing expertise. We help Griffith’s academic managers to develop needed leadership skills. We provide institutional research and policy advice on issues related to higher education policy and performance. We contribute to the international body of knowledge in the field of higher education through our various research and publication programs. We stimulate public debate about policy and practice and sponsor symposia of national importance on critical issues in higher education. We provide a range of income-generating services, such as programs on academic leadership, to other universities and agencies.

Current Publications:
- Martin Bridgstock. *Teaching Without Lecturing: A Description and Analysis of an Educational Experiment.*
- *Developing as Researchers, 2d. ed.*
- George Lafferty. *Equity, Access and Independent Learning: Maximising the Outcomes for Mature Age Students.*
- Diana Laurillard and Don Margetson. *Introducing a Flexible Learning Methodology: Discussion Paper.*
- *Subject Evaluation Resource Book.*
- *Teaching Portfolios: Guidelines for Academic Staff.*

Staff (name • rank/title • specialization):
1. Linda Conrad • Acting Director • evaluation of subjects and teaching; documentation of evaluation (teaching portfolios) and research development
2. Margaret Buckridge • Lecturer
3. Gay Crebert • Senior Lecturer • target program for schools and groups; leadership programs
4. Peter Taylor • Senior Lecturer • flexible learning and the design and assessment of courses and subjects
5. Craig Zimitat • Lecturer • staff development for flexible learning
6. John Bain • Professor • universitywide course evaluation
7. Janet Chaseling • Associate Professor
8. Simon Marginson • Adjunct Professor • higher education policy and management
9. Eva Lietzow • Manager • analysis of the Graduate Careers Council of Australia

Student enrollments: Graduate Certificate (20 part-time); M.A. (7 part-time); Ph.D. (1 part-time)

**Melbourne, University of, Centre for the Study of Higher Education**

Address: Parkville, 3052, Australia

Telephone: 61-3-93-448060
Fax: 61-3-93-447576
E-mail: c.mcinnis@cshe.unimelb.edu.au
Website: http://www.cshe.unimelb.edu.au

Date established: 1967
Major source of funding: University (50%); external consultancies and research grants (50%)

Organizational focus:
The Centre for the Study of Higher Education (CSHE) has four interrelated functions. It provides:
• academic development services to the University of Melbourne, including workshop programs for academics on teaching and learning;
• independent research-based advice on higher education matters within the University;
• national and international consultancies and research on higher education policy; and
• a research-only graduate student program at the master’s and doctoral level.
Staff: (name • rank/title • specialization)

1. Craig McInnis • Director, Associate Professor, Chair of Centre for the Study of Higher Education • the student experience of higher education; the academic profession and academic work; quality assurance processes; disciplinary reviews; policy implementation
2. Margaret Powles • Associate Professor • participation and access; postgraduate education; the professoriate; higher education and industry; interface between higher, technical, and further education
3. Richard James • Senior Lecturer • student experience of higher education; evaluation and quality assurance; higher education administration; integration of new technologies into higher education
4. Gabrielle Baldwin • Senior Research Fellow • disciplinary differences in conceptions of teaching and learning and pedagogical practices; core curriculum programs in general arts degrees; the significance of the total university experience in student learning and personal development; the commodification of education and its implications; socioeconomic disadvantage in Australian higher education

Student enrollments: M.Ed. (9 part-time); Ph.D. (10 part-time); D.Ed. (4 part-time)

**New England, University of, Centre for Higher Education Management and Policy**

Address: Armidale, 2351 NSW, Australia

Telephone: 02-67-732042
Fax: 02-67-733363

Date established: 1996
Major source of funding: University; external research funding

Organizational focus:

- The Centre is located in the university’s School of Administration and Training. It provides a research function and is associated with the Education, Health, and Professional Studies Faculty.

Staff: (name • rank/title)

1. Grant Harman • Professor
2. Kay Harman • Senior Lecturer
3. V. Lynn Meck • Associate Professor
4. Fiona Wood • Research Fellow
5. Rene Woodward • Project Officer

Key journals:

Belarus

Belarusian State University, Institute of Higher Education
(Respublikanskii Institut Vysshei Shkoly pri Belorusknom
Gosudarstvnom Universitete)

Address: Moskovskaya Str. 15, Minsk, 220001, Belarus

Phone: (+375-172) 228315
Fax: (+375-172) 228315
E-mail: gancher@study.minsk.by
Website: http://www.nihe.nibel.by

Date established: 1994
Major source of funding: University; government
Organizational focus:
  The Institute is affiliated with the largest Belarusian University (17,000
  students). The institute has defined its mission as enhancing the at-
  tainability, effectiveness, and quality of higher education in Belarus.
  The Institute approaches the task by improving educational manage-
  ment, increasing the professional knowledge and skills of educational
  staff and administrators; surveying, developing, and disseminating new
  ideas in the field of higher education; and preparing professionals in
  the educational field.
The departments and units carry out research in the field of higher education management. The research program topics are systems and social systems theory, qualitative and quantitative methods and procedures for evaluation, forecasting and strategic planning in education, synergetic and evolutionary approaches to social systems, survey of higher education, and new educational technologies.

Staff (name • rank/title • specialization)
1. Igor I. Gancheryonok • Head Professor • higher education management; internationalization of higher education
2. Lyubov I. Shumskaya • Professor • professional pedagogical education
3. Aleksand N. Sizanov • Professor • practical psychology
4. Vladimir F. Klemyato • Lecturer • student affairs

Student enrollments: M.A. (20 full-time, 10 part-time); Ph.D. (5 full-time, 15 part-time)

Key textbooks/readings:

E-mail: nupes@org.usp.br
Website: http://www.usp.br/nupes
Date established: 1989  
Major source of funding: Ford Foundation; Ministry of Education

Organizational focus:
NUPES has always pursued the dual objective of promoting higher education research and policy. Ongoing organizational objectives include:

- macro analysis of the main features and evolution of the Brazilian higher education system; and
- research on the history of Brazilian higher education, its private and public sectors, and regional differentiation.

Current publications: (working papers):

- *Brazilian Higher Education Private Sector: The Last Decade*
- *Curriculum of Undergraduate Courses in Odontology*
- *Higher Education Policies Analysis and Proposal*
- *The Private Sector of Higher Education in Latin America: A Comparative Analysis*
- *The Public Universities and Research in Brazil*

Staff (name • rank/title • specialization)

1. Eunice Ribeiro Durham • Professor • higher education policies
2. Helena Sampaio • Researcher • higher education systems
3. Elizabeth Balbachevsky • Researcher • academic profession
4. Veronica Penaloza • Researcher • public higher education and costs and financing
5. Antonio Cesar Perrio de Carvalho • Associate Researcher
6. Carolina M. Bori • Research Director • learning and graduate teaching

Canada

**British Columbia, University of, Higher Education Program**

Address: 2125 Main Mall, Vancouver, V6J 1Z4, British Columbia, Canada

Phone: 604-822-5374  
Fax: 604-822-4244
Website: http://www.edst.educ.ubc.ca/hied.shtml

Major source of funding: University

Organizational focus:

The Higher Education Program focuses on the study of institutions of higher education and their members, activities, and policies. The Program addresses five central themes:

• the historical, philosophical, social, cultural, and economic foundations of higher education;
• the social, cultural, political, and economic contexts in which institutions of higher education operate;
• international and comparative higher education;
• transitions and access in relation to schooling, postsecondary education, and work; and
• policies and practices in contemporary postsecondary education systems in Canada and abroad, including workplace-oriented education and training.

Staff (name • specialization)

1. Lesley Andres • sociology of education, foundations of higher education, access to postsecondary participation, quantitative and qualitative research methods
2. William Bruneau • foundations, history, and politics of higher education
3. John Chase • institutional research and planning
4. John Dennison • development of community colleges, current problems and issues in higher education
5. Donald Fisher • public policy analysis, academic industry and culture of universities, philanthropy, historical sociology and privatization
6. Daniel Pratt • adult education, instruction and learning in higher education settings, and cultural diversity
7. Kjell Rubenson • public policy analysis, postsecondary education and the labor market
8. Hans G. Schuetze • human resources and economic development, higher education research, educational organization and finance, adult training and retraining, technology policies, higher education-business cooperation, continuing higher education
9. Thomas J. Sork • program planning and evaluation, continuing professional education, planning in educational organizations, community adult education, professional ethics
10. Allison R. Tom • women, education, and employment; gender and the meaning of work
Courses:
- Foundations of Higher Education
- Organization and Administration of Postsecondary Education and Training
- Current issues in Higher Education
- Comparative and International Higher Education

Student enrollments: M.A. (full-time 15–20, part-time 5); Ph.D. 5; other (full-time 8–10, part-time 6–7)

Manitoba, University of, Centre for Higher Education Research and Development

Address: 220 Sinnott Building, 70 Dysart Road, The University of Manitoba, Winnipeg MB, R3T 2N2, Canada

2. Rodney A. Clifton • Professor • sociology
3. Frank Hechter • Assistant Professor • professional education, learning and teaching
4. David R. Morphy • Professor • student services
5. Raymond P. Perry • Professor • psychology
6. Lance W. Roberts • Professor • sociology
7. Derek Hum • Professor • economics
8. Lynn Taylor • Assistant Professor • faculty development, curriculum, learning and teaching

Student enrollments: M.Ed. (full-time 2, part-time 15); Ph.D. (full-time 1, part-time 3)

Toronto, University of, the Higher Education Group at the University of Toronto/Ontario Institute for Studies in Education

Address: 252 Bloor Street West, Toronto, Ontario, M5S 1V6, Canada

Phone: 416-923-6641, ext. 2308
Fax: 416-926-4741
Website: http://www.oise.utoronto.ca/Bulletin/tps.html#HigherEd

Date established: 1965
Major source of funding: University

Organizational focus:
To provide postgraduate education for scholars, researchers, and practitioners, and to conduct research in the field of higher education.
The Institute offers master’s and doctoral programs in higher education designed to prepare graduates for, or enhance their, careers in scholarship, research, or practice in the field of higher education. While the focus is on the broad field of higher education, the Institute has particular strengths in the following: higher education policy; governance; professional education, especially in the health sciences; community college leadership; and women and higher education.

Current publications:
• Higher Education Perspectives (annual journal)
• occasional books
Staff (name • rank/title • specialization):
1. Ruth E. S. Hayhoe • Professor • comparative higher education, international academic relations, higher education in Asia
2. Angela Hildyard • Associate Professor • cognitive psychology, learning and learning systems in higher education
3. Glen A. Jones • Associate Professor • systems and politics of higher education in Canada
4. Daniel W. Lang • Professor • administration, management, planning
5. Jamie-Lynn Magnusson • Associate Professor • teaching and learning, critical pedagogy, inquiry methods, cognition, motivation, assessment
6. Linda Muzzin • Associate Professor • professional education, sociology of the professions
7. Julia Pan • Research Officer • comparative higher education, higher education in Asia
8. Saeed Quazi • Associate Professor Emeritus • strategic and long-range planning, administration, human resource planning and administration
9. Michael L. Skolnik • Professor • higher education systems and policy
10. Cicely Watson • Professor Emeritus • professional education, planning, forecasting, and policy studies for higher education systems

Student enrollments: M.A. (part-time 3, full-time 3); M.Ed. (part-time 32, full-time 8); Ed.D. (part-time 24, full-time 6); Ph.D. (part-time 22, full-time 18)

Courses:
• The History of Higher Education in Canada
• Recurring Issues in Postsecondary Education
• Issues in Medical/Health Professional Education
• The Community College
• Systems of Higher Education
• Strategic and Long-Range Planning for Postsecondary Systems
• Research in Health Professional Education

Chile

Saint Thomas University, Center for Research and Development of Teaching (Centro de mejoramiento e innovación académica de la Universidad Santo Tomás)

Address: 146 Ejército Street, Santiago, Chile

Phone: (562) 362 4821
Fax: (562) 360 1376
E-mail: rectoria@ust.cl
Website: http://www.ust.cl

Date established: 1997
Major source of funding: University

Organizational focus:
The Center’s main focus is to change current teaching practices by defining what students should read before each class session. This change
implies that the professor must define the topic of each session during
the semester, plus writing the relevant questions for each document
that should be read beforehand, and evaluating the reading (a one-
question quiz) at the beginning of each session. The Center helps
professors willing to experiment with this approach and carries out
impact evaluations in classes delivered by professors experimenting
with this approach.

Current Publications:
• Report on the impact of private universities in the last two decades
  (available on the web site)
• Report on the implementation of a Pre-lecture Syllabus

Staff (Name):
1. Ernesto Schiefelbein • Rector • class management and cost effective-
   ness
2. Padre José García Patiño • Pro Rector • ethics and teaching of values
3. Eduardo Morales • Vice Rector • evaluation of academic activities
4. Jorge Crossley • Vice Rector • academic development and project de-
   sign
5. Francisco Javier Recabarren • Secretary General • student affairs

China

Beijing Forestry University, Institute for Studies on Higher
Education under the National Forestry Administration

Address: P.O. Box 82, Beijing Forestry University, Beijing, 100083, China

Phone: 0086-010-62338399

Date established: 1984
Major source of funding: University; National Forestry Administration
Organizational focus:
The Institute, housed at Beijing Forestry University (BFU), is mainly concerned with research on higher education—with an emphasis on forestry education in China—and is under the direct administration of the National Forestry Administration (NFA) and the BFU. The Institute conducts work in three major activity areas:
• micro and macro research on the key issues in the field of forestry;
• courses (e.g., pedagogy, psychology, education law, and professional ethics) for new BFU educators; and
• academic exchanges with related organizations such as the Ministry of Education, Chinese Academy of Forestry Sciences, Beijing Forestry Administration, and the Chinese Society of Higher Education.

Current publications:
• *A Guide to World Higher Education*.
• *Forestry Education: New Trends and Prospects*.
• *Forestry Education in China in the 21st Century*.
• *Learning to Study*.
• *Management of School Funding and Improvement of Efficiency for Forestry Universities in China*

Staff (name • rank/title • specialization)
1. He Qingtang • Director, Professor and President of BFU • ecology, higher education
2. Li Baozheng • Director, Deputy Director for Personnel and Education under the NFA • economics, higher education
3. Ying Weilong • Deputy Director, Professor and Vice President of BFU • biology, higher education
4. Wang Jianzhi • Deputy Director, Section Chief for Forestry Education under the NFA • forestry education
5. Li Yong • Executive Deputy Director, Lecturer and Master of Education • comparative education
6. Wu Ye • Dean of the School of Basic Sciences • mathematics
7. Liu Jia • Associate Professor
8. Tao Jianjun • Administrator

Nankai University, Higher Education Research Institute (HERI)

Address: Weijtl Road, 94 Tranjin, Tianjin, 300071, China
Phone: 022-23501467
Fax: 022-23501732
Website: http://www.nankai.edu.cn

Date established: 1998
Major sources of funding: University

Organizational focus:
The Higher Education Research Institute (HERI) mainly focuses on the modernization of higher education in developed countries and the current situation of higher education in developing countries. Through the ongoing work in this academic field, a theory of higher education that combines Nankai ideals with foreign educational philosophies will be attained.

Besides carrying out research on higher education theory, HERI issues timely reports and news about higher education reform here at home and abroad, with reference to higher education reform and development. The Institute is currently undertaking four national and municipal scientific studies as well as other significant research assignments from Nankai University. At the same time, it has made notable achievements turning reform experiences into pragmatic application.

Current publication:
• Forum for Nankai Education.

Staff (name • title/rank • specialization):

- *Sojourners and Foreigners: A Study of Chinese Students’ Intercultural and Interpersonal Relationships in the United States* (monograph)
- *The Economic and Social Effects of Education Investment* (monograph)

Courses:
- Advanced Studies in the Economics of Education
- Theory of Teaching and Course Design in Higher Education Institutions
- Educational Statistics
- Principles of Higher Education
- Chinese Higher Education System
- Qualitative Research in Education
- History of Chinese Higher Education
- Computer Application in Educational Research
- History of Foreign Higher Education
- International Comparative Higher Education
- Higher Education Administration
- Organization Theory and Management of Higher Education
- Economics of Education
- Methodology of Educational Research
- Organizational Behavior and Management Psychology
• Basic Education Administration
• Educational Psychology: A Cognitive-Development Perspective
• Introduction of Technology of Education
• Psychological Issues in College Education
• SAS Software and Its application in Educational Research

Student enrollments: M.A. (13 full-time, 9 part-time); Ph.D. (3 full-time, 18 part-time)

Key textbooks/readings:
• Academy of Management Journal
• Administrative Science Quarterly
• An Introduction to the Economics of Education. Penguin Books.
• Compare: A Journal of Comparative Education
• G. Psacharopoulos and M. Woodhall. Economics of Education
• Course: Key Readings in English. 1985.
• Economics of Education Review
• M. Blaug. Economics of Education Research and Studies. Pergamon
• Educational Economics
• Educational Research
• Higher Education
• Higher Education Policy
• International Journal of Qualitative Studies in Education
• Journal of Higher Education
• Journal of Human Resources
• Studies in Higher Education

Shanghai Institute of Human Resource Development

Address: 21 Cha Ling North Road, Shanghai 200032, China

Telephone: 86-21-64033756
Fax: 86-21-6403367
E-mail: saesihrd@public.sta.net.cn
Date established: 1985
Major source of funding: government, self-generated consultation and training revenues

Organizational focus:
An independent research institution, the Shanghai Institute of Human Resource Development undertakes research, policy consultation, and training activities in the following areas: manpower demand forecasting and educational planning, human resource development and educational policy studies, the financing of education, education administration and evaluation, and information management system development.

In-house publications: Educational Research Information (monthly journal)

Staff: (name • title/rank • specialization):
1. Jiang Minghe • Director and Professor • educational administration, economics of education, advanced educational technology
2. Zhang Chunshu • Deputy Director and Associate Professor • educational planning, economics of education, mathematical modeling
3. Mao Hongxiang • Professor • human resource development and educational planning, science and technology and professional development
4. Tang Xiaojie • Associate Professor • education and society, comparative education, curriculum and instruction
5. Zhu Yiming • Associate Professor • measurement and evaluation, comparative education, instruction theory

Key textbooks/readings:
- Comparative Education Review
- Education and Economics (Chinese)
- Educational Research (Chinese)
- Educational Research Information (Chinese)
- Journal of Higher Education
- Studies in Higher Education
- Shanghai Higher Education Research (Chinese)

South China Normal University, Higher Education Center

Address: South China Normal University, Guangzhou 510631, China

Telephone: 020-85211413
Fax: 020-85213411
Date of establishment: 1985
Major source of funding: University
Organizational focus:
The Center focuses on the following areas:
• the study of reform policies of national education;
• research on international educational reform, especially that of the developed countries and of Southeast Asia;
• providing advice to the president of South China Normal University; and
• giving lectures concerning higher education to other departments in the University.

Current publications:
• A Survey of Higher Educational Reform and Development in China.
• Research on Higher Education (journal)
• Development in Higher Education (journal)

Staff: (name • title/rank • specialization):
1. Ma Zaomin • Lecturer • comparative higher education, professional and technological higher education
2. Zhou Lihua • Lecturer • higher and comparative education research
3. Yang Huiming • Associate Professor, Vice-chief Editor of Research on Higher Education • higher education research and management

Key textbooks/readings:
• Journal of Higher Education. (Wuhan Higher Education Research Group)

Southwest Jiaotong University, Higher Education Institute

Address: Higher Education Institute, Southwest Jiaotong University, Chengdu, Sichuan, 610031, China

Telephone: 028-7600845
Fax: 028-7600846

Date established: 1986
Major source of funding: University

Institutional funding:
The Institute focuses on both scientific research and journal editing. Its multiple purposes include: educational theory and reform research; philosophy, humanities, and social science research; and university reform and development activities. All Institute activities are connected firmly with issues of educational reform and the practice of engineering higher education.

