The following list provides an overview of private funding sources that offer grants with specific submission deadlines. This is a condensed version of funding opportunities that have been sent out to BC faculty and administrators over the past 12 months. Generally, if a grant opportunity applies to just one BC department, it is sent only to that department chair/administrator and will not be included here.

Please note that while these opportunities have deadlines from September 2010 through September 2011 (in reverse chronological order), the particular funding opportunities and deadlines may change from year to year.

Please contact Kathy Kuy, Corporate & Foundation Relations, (617-552-2884, Kathy.Kuy@bc.edu) if you would like to discuss any of these opportunities.

---

**Guggenheim Memorial Foundation Fellowship**
- Departments: Arts and Sciences
- Deadline: September 15, 2011

Guggenheim Fellows are appointed on the basis of stellar achievement and exceptional promise for continued accomplishment in the arts and sciences. Fellows are writers, scholars, scientists, artists, playwrights, filmmakers, photographers, composers, or the like.

Amount of Award: Generally range from $25,000-$50,000 for a six- to twelve-month Fellowship.

**Sloan Research Fellowship**
- Departments: Arts and Sciences
- Deadline: September 15, 2011

Sloan Fellowships seek to stimulate fundamental research by early-career scientists and scholars in chemistry, physics, mathematics, computer science, economics, neuroscience, computational and evolutionary molecular biology, or in a related interdisciplinary field.

Amount of Award: $50,000 over two years. Indirect costs are not allowed.

**William T. Grant Foundation Investigator Initiated Grants**
- Departments: Arts and Sciences, the Lynch School, and the Graduate School of Social Work
- Deadline: LOIs due September 7, 2011, 3:00 p.m. ET

Awards support research on youth settings, how they affect youth development, and how they can be improved; and on studies that examine when, how, and under what conditions research evidence is used in policies and practices that affect youth and how its use can be improved.

Amount of Award: Typically range between $100,000 and $600,000 over two to three years, including up to 15% indirect costs.
PhRMA Foundation Informatics Awards
Departments: Biology and Chemistry
Deadline: September 1, 2011

Informatics awards support career development of scientists engaged in computational and experimental research to integrate cutting-edge information technology with advanced biological, chemical, and pharmacological sciences.

Amount of Awards: Postdoctoral Fellowships of $40,000 for one year; Research Starter Grants of $60,000 for one year; Sabbatical Fellowships of up to $40,000 for one year.

PhRMA Foundation Pharmacology/Toxicology Awards
Departments: Biology and Chemistry
Deadline: September 1, 2011

Awards support research that integrates information on the mechanism of action of a drug or chemical at a molecular or cellular level with information on the effect of an agent in the intact organism.

Amount of Awards: Postdoctoral Fellowships of $40,000 for one year; Sabbatical Fellowships of up to $40,000 for one year.

Alcohol Beverage Medical Research Foundation
Departments: Arts and Sciences, the Connell School, and the Graduate School of Social Work
Deadline: September 1, 2011

The Foundation funds research on important aspects of alcohol consumption, including various behavioral and biomedical factors and effects of alcohol use, abuse, and misuse.

Amount of Award: $50,000 for up to two years, including 15% indirect costs.

Dreyfus Foundation Postdoctoral Fellowship in Environmental Chemistry
Departments: Chemistry and Earth and Environmental Sciences
Deadline: August 25, 2011

The Fellowship aims to further the development of scientific leadership in the field through supporting innovative research in the chemical sciences or engineering related to the environment.

Amount of Award: $120,000 over two years. Indirect costs are not allowed.

Damon Runyon Postdoctoral Research Fellowship Program
Departments: Biology, Chemistry, and Physics
Deadline: August 15, 2011, 4:30 p.m. ET

The Fellowship supports early career researchers who wish to conduct high risk research on cancer prevention, diagnosis, and treatment.

