Dear BC Preceptors,

We hope you are all doing well under the blanket of snow we call Boston and with the Spring semester already upon us we wanted to take a moment to thank you for your continued support of Boston College and the exceptional training provided to our students.

Working as a preceptor is a wonderful way to be a role model and teacher for a new generation of nurse practitioners. As a new or returning preceptor we hope that you have a positive experience and find your practice invigorated by the role of mentor. To thank you for your dedication, please accept our invitation to join us for dinner and meet with fellow preceptors and nursing faculty.