Current publications:
• Engineering Higher Education

Staff (name • title/rank • specialization):
1. Xu Wenlong • Professor • engineering geology
2. Yuan Guanglyn • Assistant Researcher • chemical engineering
3. Chen Yuqi • Lecturer • engineering
4. Yang Shan • Lecturer • Chinese literature
5. Shu Lixia • Library Assistant • higher education administration

Tianjin University, Study Center on Development Strategy

Address: 42 Weijin Road, Tianjin 300072, China
Telephone: 022-27404458
Fax: 022-27401796

Date of establishment: 1998
Major source of funding: University

Organizational focus:
  The mission of the Center is to study the direction and functions of universities.

Tsinghua University, Institute of Education Research

Address: Tsinghua University, Beijing 100084, China

Telephone: (086) 62783326; 62771475
Fax: (086) 62784663
E-mail: sunyu-eri@tsinghua.edu.cn

Date established: 1979
Major source of funding: University

Organizational focus:
  The Institute’s focus is on engineering research in China and abroad. There are two master’s degree teaching programs and a program to train education management and research personnel.

Current publications:
  • Education Research

Staff: (name • title/rank • specialization)
  1. Wang Sunyu • Director, Vice Professor • education management
  2. Li Yue • Vice Director, Vice Professor • psychology
  3. Wang Xiaoyang • Assistant Director, Lecturer • comparative education
  4. Lan Jinsong • Assistant Director, Lecturer • higher education
  5. Ye Fugui • Lecturer • history of education
  6. Li Manli • Lecturer • higher education
  7. Liu jun • Assistant Lecturer • higher education
  8. Xue Xiuzhen • Assistant Lecturer • education management
  9. Jin Fuyi • Librarian
Courses:
- Higher Education
- History of Education
- Education Research Method
- Education Management
- Comparative Education
- Education Psychology

Student enrollments: M.A. (20 full-time, 10 part-time)

Key textbooks/readings:
- Pan, Maoyuan. *Higher Education*.
- Philip G. Altbach. *Comparative Education*.
- *Tsinghua University Education Research*. Institute of Education Research, Tsinghua University.
- *Higher Education Research*. Higher Education Research Institute, Central China Science and Technology University.

Unit of Higher Education Research

Address: 3 Feixi Road, Hefei, Anhui Province, 230039, China

Phone: 86-551-5106234
Fax: 86-551-5107999
Website: http://www.ahu.edu.cn

Date established: 1983
Major source of funding: University

Organizational focus:
The Unit of Higher Education Research examines the development of Chinese and international higher education.

Current publications:
- *Studies on Higher Education* (newsletter)
Staff (name • title/rank • specialization):
1. Shen Huiqing • Director, Associate Research Fellow • comprehensive educational quality
2. Zhang Haihua • Associate Research Fellow • teaching and research of arts courses
3. Dou Hong • Associate Research Fellow • teaching and research of science courses
4. Chen Xin • Research Fellow • educational psychology
5. Zhang Mulian • Research Fellow • educational problems of delinquency

Courses:
• Science of Higher Education
• Educational Psychology
• Administration of Education for Undergraduates

Xiamen University, Institute of Higher Education Science

Address: P. O. Box C, Xiamen University, Xiamen City, Fujian Province, 361005, China

Telephone: (0592) 2180536
Fax: (0592) 2186413
E-mail: gjs@jingxian.xmu.edu.cn
Website: http://www.xmu.edu.cn/ihes/

Date established: 1978
Major source of funding: University

Organizational focus:
The Institute of Higher Education Science focuses on research on higher education theories and trends in China and abroad, issues concerning management of higher education in China, adolescent psychology, developing the fields of higher education and adolescent psychology, cultivating researchers and practitioners in such fields, promoting domestic and international exchanges in the fields of higher education and psychology, and organizing higher education research.

Current publications (all in Chinese):
• Qiuhe Shi. Entrepreneurs and Higher Education. 1995.
• *Journal of Higher Education Abroad* (quarterly, since 1978)

Staff: (name • title/rank • specialization):
1. Pan Maoyuan • Professor, Tutor for doctoral candidates, Director, Academic Committee Honorary Director • higher education theory, history of modern education of China
2. Liu Haifeng • Professor; Tutor for doctoral candidates, Director • history of higher education of China, imperial examination and entrance exam for higher education institutions
3. Wang Weilian • Professor, Tutor for doctoral candidates • higher education theory, curricula and teaching in higher education institutions
4. Wu Daguang • Professor • higher education theory
5. Li Zeyu • Associate Professor • management of higher education, higher education theory
6. Huang Jianru • Associate Professor • comparative higher education, higher education in South Asia
7. Xie Zuoxu • Associate Professor • comparative higher education, history of higher education abroad
8. Shi Quiheng • Associate Professor • system engineering of higher education
9. Wu Yiyiing • Associate Professor • economics of higher education
10. Lin Jinhui • Associate Professor • creativity of college students, study and thinking of college students
11. Huang Futao • Associate Professor • higher education theory, history of higher education abroad
12. Yang Guangyun • Associate Professor • higher education theory
13. Chen Wuyuan • Lecturer • higher education in Japan
14. Zhao Yezhu • Lecturer • higher education theory, women’s higher education
15. Qian Lanying • Lecturer • psychology of college students
16. Zheng Ruolong • Lecturer • higher education theory
17. Wen Xinlan • Lecturer • library management
18. Huang Yaming • Teaching Assistant • experimental psychology
19. Wang Tingfang • Senior Researcher • psychology of college students
20. Lin Zhongmin • Professor • psychology of college students, thinking and motives
21. Zhang Xie • Professor • psychology of higher education management
Wang Zengbing • Professor • management of higher education
22. Luo Qixiu • Associate Professor • learning psychology of college students, counseling for college students
23. Chen Ruhui • Associate Professor • higher education theory
24. Wu Liqing • Associate Professor • higher education theory

Courses:
- Marxist-Leninist Theory and Scientific Socialist Theory
- English
- Higher Education
- Adolescent Psychology
- Management of Higher Education
- History of Chinese Higher Education
- History of Higher Education Abroad
- Evaluation of Higher Education
- Economics of Higher Education
- Psychology of Higher Education Management
- Human Motivation Theory
- Psychology of College Students’ Thinking
- Selected Works from the History of Higher Education
- Issues in Chinese Education History
- Practice Teaching or Administration
- System Engineering of Higher Education
- Higher Education in South Asia
- Research Methods in Higher Education
- Research on Policy and Law of Chinese Higher Education
- Research on Ideas of Western Higher Education
- Mental Health and Counseling for College Students
- Theory and Teaching of Modern Psychology
- Sociology of Education
- Cultural Studies of Education
- Research on Curricula in Higher Educational Institutions
- Higher Education in Taiwan and Hong Kong

Student enrollments: M.A. (full-time 9, part-time 1); Ph.D. (full-time 6, part-time 8)
Key textbooks/readings:
- *Journal of Higher Education* (in Chinese and English)
- *Higher Education*: The International Journal of Higher Education (imported journal)
- *Comparative Education Review* (imported journal)

Zhejiang University, Institute of Higher Education

Address: Zheda Road 20, Hangzhou, Zhejiang Province, 310027, China

Phone: 0086-(571) 795-1487
Fax: 0086-(571) 795-1358

Date established: 1984
Major source of funding: University

Organizational focus:
The Institute of Higher Education focuses on the following research activities:
- the principles of higher education, especially professional education, Third World culture, and the reform of higher education;
- higher education planning and methods;
- comparative higher education; and
- higher education administration and management, as relates specifically to teaching, research, student affairs, and human resources at the university.

Current publications:
- *Education Research* (journal, Zhejiang University)
Staff (name • title/rank • specialization):
1. Wang Peimin • Professor and Director • higher education principles
2. Jiang Shaozhong • Professor • higher education planning
3. Yang Shufeng • Professor • higher education administration and management
4. Gu Jianmin • Associate Professor • comparative research in higher education
5. Xu Weimin • Associate Professor • higher education administration and management
6. Wang Yuzhi • Associate Professor • higher education planning
7. Zou Xiaodong • Associate Professor • higher education planning
8. Ye Min • Associate Professor • higher education principles
9. Chen Gugang • Associate Professor • comparative research in higher education
10. Liu Jirong • Associate Professor • higher education administration and management
11. Wang Suwen • Lecturer • comparative research in higher education
12. Kong Hanbin • Lecturer • comparative research in higher education
13. Sun Xiuli • Lecturer • higher education planning

Courses:
• Natural Dialectic
• Foreign Language
• Comparative Research in Higher Education
• Planning in Higher Education
• Principles of Professional Education
• History of Higher Education
• Evaluation and decision of education
• Education Reform Practice
• Management Theory
• Sociology of Education
• University Psychology
• Curriculum and Its Planning
• Education Evaluation and Measurement
• Computer-aided Management

Student enrollments: M.A. (10)
Zhongshan University, Higher Education Institute

Address: Zhongshan University, Guangzhou, China

Phone: 020-84186300-6890
Fax: 020-84186300-6890
E-mail: puherc@zsu.edu.cn; niuduan@163.net

Date established: 1982
Major source of funding: University

Organizational focus:
The Institute devotes itself to teaching and education research. The Institute now has the right to grant master’s degrees in education management and higher education. It now has the following research orientations: comparative education evaluation and measurement of education, research methods of higher education, management of higher education, psychology of university students.

Current publications:
- Information of Higher Education.
- Research of Higher Education at Zhongshan University.

Staff (name • title/rank • specialization):
1. Wu Fuguang • Professor • comparative studies in education in Hong Kong, Guangzhou, Macao, and Taiwan
2. Zhang Mingiang • Professor and Director • research methods of education

Courses:
- Higher Education
- Principles of Educational Administration
- Methods of Education Research
- History of Ideas on Higher Education in China and Foreign Countries
- Psychology of Educational Administration

Student enrollments: M.A. (part-time 10, full-time 9)

• Research of Education

Cuba

Advanced Education Reference Center (CREA)

Address: calle 127 s/n, Marianao, Ciudad de La Habana, 19390, Cuba

Phone: (537) 20-6336
Fax: (537) 27-2964 ; (537)27-7129
Website: http://www.ispjae.cu/centros/crea/crea.htm

Date established: 1998
Major source of funding: government

Organizational focus:

The Advanced Education Reference Center’s focus is to develop and promote advanced studies and research in the field of educational sciences, applied mainly to the teaching of technical sciences, engineering, and architecture, and focusing on the application of the latest developments in informatics, telematics, and educational technology as they relate to higher education.

Staff (name • title/rank • specialization):

1. Angel Emilio Castañeda Hevia • Director of CREA, Professor • curriculum design
2. Elsa M.Herrero Tunis • Assistant Professor • didactics
3. Ana María Fernandez Gonzalez • Interinstitutional Relations Director, Assistant Professor • psychology, educational communication
4. Orestes D.Castro Pimienta • Assistant Professor, Research Projects Director • educational assessment
5. María Niurka Valdés Montalvo • Assistant Professor, Information Management Director • social sciences
6. Ramón Collazo Delgado • Assistant Professor, Director of the Virtual University Project • educational technology
7. Héctor Villafranca Cabrera • informatics
8. Osier Joo Hitchman • network administrator
9. Manuela Vargas Villafuerte • scientific information

Courses:
- Contemporary Higher Education Problems and Curriculum Design at the Threshold of the 21st Century
- University Didactics and Its Implementation in the New Information Communications Technologies
- Communication in the University Teaching Process
- Institutional and Learning Assessment

Key textbooks/readings:
- *Prospects* (quarterly review of education, UNESCO)
- *Mundo escolar*
- *Actas pedagógicas*
- *Educación superior contemporánea*
- *Educación*
- *El Correo de la UNESCO*
- *Universitas 2000*

Havana, University of, Center for Studies in the Improvement of Higher Education at the University of Havana (Centro de estudios para el perfeccionamiento de la educación superior) (CEPES-UH)

Address: Calle 23 No. 453, e/ H e I. Vedado, Ciudad de La Habana. Cuba, Código Postal 10400
Telephone: (53-7) 320344, 324705
Fax: (53-7) 334182
E-mail: cepes@cepes.uh.cu
Webpage: http://www.uh.cu

Date established: 1982
Major source of funding: University

Organizational Focus:
The Studies Center for the Improvement of Higher Education at the University of Havana (CEPES-UH) is an interdisciplinary center for
INVENTORY     73

research and graduate studies that integrates the perspectives of peda-
gogical, psychological, sociological, economic, and new information
and communications technologies that facilitate the characterization
and presentation of solutions for institutional problems in higher edu-
cation. Our mission is to contribute to the development of scientific
thought about higher education by generating, assimilating, adapting,
distributing, transferring, and using scientific knowledge and
technology—particularly in Cuba, Latin America, and the Caribbean.
The fundamental areas of investigation are the development of the theo-
retical and methodological approaches to study systems and institutions
of higher education. Another goal is the improvement of systems and
institutions of higher education, their processes and participants.

The Center develops broad academic exchanges with important insti-
tutions of higher education in Latin America and other regions of the
world with whom it conducts activities such as teaching graduate pro-
grams, research, bibliographic exchanges, assessment and consulting,
as well as academic and scientific events. In addition, it has collabora-
tive relationships with (among others) the International Institute of
Higher Education of Latin America and the Caribbean (IESALC), In-
ternational Institute of Educational Planning (IIPE), Union of Latin
American Universities (UDUAL), InterAmerican Organization of Uni-
versities (OUI).

The Center functions as a faculty of UNESCO in University Manage-
ment and Teaching, the first of its type created in the country. Under its
auspices, various projects have been conducted—such as one on teach-
ers as researchers—that have facilitated the possibility of establishing
a network of similar faculties in this area in Latin America and the
Caribbean and the development—in collaboration with institutions of
UNESCO—along these thematic lines of research.

Current publications:
• World Trends in Higher Education.
• Curriculum: Design, Practice, and Evaluation.
• The Process of University Teaching-Learning and Didactics.
• The Formation of University Teachers.
• Group Learning: Value Development in University Students.
• Planning, Strategic Management, and Institutional Prospects: Informa-
tion Systems for Support for University Planning.
• Institutional Evaluation and Follow-up with Graduates.
• Government, Management Models and Institutional Organization.
• Academic Leadership.
• Institutional Cultural Change.
• Management of Teaching, Research, Extension, and University Resources.
• Automated Educational Information Management.
• University-Industry and Access to Higher Education.
• Contemporary University Trends. 1998.

The Center publishes the Review of Cuban Higher Education quarterly as a mechanism for the academic and scientific distribution for Cuban higher education. It is distributed by exchange or subscription inside and outside Cuba; the Review also gathers the experiences of other countries. Articles by scholars from these countries are also published in our journal.

Staff: (name • title/rank):
1. Elvira Martín Sabina • Director
2. Boris Trist Pérez • Assistant Director
3. José Luis Almuiñas Rivero • President of the Scientific Council
4. Ana Margarita Sosa Castillo • Academic Secretary
5. José Luis Almuiñas Rivero • Professor
6. Victoria Ojalvo Mitraný • Professor
7. Benito Romero Sotolongo • Professor
8. Nancy Moreno González • Professor

17. Viviana González Maura • Professor
18. Herminia Hernández • Professor
19. Mario Mayor Vázquez • Professor
20. Sinesio Santos Gutiérrez • Professor
21. Jaime López • Professor
22. Thais Marí Díaz • Professor
23. Ana Rosa Rojas Rodríguez • Professor
24. Nora Arrechavaleta Guarton • Researcher
25. Adela Hernandez Díaz • Researcher
Courses:
Doctoral programs are offered in two areas: pedagogical science and science of education. The latter focuses on information and communication in education. In these fields research is oriented toward practical application in higher education. The master’s degree programs are offered part time and full time and take two to four years, depending on the course.

Programs are offered in higher education, university management, teaching, and educational research. A certificate program and internships were developed in response to a request from the institution. The Center offers assessment, consulting, and the possibility of engaging in joint research projects. The Center convenes annual and biannual courses and international workshops on diverse topics in higher education. It also offers national workshops in different areas of study.

Student enrollments: M.A. (295); Ph.D. (25); Certificate (105); Internships (402)

Key textbooks/readings:
• Higher Education and Society. Regional Center for Higher Education in Latin America and the Caribbean.
• Prospects (UNESCO)

Czech Republic

Charles University, Educational Policy Center (Stredisko vzdelavaci politiky)

Address: Myslikova 7, 110 00 Prague 1, Czech Republic

Address: Strasbourg, 67006, France

Telephone: 33-0-388412643 or 33-0-3884136
Fax: 33-0-388412706 or 33-0-388412788
E-mail: sjur.bergan@coe.fr
Website: http://www/culture.coe.fr/the

Date established: 1949
Major source of funding: governments

Organizational focus:
The Council of Europe is a political intergovernmental organization that encompasses 40 European pluralist democracies, and is distinct from the 15-nation European Union. One of the Council’s primary functions is to encourage the mobility of students, research workers, and teaching staff in higher education, especially through the new joint Council of Europe/UNESCO Convention on the recognition of qualifications concerning higher education in the European region (ETS no. 165). The Council is focused on a number of themes: building the university of tomorrow,
policies and practice for higher education in Europe, ideas on the renewal of higher education in the new member countries, and higher education for a democratic society.

Current publications:

Germany

Bavarian State Institute for Research and Planning into Higher Education (Bayerisches Staatsinstitut für Hochschulforschung und Hochschulplanung) (IHF)

Address: Prinzregentenstr. 24, 80538 München, Germany
Phone: (089) 21234-405
Fax: (089) 21234-450  
Website: http://www.ihf.bayern.de/index.htm  
E-mail: sekretariat@ihf.bayern.de  

Date established: 1973  
Major source of funding: federal government  

Organizational focus:  
The Bavarian State Institute for Research and Planning into Higher Education (IHF) assists the ministry with regard to the development of higher education in Bavaria in a national and international context. The Institute’s research results are published as monographs. In addition, the Institute edits *Beiträge zur Hochschulforschung*, a quarterly review dealing with all aspects of research into higher education.

The Institute’s general fields of research are:  
• state and development of the system of higher education in Germany;  
• interdependencies between changes in state, society, and the system of higher education;  
• special aspects of higher education—its problems and efficiency;  
• research activities in universities, in particular coordination and concentration in specific fields;  
• support of institutions of higher education in implementing reform concepts;  
• assistance to the ministry regarding the master plan for higher education (*Hochschulgesamtplan*);  
• systems of higher education abroad; and  
• elaboration and implementation of methods for research into higher education.

Current publications:  
• The IHF has numerous publications. For a complete list, see website: <http://www.ihf.bayern.de/fr_publikationen.htm>.

Staff (name • title/rank):  
  1. Hans-Ulrich Küpper • Director, Head of Research  
  2. Siegfried H. Schmidt  
  3. Brigitte Roth  
  4. Geneviève Gauvain  
  5. Carsten Kröger
6. The Institute also employs 15 researchers from various scientific disciplines and 10 technical and clerical staff members.

Center for Higher Education Development (CHE) (Centrum für Hochschulentwicklung)

Address: Carl-Bertelsmann-Str. 256, Gütersloh, 33311, Germany

Telephone: 00 49/ (0) 52 41/ 97 61-22
Fax: 00 49/ (0) 52 41/ 97 61-40
Website: http://www.che.de

Date established: 1994
Major source of funding: private funding

Organizational focus:
The Center for Higher Education Development (CHE) was founded by the Bertelsmann Foundation and the German Rectors’ Conference (Hochschulrektorenkonferenz ) to initiate and support reform in the German higher education system. The CHE seeks to define politically independent objectives, develop concrete strategies to realize these objectives, and test the extent to which change can be introduced.

As a nonprofit, limited liability company (GmbH), the CHE is in a position to act independently of individual or political interests. Furthermore, the CHE is committed to the common good in both financial and idealistic terms. CHE offices are located in the Bertelsmann Foundation buildings in Gütersloh.

The overarching objective of the CHE is to promote the efficiency of German universities and to strengthen their capacity to evolve. Structural problems in the German postsecondary system, such as increasing numbers of students and underfunding, require revolutionary changes in educational policy—changes that involve the breaking of long-standing taboos. These include, among other things, decreasing state regulation, improving the quality in research and teaching conditions, reorganizing access to postsecondary education, introducing tuition fees, delegating responsibility to all levels of the system and privatizing particular parts, strengthening postsecondary management, and finally bringing alternative principles and models of higher education into consideration.
The CHE regards itself as both a “think tank,” and as a consultancy to higher education. Its objectives are to develop models for performance-oriented and competitive management of higher education, and foster acceptance of these new management approaches within institutions of higher education and within society at large. In this context it is imperative to examine the higher education practices and initiatives of other countries and consider their relevance and transferability to the German setting.