Amount of Award: $150,000 over three years. Indirect costs are not allowed.
International Rett Syndrome Foundation Basic & Translational Research Grants, and Fellowships
Departments: Biology and Chemistry
Deadline: LOIs due August 15, 2011
Full Proposals due October 10, 2011
Awards provide seed money for research that aims for a better understanding of MeCP2 during normal brain development, the investigation of neuronal abnormalities that result from MeCP2 dysfunction, and development of early and late stage translational efforts to treat or reverse Rett Syndrome.
Amount of Award: Regular Research Grants of $50,000 for up to two years; Translational Research Grants of $50,000 for one year and; Postdoctoral Fellowships of $50,000 per year for two years. All include indirect costs of up to 10% direct costs.

Google Faculty Research Award
Departments: Arts and Sciences, the Lynch School, and the Connell School
Deadline: August 1, 2011
This award supports a wide range of academic research aimed at improving information access (defined broadly). An extensive array of focus areas include, for example, education innovation, geology/maps, human-computer interaction, economics and market algorithms, and many more.
Amount of Award: $10,000 to $150,000, typically for one year.

Harry Frank Guggenheim Foundation Research Grants
Departments: Arts and Sciences, the Connell School, and the Graduate School of Social Work
Deadline: August 1, 2011
Awards support proposals in the natural and social sciences and the humanities that address urgent societal issues and increase understanding of the causes, manifestations, and control of violence, aggression, and dominance. Related research projects in neuroscience, genetics, animal behavior, the social sciences, history, criminology, and the humanities which illuminate modern human problems are also encouraged.
Amount of Award: $15,000 to $40,000 per year for up to two years.

Open Society Institute Fellowships
Departments: Arts and Sciences
Deadline: August 1, 2011
The Open Society Institute Fellowships support individuals seeking innovative and unconventional approaches to fundamental open society challenges. Among OSI’s core areas of concern are human rights, government transparency, the promotion of civil society, and social inclusion.
Amount of Award: Up to $100,000.

John Templeton Foundation
Departments: Arts and Sciences, the Carroll School, the Lynch School, and the School of Theology and Ministry
Deadline: Online Funding Inquires due between August 1, 2011-October 14, 2011
Full Proposals due between December 1, 2011-March 1, 2012
The Foundation’s resources are devoted to research (and disseminating the results of research) on issues surrounding altruism, creativity, free will, generosity, gratitude, intellect, love, prayer, and purpose. The Foundation invites Online Funding Inquiries for both its Core and Priority Funding Areas.
Amount of Award: 2010 grants ranged from $300,000 to over $4 million.
Research Corporation for Science Advancement Cottrell Scholars Award
Departments: Biology, Chemistry, and Physics
Deadline: August 1, 2011

The awards seek to reinforce faculty mentoring, communication, and a heightened appreciation for instruction in university science departments. A key objective is to build a community of outstanding teacher-scholars who are dedicated to becoming leaders in both research and teaching.

Amount of Award: $75,000 with no indirect costs. $5,000 is set aside from the award for transportation to, and onsite expenses at, the annual Cottrell Scholars Conferences.

Searle Scholars Program
Departments: Biology, Chemistry, Physics, and Psychology
Deadline: Internal deadline for pre-proposal form: July 15, 2011
E-mail pre-proposals to Kathy.Kuy@bc.edu.
External deadline: September 30, 2011

Awards support exceptional young researchers in the areas of biochemistry, cell biology, genetics, immunology, neuroscience, pharmacology, or related areas in chemistry, medicine, or the biological sciences. At this time we have not received the formal invitation (expected in early June) with the number of candidates that BC may submit this year.

Amount of Award: $300,000 over three years, including 8% indirect costs.

Smith Family Award for Excellence in Biomedical Research
Departments: Biology, Chemistry, and Physics
Deadline: Internal deadline for pre-proposal form: July 15, 2011
E-mail pre-proposals to Kathy.Kuy@bc.edu.
External deadline: September 8, 2011

Awards aim to launch the careers of outstanding biomedical researchers with the ultimate goal of achieving medical breakthroughs in areas such as AIDS/HIV, cancer, heart disease, diabetes, or neuroscience. The awards are targeted towards investigators who have held limited independent federal grants.

No more than two candidates may apply from Boston College.