Three different approaches characterize CHE’s work. They are:
• creating pilot projects involving individual postsecondary institutions and the related state agencies;
• introducing concrete reform proposals into public discussion, such as those concerning higher education access and financing the higher education system, and
• organizing symposia and workshops to ensure the exchange of information between higher education institutions.

Current publications:

Staff (name • title/rank • specialization):
1. Detlef Müller-Boeling • Director • higher education management and finance
2. Klaus Neuvians • Deputy Director • organizational development
3. Andreas Barz • program manager • quality management, evaluation
4. Petra Buhr • program manager • evaluation
5. Susanne Dopheide • program manager • public relations
6. Jutta Fedrowitz • program manager • higher education management
7. Petra Giebisch • program manager • evaluation
8. Stefan Hornbostel • program manager • evaluation
9. Olaf Keitzel • program manager • higher education administration
10. Erhard Krasny • program manager • higher education management and strategy

Kassel, University of, Centre for Research on Higher Education and Work
(Universität Gesamthochschule Kassel, Wissenschaftliches Zentrum für Berufs- und Hochschulforschung)

Address: Henschelstrasse 4, Kassel, D-34109, Germany
Phone: (+49)561 / 804 2415; (+49)561 / 804 2408
Fax: (+49)561 / 804 7415; (+49)561 / 804 3301
Date established: 1978
Major source of funding: University

Organizational focus:
The predominant areas of research carried out at the Centre concern the relationship between higher education and work and the system of higher education in general, including its relation to the state and society. The Centre aims to contribute both to the theoretical and methodological advancement of research and to provision of practice-relevant systematic knowledge on higher education. Among the specific topics of research conducted at the Centre are the following: professional careers of graduates from higher education; problems of transition from higher education to the world of work; the academic profession; the situation of women in academia; the development of the higher education system; steering processes and decision making in higher education institutions; higher education in other industrialized countries as well as in developing countries; evaluation of teaching, research, and administrative activities; teaching/learning processes; international mobility of students and academic staff.

The University of Kassel provides the Centre with basic administrative and financial support. Research projects are and were funded among others by: the Carnegie-Foundation for the Advancement of Teaching; Deutsche Forschungsgemeinschaft; the European Commission; German Academic Exchange Service; Federal Ministry of Education, Science, Research, and Technology; Hessian Ministry of Science and Arts; Institute for Employment Research of the Federal Employment Services; Körber Foundation; Ministry of the Interior, North Rhine Westphalia; Schader Foundation; Volkswagen Foundation; Boehringer-Ingelheim Funds; Swiss Science Council.

Current Publications:
The Centre’s research consists mainly of the following three series:
• Arbeitspapiere—published by and available at the Centre for Research on Higher Education and Work (34 titles).
• Werkstattberichte—published by the Centre, distributed by Jenior and Preffler Publishers, Lassallestr. 15, D-34119 Kassel (55 titles).
• Update (biannual newsletter)
1998 publications:

Staff (name • title/rank):
1. Christiane Bradatsch • head of publication unit
2. Lutz Bornmann • Researcher
3. Hans-Dieter Daniel • Director
4. Jürgen Enders • Executive Director
5. Gabriele Freidank • head of documentation unit
6. Barbara Grünig • Researcher
7. Alexandra Horny • Researcher
8. Friedhelm Maiworm • Researcher

Date established: 1996
Major source of funding: state (two-thirds), federal government (one-third), and third-party / contract funding

Organizational focus:
Work at the Institute revolves around themes related to higher education and social change. Major fields of research include:
- differentiation and flexibility;
- relationships between higher education, the region, and the labor market;
- impacts of internationalization and steering issues;
- efficiency and legitimation;
- governance and steering; and
- quality development

Current publications:
- book series
- Arbeitsberichte (reports)
- HOF-Berichte (newsletter)
Staff (name • title/rank • specialization):
1. J. H. Olbertz • Director • education, pedagogics, continuing education, adult education
2. J. Lischka • Managing Director • access, transition to work, continuing education
3. G. Buck-Bechler • Researcher • academic studies, curriculum development, transformation of higher education in East German, institutional profile building, higher education and the region
4. P. Altmiks • doctoral candidate • efficiency, financing higher education, economics
5. H. John • Researcher • reforming academic studies, structures and degrees
6. B.M. Kehm • Researcher • internationalization; steering, quality issues; international comparisons; higher education developments in Europe
7. R. Kohls • Researcher • educational information systems, databases, literature research
8. D. Lewin • Researcher • academic studies, structural data on higher education, multimedia use in higher education
9. P. Pasternak • Researcher • governance; transformation of East German science and higher education systems; profile building; decision making and information structures in higher education institutions; higher education policy

Ghana

Association of African Universities (AAU)

Address: P.O. Box 5744, Accra-North, Ghana

Phone: (233-21) 774495
Fax: (233-21) 774821
E-mail: info@aau.org
Website: http://www.aau.org

Date established: 1967
Major source of funding: membership fees; donors; African governments; OAU
Organizational focus:
The focus of the Association of African Universities is to:
• promote interchange, contact, and cooperation among universities in Africa;
• collect, clarify, and disseminate information on higher education and research;
• study and make known the educational and related needs of African universities; and
• encourage increased contacts between AAU members and the international academic world.

Current Publications:
• AAU Newsletter (3 issues annually).
• research reports (2 publications to date).
• The African experience with Higher Education.
• various conference papers

Staff (name • title/rank):
1. Alakpa Sawyerr • Director of Research
2. Zoumana Bamba • Head Information and Communication
3. Dominic Tarpeh • Head Administration and Finances
4. G.O.S. Ekhaguere • Head Programs and Cooperation
5. Chris Nwamuo • Senior Program Officer

Hungary

Hungarian Institute for Educational Research (HIER) (Oktatáskutató Intézet)

Address: P.O.Box 427, Budapest, H-1395, Hungary
Phone: (36-1) 329-76-39
Fax: (36-1) 329-76-52
E-mail: H6229IER@ELLA.HU
Website: http://www.hier.iif.hu

Date established: 1981
Major source of funding: government
Organizational focus:

The Hungarian Institute for Educational Research (HIER) carries out empirical, sociological, and statistical economic research on higher education. HIER contributes to the development of the educational system and provides help and scientific background for decision makers in educational policy through comparative, historical, political, legislative, and economic research and analysis. HIER is also a center in postgraduate education, offering an M.A. in pedagogy and a Ph.D. subprogram in higher education research through Kossuth Lajos University (KLTE) in Debrecen.

The main research efforts of the Institute cover the entire system of education. These include:

- higher education;
- public education, including vocational education;
- regional analysis of education;
- minorities in education;
- educational policy;
- nonformal education;
- youth research; and
- financing education.

Current publications:

- Quarterly Review: Education (in Hungarian, with English and German summaries)
- Nonformal Education. 1997.
- Balance 1994–98 (periodic analysis of Hungarian education)
- National Core Curriculum.
- Education Papers (series of final reports of research carried out at the Institute)
- newsletter (monthly).

Staff (name • title/rank • specialization):

1. Tamás Kozma • Director • regional analysis of tertiary education
2. Ildikó Hrubos • Group Head, Higher Education Research; Head of the Ph.D. subprogram • comparative research on educational systems
3. Andor Ladányi • Senior Researcher • historical research on higher education, the system and legislation of higher education
4. Peter Tibor Nagy • Group Head • educational policy, religious education, historical research
5. Tamás László Szabó • Senior Researcher • teacher training, comparative research
6. Mariann Szemerszki • Assistant • social position of students, empirical researches
7. Gábor Tomasz • Assistant • social research on higher education
8. Katalin R. Forray • Group Leader • minorities in higher education
9. Gábor Kálmán • Group Leader • social position of students, selection in higher education

Student enrollments: M.A. (part-time 25), Ph.D. 11 (part time 11)

Kossuth University, Doctoral Program for Higher Education Research

Address: Egyetem ter 1, Debrecen, 4010, Hungary
Phone: 36-52-316-666-2223
Fax: 36-52-316-666-2223
Website: http://www.klte.hu/~nevtud/phd/phd.htm

Date established: 1995
Major source of funding: government

Organizational focus:
The main focus of our doctoral program is higher education research. Our dissertation research topics include historical and comparative analyses, the sociology of teaching and the politics of education, and regional and minority issues. Approaches to statistical assessment in higher education, international relations in higher education, policymaking and the analysis of organizational integration are also areas of interest.

Current publications:
• Regional Cooperation in Higher Education.
• annual yearbook of the doctoral program
• newsletter of the doctoral program
Staff (name • title/rank • specialization):
1. Nagy Zoltán Abádi • Professor • international relations in higher education
2. György Bazsa • Professor • science policy
3. Mihály Beck • member of the Hungarian Academy of Sciences, Professor • ethics of science
4. János Csirik • Professor • financing
5. R. Katalin Forray • Associate Professor • regional and minority studies
6. Botond Gaál • Professor • integration in higher education
7. Ildikóhabil Hrubos • Professor • governance of higher education institutions
8. Tamás Kozma • Director, Professor • comparative analysis of education systems
9. Andor Ladányi • Research Professor • history of higher education in the 20th century
10. Péter Lukács • Associate Professor • higher education as a social system
11. László Murakázi • Associate Professor • economics of education
12. András Nábrádi • Associate Professor • institutional management
13. Péter Tibor Nagy • Senior Researcher • higher education policy
14. István Polönyi • Associate Professor • economics of education
15. János Setényi • Senior Researcher • quality assurance
16. László Tamás Szabó • Associate Professor • teacher training
17. Attila Szentromai • Professor • comparative analysis of higher education systems
18. Jeni Szigeti • Professor • private and denominational higher education

Courses:
• Higher Education and Labor Market
• Evaluation in Higher Education
• Comparative Analysis of Higher Education
• Comparative Perspectives on Higher Education
• Methodology of Higher Education Research

Student enrollments: Ph.D. (full-time 8, part-time 53)

India

**Association of Indian Universities**

Address: AIU House, 16 Kotla Marg, New Delhi 110002, India

Telephone: 91-011-3230059; 3232429; 3233390; 3232305
Fax: 091-011-3236105
E-mail: aiu@del2.vsnl.net.in
Website: http://www.aiuweb.org
Date established: 1925
Major source of funding: membership fees; government

Organizational focus:
The Association exists to:
• serve as an interuniversity organization;
• act as a bureau of information and facilitate communication, coordination, and mutual consultation among universities;
• act as a liaison between the universities and the government;
• act as the representative of Indian universities;
• promote or undertake programs to improve standards of instruction, examination, research, textbooks, scholarly publications, library organization, and other programs that may contribute to the growth and propagation of knowledge;
• help universities to maintain their autonomous character;
• facilitate exchanges of members of the teaching and research staff;
• assist universities in obtaining recognition for their degrees, diplomas, and examinations from other universities, Indian as well as foreign;
• undertake, organize, and facilitate conferences, seminars, workshops, lectures and research in higher learning;
• establish and maintain a sports organization for promoting sports among member universities;
• establish and maintain organizations dealing with youth welfare, student services, cultural programs, adult education, and such other activities conducive to the improvement and welfare of students, teachers and others connected with universities;
• act as a service agency to universities; and
• undertake, facilitate, and provide for the publication of newsletters, research papers, books, and journals.

Staff (name • title/rank):
1. K. B. Powar • Secretary General
2. B. B. Dhar • Director (Research)
3. Sutinder Singh • Jt. Secretary and Editor, University News
4. Sampson David • Senior Cultural Officer
5. A. C. Gogia • Accounts Officer
6. Gurdeep Singh • Sports Officer
7. Veena Bhalla • Under Secretary (SIS)
8. B. S. Dahiya • Assistant Sales Officer

Key textbooks/readings:

National Institute of Educational Planning and Administration

Address: 17 B Sri Aurobindo Marg, New Delhi 110-016, India

Telephone: (91-11) 696-2120; 696-2335; 696-7780; 696-2126; 696-5305
Fax: (91-11) 685-3041; and 686-5180

Date Established: 1962 (by UNESCO), 1972 (by government)
Major source of funding: government

Organizational focus:
To conduct research, provide training, and offer consultancy services in the area of educational planning and development. The main geographical area of focus is India (including various states in India), countries in South Asia, and developing countries in general. The Institute is concerned with all levels and types of education.

Current publications:
Journals:
• Journal of Educational Planning and Administration (in English)
• Pariprekshya (in Hindi)

Books:
• Reforms in School Education: Issues in Policy, Planning and Implementation. 1996.
• Modules on District Planning in Education. 1997.
• Educational Administration (in various states in India, 1994-98).
• Single-teacher Schools in Tribal Areas. 1994.
• Costs of Distance Education in India. 1994.
• Expenditure on Education. 1994.

Staff (name • title/rank):
1. Jandhyala B. G. Tilak • Senior Fellow and Head, Educational Finance Unit
2. K. Sudha Rao • Senior Fellow, Higher Education Unit
3. N. V. Varghese • Senior Fellow, Sub-National Systems Unit

Courses:
Only Diploma Courses are offered (not exclusively in higher education). These include: diploma in educational planning and administration (6 months) for Indian nationals; international diploma in educational planning and administration (6 months) for participants outside India. In addition, several short term (1–3 weeks) training programs are offered. They are mostly in-service programs for officers in government education departments.

Key textbooks/readings:
• Higher Education Reform in India.
• International Encyclopedia of Higher Education.
• Journal of Educational Planning and Administration
• International Journal of Educational Development
• Higher Education Review
• Comparative Education
• Comparative Education Review
• Perspectives in Education
• Higher Education Quarterly

Japan

Hiroshima University, Research Institute for Higher Education

Address: 2-2, Kagamiyama 1-chome, Higashi-Hiroshima 739-8512, Japan

Telephone: 0824-24-6240
Organizational focus:
The Institute’s first priority is to serve as a national focal point of higher education research activities. Its second priority is to serve Hiroshima University in its effort as an organization of institutional study to improve the quality of university education and management. The third function relates to international activity. Additionally, the Institute takes part in various international joint research activities with UNESCO, OECD, and other university consortia outside Japan.

Current publications:
• a collection of studies of the university (an annual publication featuring academic essays and research reports on higher education)
• a research papers series (a collection of short interim reports, bibliographical notes, translations of important foreign documents, etc.)
• Colleague (a newspaper).
• a catalogue of books on higher education
• a book of statistical data on higher education

Staff (ame • title/rank • specialization):
1. Arimoto Akira • Professor and Director • sociology of education
2. Kurimoto Kazuo • Professor • educational administration
3. Yamanoi Atsunori • Professor • sociology of education
4. Imai Shigetaka • Professor • comparative education
5. Otsuka Yutaka • Professor • comparative education
6. Hata Takashi • Associate Professor • history of higher education in Japan
7. Yonezawa Akiyoshi • Assistant Professor • sociology and economics of education
8. Nanbu Hirotaka • Research Associate • comparative education
9. Kanno Fumi • Research Associate • sociology of education
10. Hirata Yuji • Research Associate • history of education
11. Murasawa Masataka • Research Associate • sociology of education

Courses:
• The University and Higher Education
- Comparative Higher Education
- Higher Education Policy
- Comparative University Systems
- University Economics and Budgets
- International Academic Exchanges

Student enrollments: M.A. (2 full-time), Ph.D. (2 full-time), other (1 full-time)

Key textbooks/readings:
- Japanese Journal of Higher Education Research

Hokkaido University, Center for Research and Development in Higher Education

Address: Kita 17, Nishi 8, Kita-ku, Sapporo 060-0817, Japan

Telephone: +81-11-706-5247
Fax: +81-11-706-7854
E-mail: kyomu@high.hokudai.ac.jp
Website: http://infosys.hokudai.ac.jp

Date established: 1995
Major source of funding: University

Organizational focus:
The Center was established in the course of a university-wide reorganization in 1995, as a cooperative research unit to study education at the undergraduate level and beyond, including adult education and lifelong learning. The three objectives of the center are as follows:
- Planning and adjustment of general education: undergraduate education at the Hokkaido University has two components: specialized education and general education. These two components are integrated into a coherent curriculum. The Center plans and adjusts the general education component to implement the curriculum smoothly and effectively;
- Research on higher education: the Center researches and studies higher education. This includes the study of teaching evaluation and improvement of teaching technique; and
• Research on adult education and lifelong learning: the Center researches and studies adult education and lifelong learning. This includes the systemization of lifelong learning plans and the organization of community extension programs.

Current publications:
• *Higher Education and Lifelong Learning* (journal)
• *Center News* (newsletter)

Staff (name • title/rank):
Research Division for Higher Education:
1. Abe Kazuhiro • Director, Professor
2. Ogasawara Masaaki • Professor
3. Nishimori Toshiyuki • Professor
4. Hosokawa Toshiyuki • Professor

Research Division for Lifelong Learning:
5. Kobayashi Hajime
6. Machii Teruhisa
7. Kimura Makotao
8. Takeuchi Shinya

**Institute for Democratic Education**

Address: 2-16-1 Nishi-Shinbashi, Minato-ku, Tokyo 105-0003, Japan

Telephone: 03-3431-6822
Fax: 03-3431-6822

Date established: July 1954
Major source of funding: membership and subscription fees

Organizational focus:
The Institute for Democratic Education (IDE) is a nonprofit private organization concerned with higher education management, teaching, and research. IDE’s main purpose is to discuss and report on problems and issues in the field of higher education. Research questions include: What are the tasks of universal higher education? How should institutions be managed? What are the important issues for students and
teachers? IDE publishes a monthly magazine, *IDE: Current Higher Education*, with a circulation of more than 6,000.

Current publications:
- IDE: Current Higher Education
- Reconsidering Liberal Education.
- Articulation between Higher Education and High School Education.

**Institute for Higher Education**

Address: 2-16-1 Nishi-Shinbashi 1, Minato-ku, Tokyo 105-0003, Japan

Telephone: 03-3451-6822  
Fax: 03-3451-6822

Date established: 1979  
Major source of funding: grants; philanthropic organizations

Organizational focus:
The Institute for Higher Education is a private research institute that was established as a sister organization to the Institute for Democratic Education. The Institute’s main purpose is to research the problems of higher education, mainly from a research-oriented and policy-oriented standpoint.

Current publications:
- Bulletin of Higher Education

**Kobe University, Research Institute for Higher Education (Kobe Daigaku Daigakukyouiku Kennkyuu Senta)**

Organizational focus:
Research for improving undergraduate curriculum and teaching methods, and for strengthening graduate programs through joint study projects and seminars in cooperation with Japanese and international researchers in higher education.

Staff (name • title/rank • specialization):
1. Umakoshi Toru • Director • comparative higher education
2. Todayama Kazuhisa • Associate Professor • science philosophy
3. Chikada Masahiro • Assistant Professor • comparative higher education
4. Nakai Toshiki • Research Associate • educational development
5. Two professorships—one for foreigners, the other for Japanese—are also funded every year.

National Institute of Multimedia Education (NIME)

Address: 2 -12 Wakaba, Mihama-ku, Chiba 261-0014, Japan
Telephone: 81-43-298-3000
Fax: 81-43-298-3471
E-mail: sakamoto@nime.ac.jp
Website: http://www.nime.ac.jp/

Date established: 1978
Major source of funding: government
Organizational focus:
The National Institute of Multimedia Education (NIME) promotes the use of multimedia in higher education, researches and develops curricula and methods for education using various advanced media, and disseminates the findings of its research and development activities.

The Institute’s activities are currently focused on the following areas:
- space collaboration systems,
- database projects,
- multimedia instructional materials, and
- faculty development.

Current publications:
- Survey of National Institute of Multimedia Education.
- Media and Education.
- Yasuo Fukui. Instructional Materials for Undergraduate Education: Research and Practice.
- Hirro Saga. Media in Higher Education and Instructional Skill Development.
- newsletter (monthly)

Staff (name • title/rank • specialization):
1. Jane Bachnik • Professor • media-based learning
2. Itoh Hideko • Professor • media-based learning
3. Kikukawa Takeshi • Professor • digital media distribution
4. Kobayashi Toshio • Professor • networks
5. Mizushima Kazuo • Professor • copyright handling systems
6. Otsuka Yusaku • Professor • media-based learning

Website: <http://www.he.u-tokyo.ac.jp/>

Date established: 1996
Major source of funding: University

Organizational focus:
The Center provides two primary functions: to carry out research concerning the reform of the university, in particular, in the management and finance; and to support the development of curricula and teaching at the University of Tokyo and other universities. The Center provides basic data and information to assist the university in reforming its academic and administrative arrangements, and engages in academic research into the structure and contents of higher education. Its specific duties concern the following three activities:
• The first mission of the Center is to analyze the current problems and possible ways to improve higher education. In 1997 it conducted a survey of all fourth-year undergraduates to analyze the problems with current classroom teaching. The insights obtained through the survey have been reported to the whole university and to individual faculties. It is planning a follow-up survey on the class of 1997.
• The Center’s second mission is to analyze current practices in governance and forms of control, decision making, and finance at the university, while exploring alternative forms. A research project was launched in 1997 for this purpose.
• The third mission of the Center is to help create and participate in the networks linking various initiatives for university reforms both in Japan and overseas. It has been cooperating with similar centers in Japan and has a close relation with international organizations including OECD-IMHE. In 1997, in cooperation with UNESCO it held a round table on “the relationship between research, policy and practice in higher education.”

Current publications:
• newsletter (in Japanese)

Staff (name • title/rank • specialization):
1. Kaneko Motohisa • Director, Professor • economics of education

Jordan

The Association of Arab Universities (AARU)

Address: P.O. Box 401, Jubeyha, Amman 11941, Jordan

Telephone: 962-6-5345131; 962-6-5340135
Fax: 962-6-5332994
Website: http://www.aaru.edu.jo

Date established: 1964
Major source of funding: membership fees

Organizational focus:
   The goals of the Association of Arab Universities are:
   • to enhance cooperation among Arab universities and to coordinate
     their efforts with a view to raising the quality of university and higher
     education;
• to encourage scientific research—especially applied research;
• to exchange knowledge and experience among universities; and
• to hold scientific conferences and symposia (in support of the autonomy of universities).

AARU activities include:
• to hold seminars and conferences;
• to prepare guides that contain data on member universities and their academic staff;
• to issue specialized journals, bulletins, and brochures; and
• to monitor activities of the institutions affiliated with our organization.

Current publications:
• Journal of the Association of Arab Universities (semiannual)
• AARU Bulletin
• The Association of Arab Universities: A Brief Account. (AARU promotional brochure)
• journals issued by other faculty associations at Arab universities—such as, Journal of the Association of Arab Universities for Medical Studies and Research; Journal of the Association of Arab Universities for Engineering Studies and Research; Journal of the Association of Arab Universities for Agricultural Studies and Research.
• The Guidebook of Arab Universities.
• proceedings of conferences and scientific seminars held by AARU

  6. Vytautas Daugotis • Program Specialist • chemistry, education

Mexico

Department of Educational Research (Departamento de investigaciones educativas)

Address: San Borja 938, 03100, Mexico

Telephone: (52-5) 559-4080
Fax: 575-0320
E-mail: kentr@data.net.mx
Date established: Center 1960; Department 1973  
Major sources of funding: government, research funds from the National Council for Science and Technology, patents, services

Organizational focus:  
The Department of Educational Research is an educational research department belonging to the Higher Education Research Center, a public research and postgraduate science institute. The Center employs 550 full-time researchers, all PhD’s, in Physics, math, neurophysiology, biotechnology, electrical engineering, chemistry, education, and various other fields. The Center has its main campus in Mexico D.F., plus departments in five other cities in Mexico.

Our department does research on all educational topics including higher education. We have a master’s program in educational research (2 years, plus thesis) and a Ph.D. program run on a tutorial basis (3 1/2 years including dissertation). We have 22 full-time professors, plus 17 research assistants.

Current publications:  
• The Department publishes books (mostly selected theses) and working papers from on-going research projects.

Staff (name • title/rank • specialization):
1. Rollin Kent • Full Professor • higher education policy in Mexico and Latin America, institutional change in Mexican higher education
2. Sylvie Didou • Full Professor • higher education policy in North America, decentralization of the higher education system in Mexico
3. Eduardo Remedi • Full Professor • regional history of higher education in Mexico 1950–1980
4. German Alvarez • Associate Professor • higher education policy in Mexico

Courses:
• master’s program: Educational Policy in Mexico
• doctoral program: because of the tutorial system, coursework varies, but all Ph.D. candidates in higher education take a four-month seminar in comparative higher education policy.

Student enrollments: M.A. (25 full-time); Ph.D. (15 full-time)

Key textbooks/readings:  
• *Universidad futura*. Mexico: Autonomous Metropolitan University, 1989–1996.
• *Revista mexicana de investigación educativa*. Consejo mexicano de investigación educativa (Mexican Educational Research Association)
  • *Higher Education*
  • *European Journal of Education*
  • *Review of Higher Education*
  • *Latin American Research Review*
  • *Journal of Latin American Studies*

**National Association of Universities and Institutions of Higher Education (ANUIES)**

Address: ANUIES, Tenayuca 200. Col. Sta Cruz Atoyac, C.P. 03310, Mexico D.F.

Telephone: 54-20-49-09; 54-20-49-08; 54-20-49-19; 54-20-49-10
Fax: 56-04-42-63; 54-20-49-53
E-mail: dtm@anuies.mx; dsanchez@anuies.mx; etenorio@anuies.mx; mfresan@anuies.mx
Website: http://www.anuies.mx

Date established: 1991
Major source of funding: membership fees; Office of the Secretary of Public Education

Organizational focus:
Our main purpose is:
  • to foster a complete and permanent improvement of quality, relevance, and coverage of programs and services offered by the member institutions;
  • to analyze higher education in order to foresee changes, design, define and coordinate policies, and provide information to support
decision making;
• to identify common academic and administrative interests of the associated institutions and represent these institutions before the executive, legislative, and judicial powers; and before public and private organizations in the country and overseas;
• to participate with Mexican organizations that coordinate higher education, to strengthen the development of models, methods, and procedures for planning and evaluation;
• to foster upgrading and updating of higher education faculty, administrators, and leaders, enhance exchanges among members and organize interinstitutional activities and projects to achieve better communication and collaboration; and
• to promote relationships and agreements with national and international organizations and with social and productive sectors having common or complementary goals with the Association.

Current publications:
• Library of Higher Education Collection
• series: Essays and Research Reports, Reports and Documents; Bibliographies, International Experiences, annuals, catalogues, directories
• Contemporary Issues on Higher Education Collection
• Collection of Information and Statistics
• Higher Educational Journal
• Confluencia (monthly newsletter)
• Confluencia regional (bulletin)
• materials providing information on the activities and programs of Association members

Staff (name • title/rank):
1. Julio Rubio Oca • General Executive Secretary
2. Martha Riebeling Solache • Secretary
3. Dolores Sánchez Soler • Academic Secretary
4. David Torres Mejía • Secretary of Analysis and Studies
5. Enrique Tenorio Guillén • Secretary of Planning
6. Rodríguez Santillán • Coordinator of Information and Public Relations
7. Rafael Campos Sánchez • Coordinator of Boards and Regional Programs
8. Ruiz Lugo • Coordinator of Extension Programs
9. Rebeca Ámbriz Chávez • Coordinator of Institutional Programs
10. Magdalena Fresín Orozco • Coordinator of Special Projects
11. Huíscar Taborga Torrico • Coordinator of Research
12. Homero E. Pérez Flores • Coordinator
13. José Luis Cuevas Nava • Coordinator of Continuing Education

Courses: ANUIES offers courses in continuing education only.

**Universidad autónoma metropolitana, Sociology of the Universities Research Area (Area de investigación en sociología de las universidades)**

Address: Av. San Pablo 180, Col. Reynosa-Tamaulipas, Delegación Azcapotzalco, Distrito Federal, Ciudad De Mexico 02200, Mexico
Telephone: 52 (5) 724 4340
Fax: 52 (5) 723 5924

Date established: 1990
Major source of funding: University

Organizational focus:
The main purpose of the Research Area is to conduct research in the higher education field from a sociological perspective. We have three research programs: the academic profession in Mexico, organizational change in Mexican universities (public policies in higher education); and Mexican students. The research programs correspond with our main objective of studying higher education actors, processes, and organizational structures.

Current publications:

Staff (name • title/rank • specialization):
1. Rocío Grediaga-Kuri • Director • academic profession program
2. Manuel Gil-Antún • Researcher • academic profession program
3. María Lilia Pérez-Franco • Researcher • academic profession program
4. Romualdo López-Zarate • Researcher • organizational change in Mexican universities
5. Adrián de Garay-Sanchez • Researcher • Mexican students program
6. León Tomás Ejea-Mendoza • Researcher • organizational change in Mexican universities
7. Miguel Casillas-Alvarado • Researcher • academic profession program
8. Mario González-Rubí • Researcher • organizational change in Mexican universities
9. Mery Hamui-Sutton • Researcher • academic profession program
10. Norma Rondero-López • Lecturer • organizational change in Mexican universities
11. Dinorah Miller-Flores • Lecturer • Mexican students program
12. Claudia Cárdenas-Cabello • Lecturer • academic profession program

Morocco

Research into Higher Education Unit

Address: Faculte des Lettres, Dhar Mehraz, Fez, Morocco
Telephone: (05)600141

Date established: 1998
Major source of funding: government

Organizational focus:
The research program of the unit deals with attrition rates in higher education in Morocco, with special reference to departments of English in arts faculties. Our aim is to assess the potential causes and effects of attrition, as well as organizational, teaching, and assessment strategies that may help attenuate the negative effects of attrition.

Staff (name • title/rank • specialization):
1. Mohamed Ouakrime • Coordinator, Professor, Researcher • applied linguistics and research into higher education
2. Fatima Mouaid • Lecturer, Researcher • sociolinguistics, women’s studies, and research into higher education
3. B. Akabouch • Assistant Lecturer, Researcher • assessment and research into higher education
4. A. Hakim • Assistant Lecturer, Researcher • British studies and research into higher education
5. M. Moubtassime • Assistant Lecturer, Researcher • linguistics and research into higher education
6. A. Azennoud • secondary school teacher, Researcher • English language and research into higher education
7. A. El Heggach • Assistant Lecturer, Researcher • applied linguistics and research into higher education

Key textbooks/readings:
- *Journal of College Student Retention: Research, Theory and Practice*
- *SRHE Abstracts*
- various journals on higher education and assessment

The Netherlands

Twente, University of, Center for Higher Education Policy Studies (CHEPS)

Address: P.O. Box 217, Enschede 7500 AE, The Netherlands

Telephone: + 31 53 489 3263
Fax: + 31 53 434 0392
Website: http://www.utwente.nl/cheps

Date established: 1984
Major source of funding: University (25%), Contract research and other services (75%)

Organizational focus:
The Center for Higher Education Policy Studies (CHEPS) is an interdisciplinary research organization that contributes to debates on policymaking, governance, and management in higher education on the basis of its research program. This research program has three broad research themes: higher education governance and management, higher education finance, and quality assurance and quality management in higher education. The Center also supports higher education institutions and organizations through applied research, courses, workshops, and consultancy.

Current publications:

Staff (name • title/rank • specialization):
1. J. Bartelse • Adviser • doctoral education and research training
2. E. Beerkens • Research Associate • globalization and international cooperation in higher education
3. J. Beverwijk • Research Associate • higher education monitor
4. H.F. de Boer • Senior Researcher • governance, management, decision making and policy analysis
5. P. Boezerooy • Researcher • higher education monitor

**Unesco, European Center for Higher Education (CEPES)**

Address: 39 Stirbei Vodă, Bucharest R-70732, ROMANIA
Telephone: 40-1-313 08 39; 40-1-313 06 98; 40-1-313 99 56 (Director)
fax: 40-1-312 35 67
Website: www: http://www.cepes.ro

Date established: 1972.
Major source of funding: UNESCO regular budget

Organizational focus:
The activities of UNESCO-CEPES are focused on higher education in the European Region (the countries of Europe, North America, and Israel), and also on maintaining contacts with relevant organizations and institutions in other regions. The organization’s activities include:
1. undertaking projects relevant to the development and reform of higher education in the European countries, especially in Central, Southeastern, and Eastern Europe
2. promoting research on higher education and serving as a forum for discussing important topics in higher education
3. gathering and disseminating a wide range of information on higher education
4. serving as secretariat of specialized networks
5. providing consulting services
6. participating in the activities of other governmental and non-governmental organizations
Current publications:
• Higher Education in Europe (quarterly journal)
• Studies on Higher Education, a series that presents studies on issues on higher education. Recent titles include: “Ten Years After and Looking Ahead: A Review of the Transformations of Higher Education in Central and Eastern Europe” (2000).
• Studies on Science and Culture, a series initiated to assist the publication of the research findings, undertaken foremost by the UNESCO Chairs, which are collaborating with UNESCO-CEPES, in subject areas other than higher education. Recent titles: “Sustainable Development: Theory and Practice” (2000).

International staff:
  1. Jan Sadlak, Director and Representative of UNESCO in Romania
  2. Lazar Vlasceanu, Senior Program Specialist (also acts as a Deputy Director)
  3. Leland Conley Barrows, Program Specialist / Senior Editor
  4. Oleg Kouptsov, Program Specialist
  5. Alexandrina Cucoanes, Administrative Officer

Russia

Moscow State University, Center for Sociological Studies

Address: 11 Mokhovaya Ulitsa, Moscow 103009, Russia

Telephone: (7–095) 203–2545; 203–6074; 203–2543
Fax: (7–095) 203–6334
Website: http://www.opinio.msu.ru
Date established: 1993 by integration of two organizations within Moscow State University—the Laboratory for Research on Education and Students (founded in 1972) and the Center for Public Opinion (founded in 1987)
Major source of funding: federal government
Organizational focus:
The primary focus of the Center for Sociological Studies is the study of the sociology of higher education. Organizational objectives include:
- research and knowledge dissemination regarding higher education—its state, trends, improvement, and perspectives;
- contributing to policy analysis and research on students and faculty; and
- monitoring education practices at Moscow State University.

Current publications:

Staff (name • title/rank • specialization):
1. Sergey Tumanov • Director • new approaches in sociology of higher education
2. Tatiana Kukhtevich • Professor, Head of Research • formation of an intellectual elite in higher educational institutions, student value systems
3. Valentina Dobrynina • Professor, Senior Researcher • status of higher education in society, educational conceptions, content of education
4. Elmira Faustova • Senior Researcher • student subculture, deviant behavior (narcotics, etc.)
5. Ludmila Gegel • Senior Researcher • value orientation of students
6. Oksana Krukhmaleva • Researcher • commercialization of higher education
7. Olga Lapsheva • Senior Researcher • social, academic, and professional issues concerning students and faculty
8. Ludmila Moskvicheva • Senior Researcher • student value and culture systems
9. Elena Schepkina • Researcher • higher education and the labor market, vocational training, motivation
10. Anna Smolentseva • Researcher • higher education in a market economy, higher education and the labor market, conflicts in higher education
11. Nina Sorokina • Senior Researcher • staff (faculty) policy and innovation in higher education, conflicts in higher education
12. Irina Vasenina • Senior Researcher • social and professional issues concerning students and faculty, analysis of new educational system, students lifestyles, comparative analysis

Key textbooks/readings:
Russian journals:
• Vyssheye obrazovanie v Rossii (Higher education in Russia)
• Alma Mater
• Magister
• Sociologicheskie issledovaniya (Sociological research)
• Sociologicheskiy zhurnal (Journal of sociology)

South Africa

Cape Town, University of, School of Education

Address: Stanley Road, Rondebosch, Cape Town, Western Cape Province 7701, South Africa

Telephone: +27-21-650-2772; +27-21-650-2768
Fax: +27-21-650-3489
Website: http://uct.ac.za/education

Date established: about 1970
Major source of funding: state government
Organizational focus:
The School of Education provides preservice teacher training to graduate students and has a large postgraduate division. In its postgraduate work, the School offers a first academic qualification in Education called the Bachelor of Education. This area of work is focused on the upgrading of teachers’ professional profiles as well as introducing students into research in education. A relatively new focus in the School is in master’s level work, and here a large cohort of students has been developed in the areas of educational policy, science education, mathematics education, history, teaching, language and literacy, literacy, and language studies.

Staff (name • title/rank • specialization):
1. Johan Muller • Professor, Department Head • sociology of knowledge and higher education
2. Crain Soudien • Associate Professor, Deputy Head of Department • sociology of education, comparative education, and higher education

Courses:
• Educational Policy and Implementation
• Education and Development

Student enrollments: 15 (5 full-time, 10 part-time)

Key textbooks/readings:
• Comparative Education
• Journal for Higher Education

Centre for Higher Education Transformation (CHET)

Address: HSRC Building, 134 Pretorius Street, Pretoria, Gauteng 0001, South Africa

Telephone: +27-12-324-1024
Fax: +27-12-324-1044
Website: http://chet.hsrc.ac.za

Date established: 1996
Major source of funding: U.S. development agency funding
Organizational focus:
The Centre for Higher Education Transformation (CHET) is a nongovernmental organization that strives to develop transformation management capacity and skills throughout the higher education system, by integrating skill development training processes with new knowledge production, debates, and information dissemination. CHET pursues its aims within a framework of cooperative governance, the promotion of institutional, regional, national, and international links and the flexible mobilization of expertise.

Current publications:
- Diversity and Unity: The Role of Higher Education in Building Democracy.
- The Best in Higher Education.
- Higher Education Qualifications in Relation to the National Qualifications Framework.
- Higher Education in a Global Innovation Economy.
- South African Higher Education Reform: What Comes after Postcolonialism?
- Knowledge, Identity and Curriculum Transformation in Africa.
- Reflections on 3-Year Planning at the Historically Disadvantaged Institutions.

Staff (name • title/rank):
1. Nico Cloete • Director
2. Jane Kabaki • Finance and Operations Manager
3. Tembile Kulati • Project Manager
4. Charmaine Johnson • Project Manager
5. Bridget Shatkovsky • Project Assistant
6. Michelle Nadison • Administrative Assistant

South African Universities Vice-Chancellors’ Association (SAUVCA)

Address: P.O. Box 27392, Sunnyside, Pretoria, South Africa

Fax: +27 12 429 3071  
E-mail: sauvca1@unisa.alpha.ac.az  

Date established: 1997  
Major source of funding: University  

Organizational Focus:  
The South African Universities Vice-Chancellors’ Association (AUVCA) is the representative body of chief executive officers of South African universities.

Staff (name • title/rank • specialization):  
1. P. Kotecha • Chief Executive Officer  
2. N A Ogude • Director • academic affairs

University of the Orange Free State, Unit for Research into Higher Education

Address: Bureau for Academic Support Building, University of the Orange Free State, Bloemfontein, Free State 9301, South Africa

Telephone: +27 51 401 2441; +27 51 401 2862; +27 51 2588  
Fax: +27 51 540 6714  
Date established: 1989  
Major source of funding: Centre for Science Development of the Human Sciences Research Council (a government research agency), University  

Organizational focus:  
The Unit is mainly engaged in research, postgraduate teaching and supervision, and development work. The Unit seeks to generate scientific knowledge within the field of higher education. Currently, the Unit focuses on making a contribution to the investigation into a quality assurance system for South African higher education. Attention is paid to the monitoring of the development and implementation of policy at all levels, with particular focus on self-evaluation in both institutional audits and program accreditation. Other research projects include the development of an institutional self-evaluation system, and the monitoring of a resource-based learning and bridging program. In addition to the coursework (M.Ed., higher education studies) offered by the Unit, it also has initiated an interinstitutional master’s program in higher education studies. The Unit is involved in the presentation of
workshops, seminars and conferences, at the regional, national, and international level.