Amount of Award: $300,000 at $100,000 per year, including 5% institutional overhead.

American Diabetes Association
Departments: Biology, Chemistry, the Connell School, and the Graduate School of Social Work
Deadline: July 15, 2011, 8:00 p.m. ET

Multiple awards support both new and established investigators, specialized grants to assist innovative researchers, and opportunities for established investigators as they advance their careers and the field of diabetes research and care.

Amount of Awards: Basic Science Award of up to $115,000 per year for up to three years, plus up to 15% for indirect costs; Junior Faculty Award of up to $120,000 per year for up to three years, plus 15% for indirect costs; Career Development Award of $150,000 per year for up to five years, plus 15% for indirect costs and a potential $25,000 stipend for each of the first two years for additional equipment; Innovation Award of up to $50,000 per year for two years with no indirect costs.
Susan G. Komen Research Program
Departments: Arts and Sciences, the Graduate School of Social Work, and the Connell School
Deadline: Pre-application for Promise Grant due July 15, 2011
Due dates for other grants not yet announced

Awards support proposals with significant potential to lead to reductions in breast cancer incidence and/or mortality within the next decade. RFAs will be announced on June 1.

Amount of Awards: Promise Grants, collaborative and cross-disciplinary research projects of $7.5 million over five years (combined direct and indirect costs); Investigator Initiated Research Grants of $250,000 per year for up to four years (combined direct and indirect costs); Career Catalyst Research Grants of $450,000 for up to three years (combined direct and indirect costs); and Postdoctoral Fellowships of $180,000 for direct costs only.

James S. McDonnell Postdoctoral Fellowship in Studying Complex Systems
Departments: Arts and Sciences
Deadline: July 15, 2011

As part of its 21st Century Science Initiative, the program supports scholarship and research directed toward the development of theoretical and mathematical tools that can be applied to the study of complex, adaptive, nonlinear systems. This new postdoctoral Fellowship opportunity is intended to provide students in the final stages of completing a PhD degree additional leeway in identifying and securing postdoctoral training opportunities in complex systems research.

Amount of Award: $200,000 over two years.

Helen Hay Whitney Research Fellowship
Departments: Biology and Chemistry
Deadline: July 15, 2011, 5:00 p.m. ET

Awards support early postdoctoral, basic research in biology and chemistry.

Amount of Award: $147,000 for three years, plus a total research allowance of $7,500. Indirect costs are not allowed.

American Heart Association Innovative Research Grant
Departments: Biology, Chemistry, Physics, and the Connell School
Deadline: July 8, 2011, 11:59 p.m. CT

Awards support research broadly related to cardiovascular disease and stroke, or related to clinical, basic science, bioengineering or biotechnology, and public health problems, including multidisciplinary efforts.

Amount of Award: $75,000 for two years, including 10% indirect costs.

American Heart Association National Established Investigator Award
Departments: Biology, Chemistry, Physics, and the Connell School
Deadline: July 8, 2011, 11:59 p.m. CT

Awards support mid-career scientists, including multidisciplinary efforts, broadly related to cardiovascular disease and stroke.

Amount of Award: $80,000 per year for five years, including 10% indirect costs.
American Heart Association National Scientist Development Grant
Departments: Biology, Chemistry, Physics, and the Connell School
Deadline: July 8, 2011, 11:59 p.m. CT
Awards support beginning scientists in basic research broadly related to cardiovascular disease and stroke.
Amount of Award: $77,000 per year for four years ($70,000 direct plus 10% indirect costs).

Juvenile Diabetes Research Foundation Pathways and Targets for Beta Cell Regeneration
Departments: Biology and Chemistry
Deadline: LOIs due June 30, 2011, midnight ET
Invited Full Applications due October 11, 2011
Awards support single investigators or team of investigators in developing or studying novel targets and pathways for regenerating beta cells in type 1 diabetes.
Amount of Awards: $250,000 for up to two years, including 10% indirect costs.