Current publications:
- *Introducing Community Colleges to South Africa.*
- *Essays in Higher Education—a series of occasional research papers.*

Staff (name • title/rank • specialization):
1. A.H. Strydom • Chief Director • education, philosophy
2. M. Fourie • Deputy Director • education
3. D. Hay • Senior Researcher • education
4. L. van der Westhuizen • Researcher • history
5. H. Alt • Researcher • philosophy
6. J. Letuka • Researcher • education
7. S. Holtzhausen • Professional Officer • psychology

Courses:
Diploma in Higher Education (postgraduate):
- Qualifications Frameworks
- Curriculum/Program Planning and Development
- Student Development
- Higher Education Management
- Higher Education Practice

M.Ed. (Higher Education):
- Processes and Structures in Higher Education
- Higher Education Systems
- Fields/Disciplines of Knowledge, Teaching and Learning
- Economic Aspects of Higher Education
- Management/Governance of Higher Education
- Quality Management of Higher Education

Ph.D. (Higher Education):
- research project under supervision of senior researcher(s)

Student enrollments: M.Ed. (10–12 part-time), Ph.D. (10 part-time)
Key textbooks/readings:
- *Higher Education*
- *Journal of Higher Education*
- *Research in Higher Education*
- *Studies in Higher Education*
- *South African Journal of Higher Education*

- *Quality in Higher Education*

**Western Cape, University of, Education Policy Unit**

Address: Private Bag X 17, Bellville, Western Cape 7535, South Africa

Telephone: 27-21-9592580/2810
Fax: 27-21-9593278
Date established: 1991
Major source of funding: overseas development agency funding

Organizational focus:
The Education Policy Unit (EPU) specializes in higher education studies and policy research. EPU is committed to the development of a higher education system that is equitable; responsive to the economic, social development, and personpower needs of South Africa; strives towards excellence and quality provision; and is governed democratically.

EPU objectives are to:
- conduct theoretical and policy-relevant research in higher education, including the relations between higher education and other levels of education and strategies for social and economic development;
- contribute to the development of higher education and high-level personpower—through self-initiated research; research identified in consultation with government departments, social movements and higher education organizations and institutions; commissioned projects; and consultancies;
- serve as a research, information and statistical data resource through the development of a specialist library on higher education;
- contribute to the institutionalization of the field of higher education studies through collaboration and cooperation with other academic and research organizations and institutions; and
• train students, particularly from historically disadvantaged social backgrounds, in higher education and education policy research

Current publications:
EPU Research Reports:
• The Enhancement of Graduate Programmes and Research Capacity at the Historically Black Universities. 1997.
• Distance Universities and Technikons in South Africa. 1998.
• Beyond the Equality-Development Impasse: Towards Policy Formulation for Equality and Development.

EPU Occasional Papers:
• Aid and Education in Africa: A Review of Recent Developments with Particular Relevance to South Africa.

Books and book chapter:
• Handbook on Key South African Higher Education Statistics.

Other EPU materials:
• “Higher Education in South Africa: The Historically Disadvantaged Institutions” (briefing paper, prepared for the Kellog Foundation).
• “Principal Distinguishing Features between Historically White Universities and Historically Black Universities” (fact sheet, produced for the Kellog Foundation).

Staff (name • title/rank • specialization):
1. Saleem Badat • Director • equity, development, governance, research, student politics
2. George Subotzky • Senior Researcher • development, knowledge production, aid
3. Mignonne Brier • Senior Researcher • curriculum, qualifications, access
4. Paul Lundall • Researcher • finance, student funding
5. Colleen Howell • Researcher • staff equity, disability
6. Mahlubi Mabizela • Trainee Researcher • private higher education, student politics
7. Charlton Koen • trainee researcher
8. Andre Burness • data processor • higher education statistics
9. Ian Bunting • Associate Senior Researcher • funding, financing, information systems
10. Dave Cooper • Associate Senior Researcher • regional development, information systems, technikons

Key textbooks/readings:
- Higher Education
- Studies in Higher Education
- Journal of Education Policy
- Minerva

**Switzerland**

**Association of European Universities (CRE) (Association des universités européennes)**

Address: 10, rue de Conseil General, CH-1211 Geneve 4, Switzerland
Telephone: + 41 22 329 26 44
Fax: + 41 22 329 28 21
E-mail: cre@uni2a.unige.ch
Website: http://www.unige.ch/cre/

Date established: 1959
Major Source of Funding: member and associate university contributions, governmental agencies

Organizational focus:
The Association of European Universities (CRE) aims to facilitate dialogue and cooperation between its members. It also tries to represent European universities by promoting members’ interests in European policymaking concerning higher education and research. In addition, the CRE attempts to enhance contact between the academic community, governments, industry, and the media.

Current publications:
- CRE info (newsletter, in French and English)
- CRE doc (thematic series, in French and English)
- CRE guide (thematic guidelines, in French and English)
- CRE action (thematic issues and directory of member universities and associations dealing with higher education)
Staff (name • title/rank):
   1. Andris Barblan • Secretary General
   2. Mary O’Mahoney • Deputy Secretary General
   3. Daniel Samoilovich • Program Officer

Fax: (41-22) 917.78.01
E-mail: v.adamets ibe.unesco.org
Website: http://www.unicc.org/ibe

Date established: 1925
Major source of funding: UNESCO’s regular budget, contributions from extra-budgetary sources

Organizational focus:
   • to collect, process, analyze, and disseminate documentation and information concerning education, in particular on innovations concerning curricula, teaching methods, and teacher education;
   • to seek to coordinate its work with that of other national, regional, and international institutions pursuing similar objectives, surveys, and studies in the field of education, particularly comparative education;
   • to maintain and develop an international educational information center;
   • to provide technical assistance for the strengthening of national capacities regarding information compilation and comparative research; and
   • to conserve the archives and historical collections of the International Bureau of Education.

Current publications:
   • Prospects (quarterly)
   • Educational Innovation and Information (quarterly newsletter)
   • Study Abroad (a guide to foreign study programs)
   • INNODATA monographs.

Staff (name • title/rank):
1. Jacques Hallak • Assistant Director-General, Director, International Bureau of Education
2. Victor Adamets • Head, Studies Unit, International Bureau of Education
3. Massimo Amadio • Program Specialist
4. Jeanine Thomas • Study Abroad Specialist
5. Jennifer Fisher
6. Gonzalo Reramal

Courses:
The IBE does not organize regular training courses. However, it does receive fellows, visiting professors, university teachers, and research personnel during their sabbatical leaves, etc.—normally at master’s degree and higher levels. A certain number of undergraduate students, as well as documentalists and librarians are trained under UNESCO participation programs or at the request of universities and national documentation centers.

Student enrollments: Up to 15 persons annually. For each of them an individual program is prepared.

**Thailand**

UNESCO, Principal Regional Office for Asia and the Pacific (PROAP)

Address: 920 Sukhumvit Road, Prakanong, Bangkok 10110, Thailand

Telephone: (66-2) 3910879-80; 3910577; 3910815
Fax: (66-2) 3910866
E-mail: Y.WANG@unesco.org
Website: http://www.education.unesco.org/proap/new/home~1.htm
Date established: UNESCO PROAP, Bangkok 1961; ACEID (Asian Centre of Educational Innovation for Development) 1973

Major source of funding: member-state contributions, extra-budgetary resources from other agencies and governments

Organizational focus:
The Office’s focus is to:
• encourage and organize policy debate on higher education in Asia and the Pacific;
• create and manage UNESCO UNITWIN and UNESCO Chairs in the region (at the moment around 30 UNITWIN Networks and UNESCO Chairs have been formulated);
• promote and implement the Regional Convention on Recognition of Studies, Diplomas and Degrees in Higher Education in Asia and the Pacific; and
• implement the project on the Role and Contribution of Women Graduates in the Development Process.

Current publications:
• Declaration about Higher Education in Asia and the Pacific and Plan of Action.
• Handbook on Diplomas, Degrees and other Certificates in Higher Education in Asia and the Pacific.

Staff (name • title/rank):

United Kingdom

Bath, University of, International Centre for Higher Education Management

Address: ICHEM, School of Management, University of Bath, Bath BA2 7AY, United Kingdom
INVENTORY  141

Telephone: +44 1225 826213
Fax: +44 1225 826543
E-mail: M.K.Kelly@bath.ac.uk
Website: http://www.bath.ac.uk/Departments/Management/research/ichem/ichem.htm

Date established: 1994
Major source of funding: self-funding, external contracts and grants (the British Council, World Bank, and the Commonwealth Secretariat)

Organizational focus:
The International Centre for Higher Education Management (ICHEM) provides an arena for research, development, training, and liaison for the benefit of effective management in higher education institutions in the United Kingdom and overseas. ICHEM’s research base supports comparative studies of costs, structures, and practices in institutions of higher education learning. Another area of research is the examination results of secondary school pupils through the associated work of the Schools Examination and Results Analysis Project. Professional consultation has been provided around the world, supporting and producing higher education development plans. Training opportunities include the British Council International Seminars directed by ICHEM and held in Bath and overseas. ICHEM works with higher education institutions, government bodies, and support agencies.

Current publications:
ICHEM Occasional Papers:
• Landscape Development: A Landscape for People.
• Alumni Activities: A Comparative Study of the University of Bath and Universities in Eastern Canada.
• Comparison of University Development in the United Kingdom with the United States.
• Student Support: An International Outlook.
• Reflections and Perceptions of Higher Education in Southern Africa.

Staff (name • title/rank • specialization):
1. Richard Mawditt • Director • higher education management
2. Melanie Kelly • Administrator • management of the arts in higher education
3. Robert Parfitt • Visiting Professor • higher education management
4. Ernst Wilmink • Research Associate • knowledge and industry
Courses:
Weekly methodology classes are taken with the other postgraduates in the School of Management as directed by the School’s Research Office. ICHEM supervises the individual theses. Unless the student has already taken a master’s degree by research, they must first register as an M.Phil. student. If they successfully complete the M.Phil. transfer, they can then move on to a Ph.D. if they wish. Most of our courses take the form of short training seminars or workshops held at Bath or overseas, for senior higher education managers.

Student enrollments: Ph.D. (2 part-time), M.Phil. (2 part-time)

Central England in Birmingham, University of, Centre for Research into Quality

Address: 90 Aldridge Road, Birmingham, B42 2TP, United Kingdom
Phone: 0044-121-331-5715
Fax: 0044-121-331-6379
E-mail: crq@uce.ac.uk
Fax: http://www.uce.ac.uk/crq

Date established: 1991
Major source of funding: University, various external sources (research grants and consultancy income)

Organizational focus:
The Centre undertakes research into higher education policy at institutional and system level, including international comparisons. Research areas include: quality and quantity monitoring, stakeholder satisfaction, funding, higher education-employer interface, teaching and learning, the use of information technology in the development of learning access, and the construction of knowledge in higher education discipline and its relation to policy implementation.

Current publications:
• Work Experience: Expanding Opportunities for Undergraduates.
• Graduate’s Work: Organisational Change and Student Attributes.
• Employer Satisfaction.
• The Role of Professional Bodies in Higher Education Quality Monitoring.
• Funding Higher Education: Student Perspectives.
• TQM and New Collegialism.
• Criteria of Quality.
• Journal of Quality in Higher Education

Quality Support Centre (QSC), Centre for Higher Education Research and Information

Address: 344-354 Gray’s Inn Road, London WC1X 8BP, United Kingdom

Telephone: + 44 171 447 2506
Fax: + 44 171 837 0290
Website: http://www.open.ac.uk/OU/Admin/QSC

Date established: 1992
Major Source of Funding: projects/consultancies from national and international funding councils; private organizations, agencies, and universities

Organizational focus:
The Quality Support Centre (QSC) provides research, development, and information services to support the maintenance and improvement of quality in higher education in the United Kingdom and internationally. Its development and information services cover a broader spectrum of interests through the provision and analysis of information on higher education policies and developments at both national and institutional levels. Its principal research focuses are:
• systems and methods of quality assessment, assurance, and evaluation; and
• issues for quality arising from the relationship between higher education and the world of work.

A connecting theme in all of QSC’s work is the rapidly changing external context for higher education, its implications for the internal
structures and cultures of higher education institutions, for the work of their staff and the experiences of their students. Rapid—if not revolutionary—change is an international phenomenon in higher education and QSC works in close collaboration with international research groups and policy bodies.

QSC operates as a free-standing and self-financing unit within the Open University. The Centre is able to draw on the expertise of the OU and has full access to its resources, technology, and facilities.

Date established: 1994
Major source of funding: University

Organizational focus:
- Research and development and institutional support in:
  - teaching and learning in higher education;
  - work-based learning;
  - the use of information technology in higher education;
  - skills development in higher education;
  - postgraduate education;
  - institutional management in higher education; and
  - management of change.

Current publications:
- articles in refereed journals (e.g., *Studies in Higher Education*)

Staff (name • title/rank • specialization):
1. Robert J Audley • Professor and Consultant • literacy and numeracy
2. Lesley Black • Skills Development Coordinator • development of generic and transferable skills, and providing training in them for both undergraduates and postgraduates
3. Pat Cryer • Senior Visiting Fellow • support of postgraduate students undertaking research and support of their supervisors
4. Maureen Donelan • Lecturer • higher education learning, peer-assisted learning, year abroad preparation, mentoring, network support for teaching and learning innovations
5. Lewis Elton • Professor • teaching, learning, and assessment innovations; curriculum design; quality enhancement; institutional management; management of change
6. Toni Griffiths • Director of Education and Professional Development and Head (interim) of HERDU • work-based learning, education business partnerships
7. Jane Hughes • Lecturer • educational technology, computer supported co-operative learning, technology-mediated communication and other aspects of human-computer interaction
8. Kim Issroff • Lecturer • educational technology, motivation in relation to computer-assisted learning, evaluation, time-based analyses
9. Judith MacBean • Researcher and Financial Administrator • maths education, specifically numeracy and “service” maths in higher education; peer-assisted learning
10. Anne McGee • Administrator
11. Paul Walker • Senior Lecturer • teaching and learning strategies (especially in physical sciences, engineering, and mathematics); open and distance learning (including IT); generic and transferable skills development; conceptions of learning and teaching

Courses:
- Higher Education Research and Development
- Skills Training

Student enrollments: M.A. (6 part-time), Ph.D. (6 part-time), MREs (70 full-time)

Key textbooks/readings:
Effective Learning and Teaching in Higher Education. 12 vols. Universities and Colleges Staff Development Agency of the Committee of Vice-Chancellors and Principals.

United States

Alabama

Alabama, University of, Higher Education Administration Program/Institute for Higher Education Research and Service

Address: University of Alabama, College of Education, Box 870302, 206 Wilson Hall, Tuscaloosa, AL 35487, United States

Telephone: (205) 348-1170
Fax: (205) 348-2161
E-mail: mmiller@bamaed.ua.edu
Website: www.bamaed.ua.edu/ahe/ahe_home.htm

Date established: 1972
Major source of funding: University, external contracts and grants, some consultative fee-based funding

Organizational focus:
The Program is designed to provide professional development and academic preparation to those who currently or will in the future pursue a career in college management. Particular emphasis is placed on college student affairs administration and general college management. The Institute’s focus is on providing action research to institutions and agencies in the Southeastern United States. The Institute also operates the National Data Base on Faculty Involvement in Governance.

Current publications:
• The Institute publishes a biannual directory of higher education programs in the Southeastern United States.
• The Higher Education Administration Program publishes a biannual monograph. The 1996 monograph was titled *Delivery of Postsecondary Education by Community Colleges in Rural Alabama*.

Staff (name • title/rank • specialization):
1. Lynn G. Beck • Professor • organizational behavior
2. Albert S. Miles • Professor • college law
3. Charles Brown • Associate Professor • student affairs, diversity
4. Michael T. Miller • Associate Professor • faculty governance, student affairs
5. Kathleen Randall • Assistant Clinical Professor • student affairs
6. Daniel Nadler • Assistant Clinical Professor • student affairs
7. Myron Pope • Assistant Clinical Professor • faculty governance, community colleges
8. Lisa D. Brister • Assistant Clinical Professor • student affairs

Courses:
The Higher Education Administration Program offers 17 graduate-level courses per academic year, including 9 M.A.-level courses and 8 doctoral courses. Course titles include:
• Organization and Administration of Higher Education
• College Law
• Finance and Business Affairs in Higher Education
• The Student in Higher Education
• Grant Writing and Contract Management
• Personnel and Human Resource Management in Higher Education
• Seminar in Academic Program Development and Evaluation
• Power, Politics, and Change in Higher Education Systems
• Academic Cultures and Learning in Academe
• Civil Rights Law
• Seminar in Adult and Continuing Education

Student enrollments: M.A. (35 full-time, 15 part-time), Ed.D. (6 full-time, 24 part-time)

Key textbooks/readings:
  The introductory course for doctoral students is “Professional Seminar in Higher Education,” where the key texts are *Administration as a Profession* and the APA manual (as well as supplementary introductory material, such as the *Chronicle of Higher Education*, *Change* magazine, etc.). The introductory course for the M.A. program is “Perspectives on Higher Education,” which makes use of a variety of materials printed by NASPA and other professional associations.

**Arizona**

**Arizona, University of, Program/Center for the Study of Higher Education**

Address: College of Education, University of Arizona, Tucson, Arizona 85721, United States

Telephone: 520-621-7951 (administrative assistant); 520-621-0947 (Gary Rhoades)
Fax: 520-621-1875
E-mail: GRhoades@mail.ed.arizona.edu

Date established: 1977
Major source of funding: University, fee-based consulting, and research, and development activities

Organizational focus:
We are a graduate program (M.A., Ph.D.) that prepares professionals for positions in postsecondary education, on campuses and in policy settings. Our faculty conduct scholarship on policy issues in various substantive areas regarding postsecondary education. Our faculty also provide some service to the university and the state, although that has decreased considerably in recent years.

Staff (name • title/rank • specialization):
1. Larry Leslie • Professor and Vice-Dean College of Education • finance
2. John Levin • Associate Professor • community college, organizational change
3. Gary Rhoades • Professor and Director • sociology of higher education, professional labor, restructuring policy
4. Sheila Slaughter • Professor • science policy, women and higher education
5. Doug Woodard • Professor • student affairs, especially retention; the profession of student affairs
6. Scott Thomas • Assistant Professor • finance

Note: Like most higher education programs, we have many adjunct professors as well, largely administrators, who teach courses for us and sit on committees.

Courses:
- Introduction to Higher Education
- Organization and Administration
- Finance
- College Student
- Student Personnel Administration
- College Teaching

Seminars:
- How College Affects Students
- Higher Education Law
- Counseling

Note: other seminar offerings vary by semester

Student enrollments: M.A. (17 full-time), Ph.D. (73 part-time)
Key textbooks/readings:
- Journal of Higher Education
- Review of Higher Education
- Research in Higher Education
- Higher Education
- Journal of College Student Development
- Sociology of Education
- Economics of Education
- Community College Review

Arizona State University, Higher and Postsecondary Education Program

Address: Division of Educational Leadership and Policy Studies, P.O. Box 872411, Tempe AZ, United States

Telephone: 602-965-6248; 602-965-6357; 602-965-0841
Fax: 602-965-1880
E-mail: hlsimmons@asu.edu; simmonshoward@netscape.net
Website: http://asu.edu

Major source of funding: University

Organizational focus:
Our program, with strong theoretical and applied components, prepares doctoral graduates for positions in policy studies research and administration at all levels of postsecondary education. The division of educational leadership and policy studies offers the M.Ed., Ed.D. and Ph.D. degrees, as well as a M.A. in social and philosophical foundations.

Current publications:
- Internet newsletter
- Internet Journal of Education Policy and Practice

Staff (name • title/rank):
1. Mary Lee Smith • Professor and Division Director
2. Howard L. Simmons • Professor and Program Coordinator
3. Robert Fenske • Professor
4. Kay Hartwell Honeycutt • Associate Professor
5. Laura I. Rendon • Professor
6. Richard C. Richardson • Professor
Courses:
- Introduction to Higher Education
- The Community/Junior College
- Curriculum, and Instruction in Higher Education
- Higher Education Financing and Budgeting
- Law of Higher Education
- The American College Student
- Organizational Theory
- Leadership in Higher Education
- omnibus courses on special topics in higher education

Student enrollments: M.A. (3 full-time, 7 part-time), Ph.D. (30 full-time, 10 part-time), Ed.D. (2 full-time, 23 part-time)

Key textbooks/readings:
- Journal of Higher Education
- Change
- Liberal Education
- Journal of Educational Policy

Current publications:
- The Meaning of Intelligence.
- International Education and the Search for Human Understanding.
Dimensions of Diversity.
Technology, Integration, and Learning Environments.