Diabetes Research and Wellness Foundation Research Grant
Departments: Biology, Chemistry, and Physics
Deadline: June 30, 2011
Award supports research relating to islet cell transplantation, macrovascular disease, and neuropathy.
Amount of Award: $50,000 per year for up to two years, including indirect costs at less than 10% for each year.

Gerda Henkel Foundation M4HUMAN Fellowships
Departments: Arts and Sciences
Deadline: June 30, 2011
European residential program aims to increase networking between researchers in the historical humanities at the international level, including researchers in religious, cultural, and political sciences under the special program “Islam, the modern nation state and transnational movements”. Other areas of support include: history, prehistory and early history, archaeology, art history, and legal history.
Amount of Award: Approximately $33,600 to $53,500, depending on research experience, for two years.

Alzheimer's Drug Discovery Foundation (ADDF)
Departments: Biology and Chemistry
Deadline: LOIs due June 21, 2011
Full Applications due July 5, 2011
ADDF Awards support drug discovery and development research programs in the field of Alzheimer's disease, related dementias, and cognitive aging. Awards do not support basic research. Inquiries with the ADDF staff are encouraged to determine the Foundation’s interest prior to application.
Amount of Award: Up to $150,000 per year for up to two years with potential for future follow-on funding. Indirect costs are not allowed.
Muscular Dystrophy Development Grants  
Departments: Biology and Chemistry  
Deadline: LOIs due June 15, 2011  
Award supports members of a research team in the laboratory of an independent investigator with interests in developing treatments for the muscular dystrophies and related diseases of the neuromuscular system.  
Amount of Award: $60,000 per year for one to three years.

Muscular Dystrophy Research Grants  
Departments: Biology and Chemistry  
Deadline: LOIs due June 15, 2011  
Award supports independent investigators with interests in developing treatments for the muscular dystrophies and related diseases of the neuromuscular system.  
Amount of Award: Funding levels for primary research grants are unlimited for one to three years.

Michael J. Fox Foundation for Parkinson’s Research: Target Validation  
Department: Biology  
Deadline: Pre-proposals due June 1, 2011, 6:00 p.m. ET  
Program supports work demonstrating whether modulation of a novel biological target has impact in a PD-relevant animal model.  
Amount of Award: $250,000 for up to two years, including up to 25% indirect costs.

Damon Runyon-Rachleff Innovation Award  
Departments: Biology, Chemistry, and Physics  
Deadline: Pre-proposals due June 1, 2011  
Award supports the next generation of exceptionally creative thinkers with “high risk/high reward” ideas that have the potential to impact the understanding of/approaches to the prevention, diagnosis, or treatment of cancer.  
Amount of Award: $150,000 per year for three years. Indirect costs are not allowed.

Avon Foundation for Women Breast Cancer Crusade Research Program  
Departments: Biology, Chemistry, and the Connell School  
Deadline: LOIs due May 6, 2011  
Awards support preventive strategies to address the causes and prevention of breast cancer, such as understanding environmental factors, the role of infectious or viral agents, and biomarkers.  
Amount of Award: Up to two-year awards at $150,000 per year, including 10% indirect costs.

March of Dimes Biomedical Research Program  
Departments: Biology, Chemistry, Psychology, the Connell School, and the Graduate School of Social Work  
Deadline: LOIs due April 30, 2011  
Awards support research in basic biological processes governing development, genetics, clinical reproductive health, environmental toxicology, social, and behavioral studies.  
Amount of Award: Grants are awarded for three-year periods. In the last grant cycle, the average grant per year was $93,342, the median grant was $95,463, and the grant range was $60,225 to $157,593.
Silberman Fund Faculty Grant Program
Departments: The Graduate School of Social Work
Deadline: April 29, 2011

Awards support the systematic investigation of innovations in social work practice, policy, and education.

Amount of Award: Up to $20,000 for one year projects and up to $40,000 for two-year projects.

William T. Grant Foundation Investigator Initiated Grants
Departments: Arts and Sciences, the Lynch School, and the Graduate School of Social Work
Deadline: LOIs due April 6, 2011, 3:00 p.m. ET

Awards support research on youth settings, how they affect youth development, and how they can be improved; and on studies that examine when, how, and under what conditions research evidence is used in policies and practices that affect youth and how its use can be improved.

Amount of Award: Typically range between $100,000 and $600,000 over two to three years.

William T. Grant Foundation Scholars Program
Departments: Arts and Sciences, the Lynch School, and the Graduate School of Social Work
Deadline: Internal deadline for pre-proposal form: April 5, 2011
E-mail pre-proposals to Kathy.Kuy@bc.edu.
External deadline: July 6, 2011, 3:00 p.m. ET

The Scholars Program supports professional development for early-career researchers with interests in theory, policy, and practice for improving social settings for youth ages 8 to 25 in the U.S.

Amount of Award: $350,000 over five years with 7.5% indirect costs.

Cystic Fibrosis Foundation Research Grant and Pilot and Feasibility Awards Program
Departments: Biology and Chemistry
Deadline: LOIs due April 1, 2011, 5:00 p.m. ET

Awards support basic science research to better understand the mechanisms behind disease pathophysiology and to develop strategies to prevent or treat it.

Amount of Awards: Research Grants of $90,000 per year for up to two years, plus 8% indirect costs; Pilot and Feasibility Awards of $40,000 per year for up to two years, plus 8% indirect costs.

Irvington Institute Fellowship Program of the Cancer Research Institute
Departments: Biology and Chemistry
Deadline: April 1, 2011

This three-year Fellowship supports scientists who wish to receive training in cancer immunology or general immunology.

Amount of Award: $45,000 for the first year, $47,000 for the second year, and $49,000 for the third year.

McKnight Endowment Fund for Neuroscience: Memory and Cognitive Disorders Awards
Department: Biology, Chemistry, Physics, and Psychology
Deadline: LOIs due April 1, 2011

Awards support innovative efforts to solve the problems of neurological and psychiatric diseases, especially those related to memory and cognition.

Amount of Award: $100,000 per year for three years.
Gates Foundation Grand Challenges in Global Health Explorations Initiative  
Departments: Arts and Sciences and the Connell School  
Deadline: LOIs due March 31, 2011, 10:00 a.m. PT  

Awards support innovation in global health research. The topic of interest for this funding cycle is: *Biomarkers for the Diagnosis of Tuberculosis.*  

Amount of Award: Up to $750,000 for up to 24 months, including up to 10% indirect costs.

Charles H. Hood Foundation Child Health Research Awards Program  
Departments: Biology, Chemistry, and the Connell School  
Deadline: March 23, 2011, noon ET  

Awards support hypothesis-driven clinical, basic science, public health, health services research, and epidemiology projects with direct relevance to child health.  

Amount of Award: Two-year grants of $150,000 ($75,000 per year inclusive of 10% indirect costs).

Human Frontier Science Program Young Investigator and Program Grants  
Departments: Biology, Chemistry, Computer Science, Mathematics, and Physics  
Deadline: Online pre-registration for password by March 22, 2011  

Two funding mechanisms, *Young Investigators’ Program* and *Program Grants*, support novel collaborations that bring biologists together with scientists from fields such as physics, mathematics, chemistry, computer science, and engineering to focus on problems at the frontier of the life sciences.  

Amount of Awards: $250,000 for a team of two; $350,000 for a team of three; $450,000 for a team of four or more. These are amounts awarded to the whole team per year for three years. Indirect costs are not allowed.

Alzheimer's Drug Discovery Foundation (ADDF)  
Departments: Biology and Chemistry  
Deadline: LOIs due March 22, 2011  

Awards support drug discovery and development research programs in the field of Alzheimer’s disease, related dementias, and cognitive aging. Awards do not support basic research. Inquiries with the ADDF staff are encouraged to determine the Foundation’s interest prior to application.  

Amount of Award: Up to $150,000 per year for up to two years with potential for future follow-on funding. Indirect costs are not allowed.

American Chemical Society Petroleum Research Fund  
Departments: Chemistry, Earth and Environmental Sciences, and Physics  
Deadline: March 18, 2011, 5:00 p.m. ET  

Awards support fundamental research in the petroleum and energy fields. Research areas supported include chemistry, the earth sciences, chemical and petroleum engineering, and related fields such as polymers and materials science.  