Staff (name • title/rank • specialization):
1. Gaye Luna • Professor • community college and higher education administrations, adult learners
2. Ronda Beaman • Associate Professor • college teaching and students, student services

Courses:
• Higher Education in the United States
• Adults Learners
• The Community College
• College Teaching
• Education Technology in the College Classroom
• Programs for At-Risk College Students
• Curriculum Construction in Community Colleges
• internships

Student enrollments: M.Ed. (25 part-time), Ed.D. (15 full-time, 10 part-time)

Arkansas

Arkansas, University of, Higher Education Leadership Program

Address: University of Arkansas, 251 Graduate Education Building, Fayetteville, Arkansas 72701, United States

Telephone: (501) 575-2207
Fax: (509) 10 575-2492
E-mail: jhammons@comp.uark.edu

Major source of funding: University

Organizational focus:
Our mission is to graduate doctoral, educational specialists, and master’s degree students, from diverse backgrounds.

Courses:
First Year:
• Management
• Design/Evaluation of College Teaching
• The Professoriate
• Curriculum Design
• Overview of American Higher Education
• Student Personnel Services
• Seminar: Introduction to Study of Higher Education

Second Year:
• Legal Aspects
• History and Philosophy of Higher Education
• The Student in Higher Education
• Curriculum Design
• Applied Management
• Governance
• Higher Education Problems, Issues, and Trends

Student enrollments: M.A. (11 full-time, 4 part-time), Ed.D. (2–3 full-time, 38 part-time)

Arkansas at Little Rock, University of, Higher Education Program

Address: University of Arkansas at Little Rock, College of Education, 2810 South University Avenue, Little Rock, AR 72204, United States

Telephone: (501) 569-3446; (501) 569-3113
Fax: (501) 569-8694
E-mail: gdchamberlin@ualr.edu

Date established: 1992
Major source of funding: University

Organizational focus:
The program is designed to prepare students for administrative or faculty positions in higher education institutions.

Staff (name • title/rank • specialization):
1. Gary Chamberlin • University Professor, Program Coordinator • governance, finance, research
2. Pat Somers • Associate Professor • law, management, qualitative research
3. Rob Kennedy • Professor • statistics, research methods
4. Kathy Franklin • Assistant Professor • history and philosophy, college teaching, qualitative research
5. Nim Vander Putten • Assistant Professor • history and philosophy

Courses:
• College Instruction
• Curriculum Development
• The American College Student
• The Community Junior College

Student enrollments: Ed.D. (5 full-time, 95 part-time)

Key textbooks/readings:
• *ASHE Reader on the History of Higher Education*
• F. Rudolph. *The American College and University*
• *Journal of Higher Education*
• *Research in Higher Education*
• *Review of Higher Education*

**California**

**California at Los Angeles, University of, Higher Education and Organizational Change Division (HEOC)**

Address: 405 Hilgard Avenue, Los Angeles, California 90290, United States

Telephone: (310) 206-1980
Fax: (310) 206-6293
Website: http://www.gseis.ucla.edu/division/heoc/heoc.html

Date established: 1960
Major source of funding: University

Organizational focus:
The Higher Education and Organizational Change (HEOC) Division of the Graduate School of Education and Information Studies of UCLA is committed to advancing the scholarship, research, and practice of higher education and organizational transformation in the United States and abroad.
The structure and content of the Division reflects the faculty’s commitment to research and a scholarly approach to the study and practice of higher education. Because research and scholarly inquiry are the acknowledged foundation for the study and practice of higher education, they are emphasized throughout the course work, seminars, research projects, and other HEOC activities. In order to provide Ph.D. students with the highest-quality research and scholarly training, our students must participate in a minimum “year of engagement,” where, as full-time students, they fully participate in courses, seminars, and research training activities in a way not possible on a part-time basis.

HEOC courses and seminars are often interdisciplinary in approach and responsive to current issues and changes in the policies, practices, and impact of higher education. Students are encouraged to develop, as much as possible, an individualized program of study that reflects their personal and professional interests and goals and satisfies the degree requirements of the Division, the Graduate School of Education and Information Studies, and UCLA.

Staff (name • title/rank • specialization):
1. Alexander W. Astin • Professor and Director, Higher Education Research Institute (HERI) • higher education policy in the United States, educational reform, values in education, impact of different types of institutions on student development, assessment and evaluation research in higher education
2. Helen S. Astin • Professor and Associate Director, HERI • education and career development of women, faculty performance and rewards, leadership
3. Arthur M. Cohen • Professor and Director, ERIC Clearinghouse • history and issues in higher education, college curriculum and instruction, community colleges
4. Patricia M. McDonough • Associate Professor and Education Department Chair • access, equity, and the stratification of individuals and institutions in education; organizational theory and analysis; sociology of education; higher education policy analysis; links between K–12 and higher education; and qualitative research
5. Linda J. Sax • Lecturer, Associate Director, HERI, and Director, CIRP Project • gender differences in college student development, science and engineering talent development, volunteerism and service-learning, gender and racial differences in self-concept development
6. James W. Trent • Associate Professor and Undergraduate Program Division Head • student subcultures; educational movements, such
as student activism; differentiation of collegiate institutions; the sociology and psychology of religion among young adults
7. Wellford W. Wilms • Professor • work systems, organizations, their cultures and ideas

Student enrollments: M.A (8–10); Ph.D. (75); Ed.D. (20)

Key textbooks/readings:
• Research in Higher Education
• Review of Higher Education
• Journal of Higher Education

California at Los Angeles, University of, Higher Education Research Institute (HERI)

Address: 3005 Moore Hall, UCLA, Los Angeles, CA 90095-1521, United States

Telephone: (310) 825-1925
Fax: (310) 206-2228
E-mail: http://www.gseis.ucla.edu/heri/heri.html

Date established: 1973
Major source of funding: Cooperative Institutional Research Program; Grants and contracts; University

Organizational focus:
The Higher Education Research Institute is based in the Graduate School of Education at the University of California, Los Angeles. The Institute serves as an interdisciplinary center for research, evaluation, information, policy studies, and research training in postsecondary education. HERI’s research program covers a variety of topics including the outcomes of postsecondary education, leadership development, faculty performance, federal and state policy, and educational equity. Visiting scholars, faculty, and graduate students have made use of HERI facilities and research resources since its affiliation with UCLA in 1973. The Institute’s holdings include more than a hundred datasets that are regularly maintained for analysis of postsecondary education.

The Cooperative Institutional Research Program (CIRP) is a national longitudinal study of the American higher education system. Established in 1966 at the American Council on Education, the CIRP is
now the nation’s largest and longest empirical study of higher education, involving data on some 1,500 institutions, over 9 million students, and more than 250,000 faculty.

Current publications:

Staff (name • title/rank • specialization):
1. Alexander W. Astin • Director • student development, assessment of higher education, citizenship development
2. Helen S. Astin • Associate Director • gender equity, faculty, leadership, social change
3. Linda J. Sax • Associate Director • women in science, faculty, student development
4. William S. Korn • Associate Director for Operations • computer programming, data analysis
5. Kathryn Mahoney • Business Manager

Southern California, University of, Center for Higher Education Policy Analysis (CHEPA)

Address: University of Southern California; Waite Phillips Hall 701, Los Angeles, California 90089-0031, United States

Telephone: (213) 740-7218
Fax: (213) 740-3889
Website: http://www.usc.edu/dept/chepa/

Date established: 1993

Major source of funding: external grant and funding agencies (Lilly Endowment, Pew Charitable Trusts, James Irvine Foundation, TIAA-CREF, Ford Foundation, U.S. Department of Education, and the University of Southern California)

Organizational focus:
The Center for Higher Education Policy Analysis (CHEPA) is an interdisciplinary research unit. The Center was established to actively engage the postsecondary education community. The Center’s mission is to improve urban higher education, strengthen school-university relationships, and to focus on international higher education, emphasizing Latin America and the Pacific Rim. Programs include: 1) a master’s degree in postsecondary administration and student affairs, 2) an Ed.D. in educa-
tional leadership, with an emphasis in higher education, and 3) a Ph.D.
in educational policy and organization, with an emphasis on higher edu-
cation.

Current Publications:
Occasional Papers from the Center for Higher Education Policy Analy-
sis:
• William Plater. Using Tenure: Citizenship within the New Academic
• David W. Leslie. Redefining Tenure: Tradition vs. the New Political Economy
• Erwin Chemerinsky. Is Tenure Necessary to Protect Academic Freedom.
Spring 1997.

Staff (name • title/rank • specialization):
1. Estela Mara Bensimon • Professor • academic leadership, organiza-
tional change, feminist analyses of traditional organization and
management theories
2. Linda S. Hagedorn • Assistant Professor • low-income and minority
youths’ success in college, community colleges
3. Melora Sundt • Assistant Dean, Academic Outreach, Adjunct Asso-
ciate Professor • student development theory, campus interventions,
paraprofessional counseling, student affairs
4. William G. Tierney • Wilbur-Kieffer Professor of Higher Education,
Director, Center for Higher Education Policy Analysis • faculty pro-
ductivity, organizational reengineering, curricular theory, administra-
tion; policy; organizational behavior, qualitative methodology
5. William Maxwell • Associate Professor • higher education, educa-
tional research and evaluation, the sociology and politics of education,
students in community colleges; student equity in higher education;
the international expansion of higher education

Courses:
• Foundations of Higher, Adult, and Professional Education
• Applied Educational Ethnography
• Management of Student Services in Higher Education
• Introduction to Student Affairs
• The Community College
• Educational Leadership
• International Higher Education in Postindustrial Societies
• Administration of Higher, Adult, and Professional Education
• Curriculum, Teaching, and Learning
• The Politics of Difference

Stanford University, National Center for Postsecondary Improvement

Address: Stanford School of Education, 520 Galvez Mall, 508 CERAS, Stanford, CA 94305-3084, United States
Telephone: 650-723-7724
Fax: 650-725-3936
Website: http://www.ncpi.stanford.edu

Date established: 1996
Major source of funding: federal government

Organizational focus:
NCPI’s research, dissemination, and outreach efforts are creating a national forum for examining and improving teaching, learning, and reorganization efforts across a wide range of postsecondary settings—from community colleges to research universities. The Center’s research is organized into six interconnected areas of study: postsecondary organizational improvement, transitions from initial education to working life, postsecondary markets and student outcomes, professional development to enhance teaching and learning, student learning and assessment, and improving quality, productivity, and efficiency.

Current publications:
Staff (name • title/rank • specialization):
1. Patricia J. Gumport • Professor, Director • postsecondary organizational improvement project area
2. Peter Cappelli • Professor • transitions from initial education to working
3. Robert Zemsky • Professor, University of Pennsylvania; Project Area Director, Institute for Research on Higher Education • postsecondary markets and students
4. Richard Shavelson • Professor • student learning and assessment
5. Michael Nettles • Professor, Center for the Study of Higher and Postsecondary Education, University of Michigan • improving quality, productivity and efficiency
6. William Massy • Professor, Jackson Hole Higher Education Group

Note: There are also over 60 other researchers at institutions across the country.

• College Teaching I
• College Teaching II
• Institutional Advancement
• Program Financial Management
• Outcomes of Undergraduate Education
• Student Personnel Work
• History of Higher Education
• Current Problems in Higher Education
• Institutional Research
• Interventions in Student Personnel

Student enrollments: M.A. (30 full-time), Ph.D. (30 full-time)

South Florida, University of, Higher Education Program

Address: 4202 E. Fowler Avenue, FAO 207, Tampa, Florida 33620-5650, United States

Telephone: 813-974-9196
Fax: 813-974-3366
E-mail: parnell@tempest.coedu.usf.edu

Date established: 1998
Major source of funding: University

Organizational focus:
Five degree programs and one certificate program in college teaching.

Staff (name • title/rank • specialization):
1. Lynn Taber • Associate Professor • teaching and learning
2. Steve Dermuth • Professor • ethics
3. Arthur Shapiro • Professor • curriculum and instruction
4. Bill Blank • Professor • occupations education
5. Laurie Stryker • Professor • finance
6. Bob Sullins • Professor • organization and administration
7. Dale Parnell • Visiting Professor • organization and administration

Courses:
• Adult Learner
• Community Colleges in Higher Education
• Ethical Dimensions of Higher Education
• Strategic Planning in Higher Education
• Analysis of Curriculum and Instruction
• College Teaching Seminar
• Higher Education Seminar
• Organizational Theory and Processes
• Legal and Policy Dimensions
• Vocational Education Program Planning
• Higher Education Finance

Student enrollments: M.A. (3 full-time, 22 part-time), Ph.D. (4 full-time, 26 part-time), D.Ed. (27 part-time); Ed.S. (10 part-time)

Key textbooks/readings:
• Cohen and Brawer. *The American Community College.*
• Darnell. *Dateline 2000.*
• *Chronicle of Higher Education*
• *Community College Times*
• *Community College Journal*

Georgia

**Georgia, University of, Institute of Higher Education**

Address: Meigs Hall, Athens, Georgia 30602-1772, United States

Telephone: 706-542-3464
Fax: 706-542-7588
Website: http://service.uga.edu/ihe/

Date established: 1964
Major source of funding: University

Organizational focus:
• to develop instructional resources for the continuing professional education of administrative leaders in higher education;
• to provide inservice developmental and training opportunities for academic administrators, faculty members, and professional staff;
• to analyze and interpret—through seminars, conferences, workshops, and publications—significant events, policy decisions, and public policy issues affecting higher education; and
• to cooperate with other institutions and agencies in serving the various constituencies of colleges and universities.

Current publications:
• *IHE Perspectives* (newsletter)
• *Cultural Change and Continuity.* June 1998
• The Consolation of Scholarship. May 1999.
• Cameron Fincher, ed. Planning Imperatives for the 1990s. 1989.

Staff (name • title/rank • specialization):
1. Thomas G. Dyer • University Professor • history of higher education
2. Cameron Fincher • Regents Professor • administrative development
3. Melvin B. Hill Jr. • Robert G. Stephens, Jr. Senior Fellow in Law and Government • administrative law
4. Sylvia Hutchinson • higher education and reading education
5. Larry G. Jones • Public Service Associate and Associate Professor • institutional research
6. Patricia Kalivoda • Adjunct Assistant Professor of Higher Education • instructional and faculty development
7. Zell B. Miller • Distinguished Professor of Higher Education • southern politics and history
8. Libby V. Morris • Associate Professor of Higher Education • assessment and program development
9. Edward G. Simpson, Jr. • Distinguished Public Service Fellow • public policy analysis and outreach
10. Ronald D. Simpson • Professor of Higher Education and Science Education • instructional and faculty development
11. D. Parker Young • Professor Emeritus of Higher Education • legal issues and implications

Courses:
• History of American Higher Education
• The Law and Higher Education
• Finance of Higher Education
• Academic Programs in Higher Education
• Instructional Processes in Higher Education
• Organization and Governance in Higher Education
• Administrative Leadership in Higher Education
• Institutional Research
• Assessment in Higher Education
• Research Seminar in Higher Education
• Applied Project in Higher Education
• The Two-Year College
• Critical Issues in Higher Education
• Using Technology in the College Classroom
• The American Professoriate
• Comparative Education

Iowa, University of, Higher Education Program

Address: University of Iowa, 491 Lindquist Center North, Iowa City, Iowa 52242-1529, United States

Telephone: 319-355-5302  
Fax: 319-384-0587  
E-mail: ppls@uiowa.edu  
Website: http://www.uiowa.edu/ppls

Major source of funding: University

Organizational focus:
The Program provides preparation of professionals at the master’s and doctoral level across both applied and technical areas of higher education (administration, policy studies, academic planning and program development, and community college administration). Students enter administrative fields in many postsecondary areas—including positions in business, human resources, institutional advancement, instructional research, financial aid, student services, technology, and faculty/teaching. The Program is designed to provide basic interdisciplinary knowledge, research skills and applied training as well as specialized knowledge in areas of student interest. It is associated with the Division of Planning, Policy, and Leadership Studies.

Staff (name):
1. Joyce A. Brandt • Adjunct Assistant Professor  
2. Jerald Dallams • Adjunct Assistant Professor  
3. Stephen DesJardins • Assistant Professor  
4. Lelia B. Helms • Professor  
5. Alan Henkin • Professor  
6. Marti Milani • Adjunct Assistant Professor  
7. Ernest T. Pascarella • Professor  
8. Dorothy Persson • Adjunct Assistant Professor  
9. Chet Rzonca • Associate Professor
Courses:
- Issues and Policies in Higher Education
- Teaching of Adults
- Foundations of Vocational Education
- Introduction to the Law of Student Services
- Education and the World of Work
- The Community College
- Curriculum Development: Application to Community Colleges
- Evaluation: Application to Community Colleges
- Finance and Economics of Higher Education
- The Law and Higher Education
- History and Philosophy of Postsecondary Education
- Introduction to Planning, Policy Analysis and Evaluation
- Organizational Theory and Administrative Behavior
- Education and Public Policy
- Higher Education Management
- Microcomputers in Institutional Research
- Administration of Technical Educational Programs
- Policy, Planning and Implementation in Education
- Legal Issues in Student Services
- Strategic Marketing and Institutional Development

Student enrollments: M.A. (10 full-time, 24 part-time), Ph.D. (15 full-time, 40 part-time); Ed.S. (6 part-time)

Key textbooks/readings:
There are six required/core introductory courses in the higher education doctoral program: history and philosophy, research methods, organizational analysis, management, law, economics and finance, and policy analysis. For masters’ students, there is an overview course required: issues and policies in higher education. A broad spectrum of research journals in education, higher education, law, business, management, policy, communications are used as the program is structured to be interdisciplinary in nature.

Northern Iowa, University of, Educational Leadership Program

Address: 508 Schindler Education Center, Cedar Falls, Iowa, 50701-0604, United States
Organizational focus:
The Educational Leadership Program provides intensive study involving the preparation of personnel for leadership roles in K–12 schools, postsecondary institutions, and nonschool settings. Within the Educational Leadership intensive study area, individuals with college or university administrative or teaching experience may pursue study in postsecondary education to prepare for roles with increasing administrative or teaching responsibilities in postsecondary education organizations. A program of study focusing on postsecondary education, pursued in conjunction with the College of Education doctoral core courses, individually designed related studies, internship, and dissertation research, seeks to prepare its graduates to be scholar/practitioners in colleges and universities.

Staff (name • title/rank • specialization):
1. Carolyn Bair • Assistant Professor • student affairs
2. Larry W. Keig • Assistant Professor • curriculum, teaching and learning
3. Gerradine Pereault • Associate Professor • leadership studies
4. Michael D. Waggoner • Professor • organizational theory and leadership

Courses:
• Organization and Administration of Postsecondary Education
• History and Philosophy of Higher Education
• Introduction to Student Affairs
• Postsecondary Curriculum and Assessment
• Teaching in College
• The Two-Year College
• College Student Development
• Communication and Leadership in Postsecondary Education
• Economics of Higher Education
• seminar: Postsecondary Education
• internship: Postsecondary Education

Date established: 1991
Major source of funding: University

Organizational focus:
   The Master of Arts in Education degree in student affairs is designed
to prepare individuals for entry and midlevel professional positions in
student affairs. It is theory based yet applications oriented. Graduates
of the program will have the necessary skills and competencies to suc-
ceed in a variety of student affairs units—such as, admissions, housing and residence life, financial aid, orientation, placement, minority student services, advisement, student activities, student life, student conduct, international student affairs.

Students who are successful in the M.A.E. program in student affairs develop proficiency in all areas of student affairs work. Individual students are also provided with opportunities to focus in on specific content areas. The actual program content can be divided into three broad areas: (1) theoretical foundations (historical and evolutionary considerations, theories of student development, theories of organizational development, etc.); (2) parameters of professional practice (ethical, legal and political issues; diversity and multiculturalism; social and moral responsibilities; etc.); and (3) strategies for enhancing administrative effectiveness (leadership training, staff recruitment, training, and evaluation; budgeting and planning; program development, implementation, and assessment; etc.).