Amount of Awards: *New Directions Grants* of $100,000 over two years; *Doctoral New Investigator Grants* of $100,000 over two years; *Undergraduate New Investigator Grants* of $50,000 over two years; *Undergraduate Research Grants* of $65,000 over three years.
Damon Runyon Postdoctoral Research Fellowship Program
Departments: Biology and Chemistry
Deadline: March 15, 2011, 4:30 p.m. ET
The Fellowship supports early career researchers who wish to conduct high risk research on cancer prevention, diagnosis, and treatment.
Amount of Award: $150,000 over three years. Indirect costs are not allowed.

James S. McDonnell 21st Century Science Initiative
Departments: Arts and Sciences
Deadline: March 15, 2011, 3:59 p.m. CT
This initiative supports research in two program areas. The Complex Systems program supports scholarship and research directed toward the development of theoretical and mathematical tools that can be applied to the study of complex, adaptive, nonlinear systems. It is anticipated that research will address issues in fields such as biology, biodiversity, climate, demography, epidemiology, technological change, economic development, governance, or computation. The Brain Cancer research program supports novel research that will generate new knowledge leading to increased rates of survival and improve functional recovery for individuals with brain cancer.
Amount of Award: A maximum of $450,000 total costs; funds can be expended over a minimum of three years or a maximum of six years. Indirect costs are not allowed.

Robert Woods Johnson Foundation
Healthy Eating Research: Building Evidence to Prevent Childhood Obesity
Departments: Arts and Sciences, the Carroll School, the Connell School, and the Graduate School of Social Work
Deadlines: March 10, 2011, 3:00 p.m. ET (Round 6 Grants, New Connections Grants)
August 2, 2011, 3:00 p.m. ET (Rapid Response Grants)
Grants support research on environmental and policy strategies with strong potential to promote healthy eating among children and to prevent childhood obesity, especially among lower-income and racial and ethnic populations at highest risk.
Amount of Awards: Round 6 Grants of up to $170,000 for 12-24 months; New Connections Grants of up to $75,000 for 12-24 months; Rapid Response Grants of up to $150,000 for up to 18 months (awarded on a rolling basis); each grant includes up to 12% indirect costs.

Ellison Medical Foundation Senior Scholar Award in Aging
Departments: Biology and Chemistry
Deadline: LOIs due March 3, 2011, 11:59 p.m. ET
Awards support established investigators in biomedical research, including basic biology, basic biomedicine, and epidemiology, to encourage development of new, creative research programs in aging. The Foundation’s interests include such areas as structural biology, molecular genetics, genetic epidemiology of aging, candidate longevity genes, and aging in the immune system.
Amount of Award: Up to $150,000 per year for direct costs, plus indirect costs (full NIH F&A), for up to four years. Indirect costs on equipment are not allowed.
Leukemia & Lymphoma Society Translational Research Program
Departments: Biology and Chemistry
Deadline: LOIs due March 1, 2011, 3:00 p.m. ET

Awards support scientists with promise for translating basic biomedical knowledge to prevention, diagnosis, or treatment of leukemia, lymphoma, or myeloma.

Amount of Award: Up to $200,000, which includes direct costs and a maximum overhead of $20,000 or 11.1% of direct costs per year for three years.

Cancer Research Institute Investigator Award
Departments: Biology and Chemistry
Deadline: March 1, 2011

Awards support accomplished Assistant Professors undertaking their first independent investigations in cancer immunology or general immunology.

Amount of Award: $50,000 per year for four years. Indirect costs are not allowed.

Prevent Cancer Foundation Grants and Fellowships
Departments: Biology, Chemistry, the Connell School, and the Graduate School of Social Work
 Deadline: February 28, 2011

Awards support early career and postdoctoral research that demonstrates potential for impact on cancer prevention (defined as the “reduction of cancer incidence through research, education, and early detection”). For the spring 2011 cycle, proposals on ovarian cancer research are especially encouraged.