Staff (name • title/rank):
1. Aaron W. Hughey • Associate Professor and Program Coordinator
2. Cheryl Chambless • Adjunct Faculty and Director of Admissions
3. Don Dinkmeyer, Jr. • Associate Professor
4. Delbert Haytde • Professor
5. Susan James • Associate Professor
6. Karl Laves • Adjunct Faculty and Clinical Psychologist, Counseling Services Center
7. Cynthia Mason • Assistant Professor
8. Donald Nims • Assistant Professor
9. Vernon Sheeley • Professor
10. John Osborne • Adjunct Faculty and Assistant Vice President for Finance and Administration
11. Stephen Schnacke • Professor and Department Head
12. Fred Stickle • Professor

Major source of funding: University
Organizational focus:
The Higher Education Program, a subset of the Department of Educational Leadership, Research, and Counseling, offers a concentration within the Ph.D. in educational leadership and research. This program prepares experts for posts on junior college, college, and university campuses. Students in this concentration may anticipate taking courses in the foundations of higher education, the economics of university management, gender and race issues in higher education, and so forth. This concentration also provides hands-on experiences through its university-based practicums, preparing students for real-world jobs in the higher education field.

Staff (name • title/rank • specialization):
1. Becky Ropers-Huilman • Assistant Professor • curriculum and college teaching, race and gender in higher education, qualitative methodology
2. Bud Davis • Professor • organization in higher education, foundations of higher education, leadership
3. Richard Fossey • Associate Professor and Associate Dean • law in higher education
4. Barbara Fuhrmann • Professor and Dean • politics in higher education, curriculum
5. Kevin Kinser • Assistant Professor

Courses:
• Foundations of Higher Education
• Race and Gender in Higher Education
• Law in Higher Education
• Finance in Higher Education
• Curriculum and College Teaching
• Organization and Administration in Higher Education
• College Students in the United States

Student enrollments: Ph.D. (5 full-time, 35 part-time)

• Review of Higher Education

New Orleans, University of, Educational Leadership, Counseling, and Foundations Program
Address: 348 Bicentennial Education Center, University of New Orleans, New Orleans, LA, 70148, United States

Phone: 504-280-6661
Fax: 504-280-6453
Website: http://www.uno.edu

Date established: 1956
Major source of funding: University

Organizational focus:
The Department of Educational Leadership, Counseling and Foundations at the University of New Orleans offers programs leading to the M.Ed. and Ph.D. degrees in educational leadership and counseling, offering concentrations in either school administration or higher education. The graduate program in higher education prepares individuals for administrative, research, teaching, student services, and other positions in colleges, universities, public and private agencies, and other organizations involved in the study and practice of leadership and policy in postsecondary education. These programs primarily serve the urban and greater metropolitan area of New Orleans and the south-central and southeastern regions of the United States.

Staff (name • title/rank • specialization):
1. Michael B. Paulse • Professor and Coordinator, Higher Education • economics and finance of higher education, college teaching, curriculum and faculty development, college choice and persistence, educational research methods
2. Joseph B. Berger • Assistant Professor • governance and organizational theory, student services, student development, faculty issues, educational research methods
3. Ted Remley • Professor and Coordinator, Counseling • counseling in higher education, community colleges, legal issues
4. James Meza • Professor and Department Chair • legal aspects of higher education
5. Linda C Tillman • Assistant Professor • issues of race in higher education, faculty mentoring, qualitative research methods, community and technical colleges
6. Marydee Spillett • Assistant Professor • qualitative research methods, student services, student development, student leaders in higher education, women in higher education
7. Barbara Johnson • Visiting Assistant Professor • faculty issues in higher education, historically-black colleges and universities, college choice and persistence, governance and administration
8. Mary Louise Trammell • Adjunct Faculty and Associate Vice Chancellor, Office of Research and Sponsored Programs • history of higher education, legal aspects of higher education, policy analysis
9. Darren Lyn • Adjunct Faculty and Associate Director, Office of Financial Aid • student financial aid policy and administration, student services, persistence
10. James Killacky • Adjunct Faculty • community college organization and administration, governance of higher education, university-community relations
11. Max Reichard • Adjunct Faculty • community college organization and administration, history of higher education, planning in higher education

Courses:
• Student Affairs Administration in Higher Education
• College Student Development
• Student Choice in Higher Education
• Governance in American Higher Education
• History and Philosophy of Higher Education
• Financial Management in Higher Education
• Legal Aspects of Higher Education
• College Teaching
• College Curriculum
• Community and Technical Colleges
• Higher Education Policy Analysis
• Current Issues in Higher Education
• Advanced Theories in Educational Administration
• Leader Behavior in Educational Administration
• Power and Politics in Educational Administration
• Strategic Approaches to Educational Administration
• Seminar in Educational Administration
• Research Seminar in Educational Administration
• Dissertation Research in Educational Administration

Student enrollments: M.A. (20 full-time, 10 part-time), Ph.D. (20 full-time, 10 part-time)

Key textbooks/readings:
• Governance of American Higher Education: ASHE Reader.
• Birnbaum. *How Colleges Work.*
• *History and Philosophy of Higher Education: ASHE Reader.*
• *American Higher Education: A History.*

Key journals:
• *Research in Higher Education*

Maryland

Maryland at College Park, University of, Higher Education Program

Address: 2110 Benjamin Building, University of Maryland, College Park, MD 20742, USA
Phone: 301-405-3570
Fax: 301-405-3573
E-mail: rb21@umail.umd.edu
Website: http://www.umd.edu/edpa
Date established: 1980
Major source of funding: University

Program focus:
The doctoral program in higher education in the Department of Education Policy and Leadership prepares students for leadership positions in higher education administration, policy analysis, and scholarship. Program graduates obtain senior positions in community colleges, four-year institutions, national and regional higher education associations, state agencies and commissions dealing with higher education, as well as with executive and legislative branches of both state and federal government.

Staff (name • title/rank • specialization):
1. Robert Berdahl • Professor • state and federal politics and policies in higher education, British and comparative higher education
2. Robert Birnbaum • Professor • organization, governance and leadership in higher education, Japanese higher education
3. Sharon Fries–Britt • Assistant Professor • persistence, retention, access issues; college impact; the study of gifted black collegians
4. Frank Schmidtlein • Associate Professor • campus governance, planning and decision making, finance
5. Laura Perna • Visiting Assistant Professor • public policy analysis in higher education, financing higher education, student access and choice

Affiliated faculty:
6. Barbara Finkelstein • Professor • professional culture, cross-cultural education policy, women in higher education
7. Steven Selden • Professor • curriculum theory and development in higher education, conceptual analysis, improvement of college teaching

Courses:
• Professional Seminar in Higher and Adult Education
• Organization and Administration of Higher Education
• Retention Theories and the Impact of College
• Research in Education Policy, Planning and Administration
• State Systems of Higher Education
• Higher Education Finance
• College Teaching
• Special Topics in Education Policy and Administration: Management Innovation in Higher Education
• Research Seminar on Special Education
• Higher Education Law
• Higher Education in American Society
• The Community and Junior College

Major source of funding: University
Program focus:
The Boston College Program in Higher Education offers master’s and doctoral degree study in the field of higher education. The Program prepares professionals in higher education and features a rigorous social science–based approach to the study of higher education. Specializations in higher education administration, student affairs, international higher education, and others, are offered. The Higher Education Program works closely with the Center for International Higher Education.

Staff (name • title/rank • specialization):
1. Philip G. Altbach • J. Donald Monan Professor of Education • comparative and international higher education, the academic profession, student activism, publishing and knowledge distribution
2. Karen D. Arnold • Associate Professor • student development, academic talent development, women in higher education
3. Kathleen A. Mahoney • Assistant Professor • history of higher education, history of religion and education, gender education
4. Ana M. Martínez-Alemán • Assistant Professor • philosophy and theory of higher education; teaching and learning; the impact of race, culture, and gender on college teaching and learning; feminist theory and pedagogy; cross-cultural studies
5. Diana C. Pullin • Professor • law and higher education, public policy
6. Ted I. K. Youn • Associate Professor • organizational analysis of higher education, politics and political institutions in American higher education, the academic profession
Adjunct faculty:
7. Frank Campanella • Executive Vice President of Boston College; Professor in the Carroll School of Management • finance and economics of higher education
8. Anne Marie Delaney • Director of Program Research • institutional research
9. Howard London • Provost, Bridgewater State University • community colleges
10. Jack Warner • Vice Chancellor, Massachusetts Board of Higher Education • student personnel issues

Courses:
• Education Law and Public Policy
• Issues in Higher Education
• Higher Education in American Society
• Organization and Administration of Higher Education
• Student Affairs Administration
• The Community-Junior College
• Adult and Continuing Education
• College Student Development
• Global and Comparative Systems in Higher Education
• Institutional Research: Implementation and Utilization
• The Academic Profession
• Public Policy, Politics, and Higher Education
• Curriculum Development and Design in Higher Education
• Organizational Decision Making in Higher Education
• Financial Management in Higher Education
• Seminar on Law and Higher Education
• Gender Issues and Higher Education
• Seminar in Research in Higher Education
• Internship in Higher Education

Student enrollments: M.A. (30 full-time, 18 part-time), Ph.D. (40)

Boston College, Center for International Higher Education

Address: Campion Hall, Room 207, 140 Commonwealth Avenue, Chestnut Hill MA 02467 USA
Telephone: 617-552-4236
Fax: 617-552-8422
E-mail: highered@bc.edu
Website: http://www.bc.edu/cihe
Date established: 1994
Major source of funding: University; grant funds from various philanthropic organizations

Institutional focus:
The Boston College Center for International Higher Education has as its primary aim providing information and publications to colleges and universities related to the Jesuit tradition, it also has a broader mission to be a focal point for discussion and thoughtful analysis of higher education. The Center provides information and analysis for those involved in managing the higher education enterprise internationally through publications, conferences, and the maintenance of a database of individuals and institutions. The Center is especially concerned with creating dialogue and cooperation among academic
institutions in the industrialized nations and those in the developing countries of the Third World.

Center publications:
- *International Higher Education* (quarterly newsletter)

The Garland Readings Series in Higher Education:
- Lewis Tyler and colleagues. *Latin American Higher Education*.
- Maresi Nerad. *Graduate Education*.
- Karen Arnold. *Student Development*.
- Peter Darvas. *European Higher Education*.

Routledge/Falmer Book Series:
- Charles J. Bierne, SJ. *Jesuit Education and Social Change in El Salvador*.
- James J. Forest, ed. *University Teaching: International Perspectives*.
- Billie Wright Dziech and Michael W. Hawkins. *Sexual Harassment in Higher Education: Reflections and New Perspectives*.

Fax: 617-287-7747
E-mail: nerche@umb.edu
Website: http://www.nerche.org
Date established: 1988
Major source of funding: University, private foundations
Organizational focus:
The New England Resource Center for Higher Education (NERCHE) is devoted to strengthening higher education’s contributions to society through collaboration. It does this by working on a continuing basis with colleges and universities in New England through think tanks, consultation, workshops, conferences, research, and action projects.

Staff (name • title/rank • specialization):
1. Deborah J. Hirsch • Director, NERCHE, Adjunct Associate Professor • higher education policy, practice service learning, faculty professional service
2. Catherine A. Bureack • Associate Director, NERCHE, Adjunct Professor • higher education policy, practice service learning, faculty professional service
3. Sharon Singleton • Program Associate, NERCHE • higher education policy, practice service learning, faculty professional service

Michigan

Michigan, University of, Center/Program for the Study of Higher and Postsecondary Education

Address: 2117 School of Education Building, 610 E. University Avenue, Ann Arbor, MI, 48109-1259, United States

Phone: 734-764-9472
Fax: 734-764-2510
E-mail: cshpe.info@umich.edu
Website: http://www.umich.edu/cshpe

Date established: 1957
Major source of funding: University
Organizational focus:

This is a graduate program (doctoral and master’s) and a research center. There are 10 full-time faculty representing the range of scholarly areas: academic affairs, teaching and learning, public policy, organizations behavior and management, finance, college impact, community colleges, and research evaluations and assessment. The instructional programs are aimed at preparing entry- and midlevel administrators and practitioners (master’s) and top-level leaders and faculty (doctoral) in higher education. The research is diverse in focus and covers the scholarly areas noted above. At the moment, faculty and graduate students are working on sponsored projects on institutional transformation, curriculum leadership, instruction in verbal teaching, learning environments, organizational leadership by chief academic officers, racial environment, and its impact on students, college access and affordability, strategic planning in community colleges, and state and institutional policies regarding student outcome assessment, among others. The philosophy is to prepare higher education leaders who are able to understand and conduct research by involving them in inquiry activities.

Current publications:

• Pursuit (biannual newsletter)

Staff (name • title/rank • specialization):
1. Elizabeth Barry • Associate Vice President • counsel law and higher education
2. Eric L. Dey • Associate Professor • college student research, statistics and research design
3. Maureen A. Hartford • Adjunct Assistant Professor • management of student affairs
4. Donald E. Heller • Assistant Professor • postsecondary education economics and finance, public policy
5. Sylvia Hurtado • Associate Professor • college student development, social context of higher education/research design methods
6. Janet H. Lawrence • Associate Professor and Director CSHPE • college instruction, faculty, research design
7. Michael T. Nettles • Professor and Executive Director, Frederick D. Patterson Research Institute • public policy, assessment, research design methods

**Minnesota, University of, Postsecondary Education Policy Studies Center**

Address: 330 Wulling Hall, University of Minnesota, Minneapolis, Minnesota 55455-0221, United States

Phone: 612-624-1006
Fax: 612-624-3377
Website: http://www.coled.umn.edu/pepsc

Date established: 1999
Major source of funding: varied sources of funding

Organizational focus:

Located in the College of Education and Human Development at the University of Minnesota, the Center was created to raise public aware-
ness of critical policy issues in postsecondary education, critique existing and proposed policies, foster better understanding of policy implications, and facilitate discussions about policy development through its research and dissemination activities.

Staff (name • specialization):
1. Melissa S. Anderson • research and technology transfer, state financing policy
2. Carol M. Boyer • strategic planning, state and national policy for postsecondary education
3. John R. Brandl • state finance, education policy, and social policy
4. Robert H. Bruininks • educational accountability, strategic planning and management, school-to-work transition, and inclusion of individuals with disabilities
5. David W. Chapman • international development, strengthening higher education systems in the developing world
6. James C. Hearn • financing policy, the role of information and research in postsecondary policymaking
7. Darwin D. Hendel • evaluation of higher education programs and curricula
8. Darrell R. Lewis • the economics of higher education, productivity and efficiency concerns, equity
9. Alice M. Thomas • teaching and learning in higher education, faculty development and evaluation, assessment in higher education
10. Caroline Turner • diversity and equity among faculty, staff, and students
11. research assistants (doctoral students in the higher education program)

Missouri

Central Missouri State University, Higher Education Student Personnel Program

Address: LOV 404F, Central Missouri State University, Warrensburg, MO, 64093, United States

Phone: 660-543-8628
Fax: 660-543-4167
E-mail: dcs8628@cmsu2.cmsu.edu
Date established: 1967
Major source of funding: University

Organizational focus:
In the student personnel program at Central Missouri State, there is a major emphasis on student development and a secondary emphasis on student services. Coursework in the behavioral sciences is encouraged when needed for professional development. The program is practice-to-theory-to-practice-focused in the hope students will find the connections between theory and classroom learning and how they live and choose to work.

Staff (name • title/rank • specialization):
1. David C. Sundberg • Coordinator and Associate Professor • college student personnel administration, counseling psychology, student development, ethics
2. Tom Edmunds • Senior Vice President for Business • higher education law
3. Judy Vickrey • Vice President for Finance • junior/community college
4. Sonny Castro • Assistant Vice President for Student Affairs • personnel administration
5. Beth Tankersley • Director of Community Awareness • personnel administration, diversity issues

Courses:
• Higher Education
• The College Student
• The Junior/Community College
• The Law in Higher Education
• Student Development Theories and Practice
• College Student Personnel Administration
• Seminar in Higher Education
• Practica in CSPA
• College Teaching
• Curriculum in Higher Education

Student enrollments: M.A. (15–30), Educational Specialist (3–5)

Key journals:
• NASPA Journal
• Journal of Higher Education
• Journal of College Student Development
Missouri at Columbia, University of, Higher and Continuing Education Program

Address: University of Missouri at Columbia, 211 Hill Hall, Columbia, MO, 65211, United States

Phone: 573-882-8231
Fax: 573-884-5714
E-mail: JonesL@missouri.edu
Website: http://www.coe.missouri.edu/elpawww
Date established: 1950
Major source of funding: University; external grants and contracts
Organizational focus:
The goal of the program is producing leaders who can successfully compete for faculty positions at Research I institutions, as well as those who aspire to practitioner-leader positions in the variety of institutions and organizations in which postsecondary education plays a central role. The faculty believes that to produce scholarly and research-oriented faculty members and practitioner-leaders will require students to have (a) broad grounding in higher and continuing education content; (b) specific emphasis in higher and continuing education content; (c) research preparation; and (d) practical and applied experiences in research and teaching.

The Department of Educational Leadership and Policy Analysis does not publish books or journals. However, it is host to the Association for the Study of Higher Education. Dr. Julie Caplow, a faculty member in the higher and continuing education program, currently serves as the Association’s executive director.

Staff (name • title/rank):
1. Barbara Townsend • Professor
2. Julie Caplow • Associate Professor
3. Steven Graham • Associate Professor
4. Irv Cockrield • Professor
5. Joe Donaldson • Associate Professor
6. Janice Dawson-Threat • Assistant Professor

Courses:
- Organizational Analysis

Nebraska

**Nebraska, University of, Educational Leadership and Higher Education Program**
Address: 1204 Seaton Hall, P.O. Box 770638, Lincoln, NE, 68588-0638, United States
Organizational focus:

The major purpose of the Program is to provide academic preparation and professional development for those individuals who will serve:

1. as leaders for public and private education institutions, organizations, and agencies not requiring formal administrative certification;
2. as researchers and faculty in areas such educational administration/leadership, policy studies, and law; and
3. as leaders for institutions of higher and postsecondary education in the areas of academic affairs, business affairs, student affairs, and institutional advancement. Graduates will be expected to enter leadership positions in some type of higher or postsecondary education or related agency such as government, foundations, or human service organizations. The Program is also designed to prepare faculty leaders and scholars to teach and research in higher and postsecondary education.

Faculty and staff affiliated with the program will seek first to serve the needs of the state and region but will also give careful consideration to the need for professionals in international and multicultural education. The Program is located in the Department of Educational Administration.

Current publications:
- The Academic Chairperson’s Handbook.
- Academic Leadership in Community Colleges.
- The Department Chair: New Roles, Responsibilities, and Challenges.

- Faculty Personnel: Policies, Practices and Problems
- Foundations of Student Personnel Administration
- Issues in Instruction
- Ethnic Groups in Higher Education

Student enrollments: M.Ed. (70), Ph.D. (20 full-time, 30 part-time), Ed.D. (2 full-time, 18 part-time)

Key journals: Those that deal with higher education issues related to policy, theory, administration, community colleges, and student affairs.

State University of New York at Albany, Educational Administration and Policy Studies Program

Address: University of Albany, State University of New York, School of Education, 1400 Washington Avenue, Albany, NY, 12222, United States

Phone: 518-442-5080
Fax: 518-442-5084
E-mail: fred@cnscax.albany.edu
Website: http://www.albany.edu/eaps/
Date established: 1948
Major source of funding: University, grants

Organizational focus:
Graduate programs in the department provide study leading to doctoral (Ed.D.), master’s degree (M.A.), and the CAS (Certificate of Advanced Study). The three programs offer students graduate preparation for a wide variety of leadership and staff positions in school and district-level administration, colleges and universities, and other organizations at local, state, and national levels. In addition, overseas students and others are prepared for educational planning and policymaking positions in foreign countries and with international agencies and foundations.

The programs in educational administration and policy studies include three subfields that allow students to pursue courses related to particular career interests: school administration, higher education administration, and educational policy studies.

Staff (Name):
1. Mark Berger
2. Daniel Levy

• Seminar in Administrative Research

Student enrollments: M.A. (70), Ph.D. (80), Nondegree (63), CAS (33)

State University of New York at Buffalo, Educational Leadership and Policy Program

Address: 468 Baldy Hall, University at Buffalo, State University of New York, Buffalo, NY, 14260, United States

Phone: 716-645-2471
Fax: 716-645-2481
Website: http://www.GSE.Buffalo.edu/

Major source of funding: University

Organizational focus:
The department focuses on preparing scholars and educational professionals and leaders to work creatively in a range of educational institutions and settings. These include public and private elementary and secondary schools; colleges and universities; business and industry; international agencies and nongovernmental organizations; local, state and federal governments; and philanthropic and social welfare institutions.

There are several programs within the department. These include educational administration (Ph.D., Ed.D., and Ed.M.), specialist in educational administration diploma, social foundations (Ph.D.), general education (Ed.M.), higher education concentration at the master’s
and doctoral level, including master’s degree in student services administration, and finally a school diploma in critical thinking.

The focus in higher education stresses an interdisciplinary approach to the study of postsecondary education and all academic programs are individually designed. While students are exposed to the theories of administration, as well as to the practical issues that higher education administrators face in today’s colleges and universities, the Program is designed to provide a well-grounded understanding of the nature and problems of higher education.

Staff (name • title/rank • specialization):

1. William Barba • Assistant Professor • history of higher education, academic collective bargaining, law and higher education
2. Dennis Black • Adjunct Assistant Professor and Vice President, Student Affairs • law and higher education, college student services and development
3. William Cummings • Professor • comparative higher education
4. D. Bruce Johnstone • University Professor and former SUNY Chancellor • economics, finance, and governance of higher education; curriculum; international comparative higher education

Syracuse University, Higher Education Program

Address: Higher Education Program, School of Education, 350 Huntington Hall, Syracuse, NY 13244-2340, United States

Phone: 315-443-4763
Fax: 315-443-9218
Organizational focus:
The Higher Education Program at Syracuse University seeks to bridge the borders between theory, research, and practice through the adaptation of collaborative models of graduate education. In both master’s and doctoral degree programs, students and faculty work together on a variety of projects in which theory and research are employed to the solution of important issues of practice—in particular the education and degree attainment of students in both two- and four-year college settings. The Program seeks to build an inclusive community of discourse about theory and practice by drawing upon the skills of faculty and student affairs professionals from across campus and from nearby institutions of higher education.

Staff (name • title/rank):
1. Vincent Tinto • Program Chair and Distinguished University Professor
2. Catherine McHugh Engstrom • Coordinator of Master’s Program and Assistant Professor
3. Joan Burstyn • Professor

Website: http://edap.bgsu.edu/HESA/

Date established: master’s 1970, doctoral 1990
Major source of funding: University

Organizational focus:
The higher education doctoral program serves the postsecondary education community. The combined resources of Bowling Green State University, the Department of Higher Education and Student Affairs, the Higher Education Program Faculty, and a regional network of cooperating colleges and universities are committed to the preparation of higher education leaders. Preparation for this field at Bowling Green State University is distinguished by an emphasis on five program characteristics:

• a commitment to education leadership grounded in expressed principles, ideals, ethics, and values;
• a zeal for involvement and advocacy in the higher education profession;
• a holistic perspective of higher education that reflects an understanding of the interests and concerns of the internal campus environment, external constituents, and the global community;
• expertise in a discipline-based academic speciality, in addition to a command of a core professional studies in higher education; and
• appreciation for both quantitative and qualitative tools of inquiry, emphasizing an understanding of their application to an array of
problems, challenges, issues, and practices in higher education.

Staff (name • specialization):
1. Leigh Chiarelott • higher education curriculum, teacher education and the psychopolitical climate, curriculum theory
2. Michael D. Coomes • federal higher education policy analysis, knowledge production and utilization in the student affairs profession
3. Robert Debard • two-year colleges, transfer students, budgeting and financial management, organizational behavior and development
4. Donald D. Gehring • legal issues in higher education, alcohol, the presence of the federal government in higher education
5. Patricia M. King • intellectual development of college students and adults, moral development, ethical issues in college student affairs and higher education
6. William E. Knight • institutional research, assessment, planning, research methods, financial issues, governance, history of American higher education

Toledo, University of, Higher Education Program/John H. Russel Center for Educational Leadership

Address: 2801 West Bancroft, Toledo, OH, 43606-3390, United States

Phone: 419-530-2461 (Program); 419-530-2155 (Center)
Fax: 419-530-4912 (both)
E-mail: skatsin@utnet.utoledo.edu; dmanns@utnet.utoledo.edu
Date established: Program, 1963; Center, 1967
Major source of funding: University; private gifts

Organizational focus:
The Program in Higher Education offers graduate study at the master’s and doctoral levels to prepare persons for administrative and teaching leadership roles at public and private two- and four-year institutions of higher education. Students are provided with a platform on which to develop their own sense of vision and understanding of issues related to leading, not merely managing, institutions and people. Students are encouraged to appreciate the contextual differences among and between institutions in the world’s most diverse system of higher education. The Program is especially tailored to serve
the needs of adult learners and professionals already in the field who hold full-time positions—via courses delivered in the late afternoon and evenings.

Current publications:
• a quarterly newsletter

Staff (name • title/rank • specialization):
1. Penny Poplin Gosetti • Assistant Professor • campus cultures, student affairs, women in higher education
2. Stephne G. Katsinas • Professor • higher education history, policy, lay governance
3. Ronald D. Opp • Associate Professor • faculty issues, assessment, community colleges

Pennsylvania, University of, Higher Education Program

Address: 4200 Pine Street, 4th Floor, Philadelphia, PA, 19188, United States
Phone: 215-898-2444
Fax: 215-898-9876  
E-mail: feld@underground.irhe.upenn.edu (Steve Feld, Instructor and Academic Coordinator)  
Website: http://www.upenn.edu/gse/Academics/HED/index.html

Date established: 1984  
Major source of funding: University

Organizational focus:  
The Program trains students in higher education administration. The goal is to prepare School of Education graduates for senior-level administrative positions within higher education, positions in higher education consulting and in higher education policymaking agencies and organizations, and to prepare researchers and professors of higher education administration.

Staff:  
Three full professors, five adjunct professors, three lecturers/instructors, two coordinators.  
Specializations include: finance, market economics, history, organizational management, student life, management of change, outcomes/assessment.

Courses:  
- Contemporary Issues in Higher Education  
- Higher Education Systems  
- Governance in Higher Education  
- History of American Higher Education  
- Quantitative Research Methods (doctoral)  
- Methods of Institutional Research Strategic Planning  
- Administration of Student Life  
- Enrollment Management  
- Developments in Higher Education: Residential Colleges  
- Management in Higher Education  
- Law in Higher Education  
- Public Policy Issues in Higher Education  
- Proseminar in Research and Analysis in Higher Education (2 semesters)  
- Readings in Higher Education (2 semesters)  
- Access and Choice in American Higher Education  
- Case Studies in Higher Education Administration  
- Teaching and Learning in Postsecondary Education  
- Economics of Higher Education
• Finance in Higher Education
• Budget and Resource Allocation

Student enrollments: M.S.Ed. (15 full-time, 22 part-time), Ed.D. (15 full-time, 25 part-time), Ph.D. (8 full-time, 20 part-time)

The Pennsylvania State University, Center for the Study of Higher Education

Address: 403 South Allen Street, Suite 104, University Park, PA, 16801-5252, United States
Phone: 814-865-6346
Fax: 814-865-3638
Website: http://www.ed.psu.edu/cshe

Date established: 1969
Major source of funding: federal government, private foundations, University

Organizational focus:
The Center provides studies, analyses, and reports relevant to decision making in higher education and, in doing so, aids in the formulation of higher education policy. The Center has provided guidance, support, and research on issues, topics, and problems central to the higher education policy of the federal government, of the various states, of the Commonwealth of Pennsylvania, and of Pennsylvania State University.

The purpose of the Center is to examine issues that affect the policies and practices of postsecondary institutions and their implications for leadership, planning, and general administration.

Current publications:
• Annual for Higher Education
• New Directions for Institutional Research

Staff (name • title/rank • specialization):
1. Alberto F. Cabrera • Associate Professor and Senior Research Associate • college student adjustment and persistence, minorities in higher education, the effects of student financial aid, quantitative research methodologies
2. Carol L. Colbeck • Assistant Professor and Research Associate • organizational and disciplinary influences on faculty work behavior, the impact of
faculty teaching efforts on student learning, curricular reform
3. Roger L. Geiger • Professor and Head of the Higher Education Program • history of higher education
4. Robert M. Hendrickson • Professor and Chair of the Department of Education Policy Studies • organizational theory, administration, law of higher education
5. Robert Marine • Research Associate • complex service and data systems, process evaluation, technology applications in higher education
6. James L. Ratcliff • Professor and Senior Scientist • assessment and evaluation, curriculum, and program development; community college education
7. Patrick T. Terenzini • Professor and Senior Scientist • impact of college on students, student retention, institutional research and planning, the assessment of student learning outcomes
8. James Fredricks Volkwein • Professor, Senior Scientist, and Director • government regulations and university autonomy, planning strategies and models, performance measures, academic program evaluation and accreditation, assessment of student learning and growth

Courses:
• Higher Education in the United States
• Curricula in Higher Education
• Administration in Higher Education
• The History of American Higher Education
• Higher Education Students and Clientele
• Legal Issues in Higher Education
• Organizational Theory and Higher Education
• Qualitative Methods in Educational Research

Student enrollments: M.A. (10), Ed.D./Ph.D. (90)

Student enrollments: M.Ed. (2 full-time, 18 part-time), Ed.D. (5 full-time, 65 part-time)
Shippensburg University, Counseling and Student Personnel Program

Address: Shippensburg University, Department of Counseling CEC, 1871 Old Main Drive, Shippensburg, PA, 17257, United States

Phone: 717-532-1668
Fax: 717-530-4056
E-mail: thhozman@ark.ship.edu
Website: http://ark.ship.edu
Date established: 1960
Major source of funding: University

Organizational focus:
The Department of Counseling teaches the necessary skills for the professional practice of counseling and student personnel work. The Program also facilitates the conceptualization of a professional role, one that is flexible enough to grow as new knowledge and developments occur. The counseling program is a careful balance of theory with practice. Students are required to complete a practicum and a minimum of two internships.

The Department offers the following graduate degree specializations in counseling: Master of Education degree and certification as elementary or secondary school counselors, Master of Science degree with specialization in community or mental health counseling, and Master of Science degree with specialization in college counseling or student personnel services. The Department of Counseling is fully accredited by the Middle States Association of Colleges and Secondary Schools and the National Council for Accreditation of Teacher Education (NCATE). The Department is also authorized by the State Board of Counseling.

Staff (name • title/rank):
1. Anthony F. Ceddia • President of the University
2. Robert B. Bartos • Dean of Graduate Studies and Dean, College of Education and Human Services
3. Renee M. Payne • Assistant Dean of Graduate Studies
4. Paul F. Dempsey • Assistant Dean of Graduate Studies and Registrar
5. Thomas L. Hozman • Counseling Department Chair
6. Jan L. Arminio • Professor
7. Mary O. Bradshaw • Psychological Counselor
8. Ford W. Brooks • Professor
9. Andrew L. Carey • Professor
10. Kurt L. Kraus • Professor
11. Kathryn A. Kurdt • Psychological Counselor
12. David L. Lovett • Director of Counseling Services
13. Rebecca M. LaFountain • Professor
14. Beverly L. Mustaine • Professor
15. Norman R. Sharp • Professor
16. Michelle Stefanisko • Counseling Psychologist

Student enrollments: M.A. (155 full-time, 75 part-time)

Key textbooks/readings:

Key journals:

Fax: 713-743-2085
E-mail: ihelg@www.law.uh.edu
Website: http://www.law.uh.edu/LawCenter/Programs/IHELG

Date established: 1982
Major source of funding: University; grant and contract funds from various foundations

Organizational focus:
The Institute for Higher Education Law and Governance (IHELG) is the only research institute in the United States devoted to scholarship and practice of higher education law as a field of study. The Institute sponsors scholarship activities, research projects, colloquia, confer-
ences, round tables, and workshops on higher education legal and finance issues; sponsors a research monograph series (totaling over 220 studies); and trains postdoctoral fellows, University of Houston Law Center (UHLC) law students, and University of Houston doctoral students in college law and administration. Its specialized library holds over 2,000 volumes.

Current publications:
IHELG publishes a working paper Research Monograph Series, averaging one such study per month. Virtually all are reprinted as refereed journal or law review articles or as books or book chapters. (All titles are available from the IHELG website.)

Staff (name • title/rank):
1. William B. Bates • Director
2. Michael A. Olivas • Professor of Law
3. Nancy Snyder-Nepo • Research Assistant
4. Dennis Duffy • Research Fellow and UH General Counsel
5. Laura Rothstein • Professor, UHLC Law Foundation
6. Craig Joyce • Professor, UHLC Law Foundation
7. Amaury Nora • Professor, UHLC Law Foundation
8. Nestor Rodriguez • Professor, UHLC Law Foundation
9. Augustina H. Reyes • Professor, UHLC Law Foundation

Courses:
• Higher Education Law Seminar
• Intellectual Property
• Special Education Law
• Constitutional Law Seminar

Key textbooks/readings:

Key journals:
• Journal of College and University Law
• Journal of Education
• Journal of Legal Education
• Journal of Higher Education
• Review of Higher Education
• Research in Higher Education

1. Don G. Creamer • Professor and Program Coordinator of Higher Education and Student Affairs • policy studies, organization development
2. Joan B. Hirt • Associate Professor • professionalization in student affairs
3. Steven M. Janosik • Associate Professor • policy studies, higher education law

Courses:
• Student Development in Higher Education
• Theory and Appraisal of College Student Development
• Program Interventions for Promoting College Student Development
• The American College Student and the College Environment
• Practicum in Student Affairs
• Seminar: Research in Student Affairs
• Governance and Policy in Education
• College and University Administration
• Higher Education in the United States
• Higher Education Law
• Financial Administration in Higher Education
• Organization Development in Education
• Policy Studies in Education
• Theories of Educational Organizations
• Institutional Planning and Research
• Institutional Effectiveness and Student Outcome Assessment
• Problems in Education: Practice of Educational Research and Assessment
• Seminar: The State Role in Education
• Seminar: Staffing Practices in Education

Student enrollments: M.A. (28 full-time, 1 part-time), Ph.D. (10 full-time, 8 part-time)
Virginia, University of, Center for the Study of Higher Education

Address: University of Virginia, Curry School of Education, Charlottesville, VA, 22903, United States

Phone: 804-924-3880
Fax: 804-924-0747
E-mail: highered@virginia.edu
Website: http://curry.edschool.virginia.edu/curry/dept/edlf/he/

Date established: 1969
Major source of funding: University

Organizational focus:
The Center for the Study of Higher Education is an instructional, research, and service unit of the Curry School of Education. The Center’s instructional programs provide college, university, and adult educational leaders the opportunity to explore established and emerging practices in postsecondary education, to analyze current issues and challenges, and to think critically about educational and institutional priorities and commitments.

In addition to courses, the Center sponsors workshops, seminars, and short institutes as well as research reports and occasional papers that provide college and university administrators and other education leaders with fresh perspectives on developments in postsecondary education.

Current publications:
• Virginia Education Review
• The Quarterly (newsletter)

Staff (name • specialization):
  1. David W. Breneman • economics, the liberals arts college
  2. Jay L. Chronister • administration, economics and finance of higher education, faculty issues
  3. Annette Gibbs • student affairs administration, governance and management of colleges and universities
  4. Elizabeth Flanagan • adult learners
  5. Raymond M. Haas • administration and planning in higher education

Eligibility Requirements

To be included in the higher education inventory, programs, centers, and institutes should meet the following requirements. If you do not believe that your program, center, or institute meets these qualifications, we would still like to hear from you. Please return the enclosed questionnaire with as much information about your organization as possible.

Higher education/postsecondary programs (focusing primarily on graduate teaching):

• At least one FTE (full-time equivalent) faculty member focusing on higher education. This might mean two or more teaching staff who have only a partial commitment.

• At least four graduate/postgraduate-level courses (master’s and/or doctoral) that relate to higher education—the definition can be fairly broad. In general, a program should offer the terminal degree (i.e., the most advanced degree available, usually the doctorate), although providing a formal degree is not mandatory.

Higher education centers and institutes:

• A center or institute is primarily focused on research, policy analysis, or related activities, although it may offer some academic courses. It must have at least one full-time professional staff member, and at least two professional support (for example, director, professor, lecturer, researcher, or administrator. Do not include secretaries.) It should have an assigned budget. A center or institute may be housed in a unive-
sity, government, agency, private institution, or be freestanding. Funding may come from a variety of sources.

Response Instructions

You may return the questionnaire by mail, e-mail, or by filling out an electronic version of the questionnaire on the Center for International Higher Education WWW page.

- Mail Instructions. Type responses on the enclosed questionnaire. Immediately return completed form via airmail to: Center for International Higher Education, 207 Campion Hall, Boston College, Chestnut Hill, MA 02467 USA;
- E-mail Instructions. E-mail correspondingly numbered responses to <highered@bc.edu>. You need not retype the questions;
Higher Education Questionnaire

Please type if returning by mail.
Use additional pages as necessary.
Responses should be based on the most current information available at the time of mailing.

Check one of the following:

____ This is a program (i.e., it mainly focuses on teaching and professional preparation).
____ This is a center or institute (i.e., it is mainly concerned with research, policy analysis, or related activities).
____ We fit neither category, but we are concerned with higher/postsecondary education.

(1) What is the formal name of your organization (in English and in your national language)?

(2) Address:

(3) Telephone number(s):

(4) Fax number(s):

(5) E-mail address:

(6) World Wide Web address:

(7) What is the focus of your organization? Please be as specific as possible in describing its main purpose(s) and program(s).

(8) When was your organization established?

(9) What is your organizational location (for example, School of Social Sciences, government agency, private organization, independent research center, etc.)?

(10) What is your major source of funding (university, government, etc.)?
(11) If your organization publishes books, journals, a newsletter, etc., please specify and list recent titles by type.

(12) Please list the names, ranks, and areas of specialization for all members or professional staff in the field of higher education at your organization (For example, director, professor, lecturer, researcher, or administrator. Do not include secretaries.) While these individuals need not be involved on a full-time basis, their participation should be significant.

(13) If applicable, please list the number and names of classes (courses) given in a typical academic year in higher education. Indicate which are master’s (M.A.) or doctoral (Ph.D.) level courses. DO NOT include undergraduate (i.e., first-degree) courses.

(14) If applicable, how many students are typically involved in your program?

</tr>
</tbody>
</table>

Please specify “other” degree or certificate:

(15) If applicable, please list the key textbooks and or/readings that are used in your two main introductory courses in the field of higher education? If possible, please also send relevant syllabi.

(16) What are the main journals used in courses or research?

Thank you very much for taking the time to fill out this questionnaire. If you have any brochures or other publications that describe your organization, please send them to us. Please mail this form and any additional materials to: Center for International Higher Education, 207 Campion Hall, Boston College, Chestnut Hill, MA 02467 USA.
About the Authors

Philip G. Altbach is J. Donald Monan, SJ professor of higher education and director of the Center for International Higher Education at Boston College. He is author of *Comparative Higher Education: Knowledge, the University and Development*, *Student Politics in America*, editor of *International Higher Education: An Encyclopedia*, *Private Prometheus: Private Higher Education and Development*, and other books. He is editor of the *Review of Higher Education*.

David Engberg is on the staff of the international division at the American Council on Education, Washington, D.C. He is a doctoral candidate in higher education at Boston College and has been on the staff of the Center for International Higher Education.

Yoshikazu Ogawa is a graduate assistant in the Center for International Higher Education at Boston College. He has been a researcher at the Center for Higher Education at Hiroshima University, Japan.