Amount of Award: $40,000 per year for two years. Indirect costs are not allowed.

Leukemia Research Foundation New Investigator Award
Departments: Biology and Chemistry
Deadline: February 15, 2011, 11:59 p.m. CT

Awards support research related to the causes, cures, or increased understanding of hematological malignancy.

Amount of Award: Up to $100,000 with a grant period of one year. Indirect costs are not allowed.

Stanford University Center for Comparative Studies in Race and Ethnicity (Residential)
Departments: Arts and Sciences
Deadline: February 15, 2011

The Center supports research and scholarship in the areas of race, ethnicity, and culture. Faculty candidates from any area of scholarship may include professors of history, psychology, sociology, political science, education, law, business, philosophy, English, comparative literature, and drama.

Amount of Award: Up to $45,000 for one full academic year.
American Asthma Foundation
Departments: Biology and Chemistry
Deadline: February 9, 2011, 5:00 p.m. PT

Two awards support innovative, cutting-edge, and new-to-the-field asthma research with the potential for new insights into the causes and treatments for asthma.

Amount of Awards: Senior Investigator Award of $750,000 ($250,000 per year for three years); Early Excellence Award $450,000 ($150,000 per year for three years).

American Cancer Society Research Scholar Grants
Departments: Arts and Sciences, the Connell School, and the Graduate School of Social Work
Deadline: LOI due February 1, 2011, 5:00 p.m. ET (Research Professor Award)
All others due April 1, 2011, 5:00 p.m. ET

Multiple grant opportunities support high impact and innovative cancer research and training across a wide range of disciplines to meet critically important needs in the control of cancer via a variety of programs. Grant areas include Research Professor Awards, Research Scholar Grants, Institutional Research Awards, Postdoctoral Fellows Grants, Mentored Research Scholars Grants, and a Special Initiative in Cancer Control and Prevention Research Program: Health Disparities.

Amount of Award: Amounts range from approximately $120,000 to $400,000 over three to five years, depending upon the award, plus 20% direct costs.

Multiple Myeloma Research Foundation Awards
Departments: Biology and Chemistry
Deadline: February 1, 2011, 5:00 p.m. ET (Senior Research Award)
March 29, 2011, 5:00 p.m. ET (Research Fellow Award)

Awards support senior researchers and research Fellows to accelerate the development of therapeutic approaches to myeloma.

Amount of Awards: Senior Research Award of up to $100,000 each year for two years; Research Fellows Award of up to $75,000 for one year.

Greenwall Foundation Award in Bioethics
Departments: Arts and Sciences, the Connell School, the Graduate School of Social Work, the Law School, and the School of Theology and Ministry
Deadline: February 1, 2011, 5:00 p.m. ET

Award supports research that addresses micro and macro issues in bioethics, providing guidance for those engaged in decision-making at the bedside as well as those responsible for shaping institutional and public policy.

Amount of Award: $50,000 to $100,000.

Parkinson's Disease Foundation
Departments: Biology and Chemistry
Deadline: February 1, 2011, 5:00 p.m. ET

The Foundation offers two opportunities to further Parkinson’s research.

Amount of Awards: International Research Grants Program of $75,000 per year for two years, plus 10% indirect costs; Postdoctoral Fellowships for Basic Scientists of $42,500 for one year, including a $5,000 research allowance.
Melanoma Research Alliance (MRA) Team Science Awards  
Departments: Biology, Chemistry, and the Connell School  
Deadline: LOIs due February 1, 2011  
The MRA is soliciting proposals from multidisciplinary teams that address the gap in translational science, i.e., turning scientific discoveries into tools and/or treatments for individuals at high risk for melanoma or melanoma patients.  
Amount of Award: Up to $1 million over two to three years for multidisciplinary teams of two or more PIs.

Jane Coffin Childs Memorial Fund for Medical Research Fellowship  
Departments: Biology and Chemistry  
Deadline: February 1, 2011, 7:00 p.m. ET  
The Fund awards postdoctoral Fellowships in the medical and related sciences bearing on cancer, including carcinogens of organic and inorganic origins, virus studies, epidemiology, endocrinology, tissue transplants, genetics and mutagenesis, microbiology, biochemistry, recombinant DNA, gene isolation, development, structural biology, and growth control.  
Amount of Award: $45,000 for the first year, $46,000 for the second year, and $48,000 for the third year, with an additional $1,000 for each dependent child. Indirect costs are not allowed.

Google Faculty Research Award  
Departments: Arts and Sciences, the Carroll School, the Connell School, and the Lynch School  
Deadline: February 1, 2011  
Awards support academic research by full-time faculty which aims to improve information access across a broad range of disciplines and interests. Awards include an opportunity to work with a designated technical sponsor from Google who will act as a liaison.  
Amount of Award: The amount will not exceed $150,000, typically for one year, with no indirect costs. The average award is $55,000, with most in the $45,000 to $100,000 range.

Alcohol Beverage Medical Research Foundation  
Departments: Arts and Sciences, the Connell School, and the Graduate School of Social Work  
Deadline: February 1, 2011  
The Foundation funds research on important aspects of alcohol consumption including various behavioral and biomedical factors and effects of alcohol use, abuse, and misuse.  
Amount of Award: $50,000, including a maximum of 15% indirect costs.

National Academies Keck Futures Initiative (NAFKI): 2011 Futures Conference Grants  
Department: Arts and Sciences  
Deadline: Application process and deadline will be made available later in January  
Conference date is November 10-13, 2011  
NAKFI catalyzes interdisciplinary research at the intersection of science, engineering, and medicine, and enhances education among researchers, funding organizations, and universities. The Futures Initiative is designed to enable scientists from different disciplines to focus on new questions, upon which they can base entirely new research, and to encourage and reward outstanding communication between scientists as well as between the scientific enterprise and the public.  
Amount of Award: $25,000, $50,000, $75,000, or $100,000.
National Alliance for Research on Schizophrenia and Depression (NARSAD)
Departments: Biology and Chemistry
Deadline: January 25, 2011, midnight ET (Young Investigator Award)
March 1, 2011, midnight ET (Independent Investigator Award)

NARSAD supports innovative and basic research that is relevant to the understanding, treatment, and prevention of serious psychiatric disorders such as schizophrenia, mood disorders, anxiety disorders, or child and adolescent psychiatric disorders.

Amount of Awards: Young Investigator Award of up to $30,000 per year for one or two years, with no indirect costs; Independent Investigator Award of up to $50,000 per year for one or two years, including 8% indirect costs (excluding equipment).

Klarman Family Foundation Grants in Eating Disorders Research
Departments: Biology, Chemistry, and Psychology
Deadline: January 19, 2011, noon ET

The Foundation funds research in the basic biology of eating disorders, including molecular genetic analysis, new chemical entities for exploratory treatment, and brain imaging approaches that identify neurochemical pathways.

Amount of Awards: Two-year awards of $400,000 ($200,000 per year) and one-year pilot awards of up to $150,000. Both awards include 10% indirect costs.

Juvenile Diabetes Research Foundation
Departments: Biology and Chemistry
Deadline: January 19, 2011, midnight ET

Four grant opportunities support relevant exploratory, discovery, non-clinical development, clinical, and clinical development research relevant to type 1 diabetes in the therapeutic areas of beta cell replacement, beta cell regeneration, autoimmunity, complications, and metabolic control.

Amount of Awards: Postdoctoral Fellowship Award of up to $53,440 for up to three years, with no indirect costs; Advanced Postdoctoral Fellowship Award of up to $90,000 for up to three years, with no indirect costs; Career Development Award of up to $150,000 per year for up to five years, including 10% for indirect costs; Innovative Grant of up to $110,000 for one year, including 10% for indirect costs.

American Diabetes Research Awards
Departments: Biology, Chemistry, and the Connell School
Deadline: January 15, 2011

Multiple awards support both new and established investigators, specialized grants to assist innovative researchers, and opportunities for established investigators as they advance their careers and the field of diabetes research and care.

Amount of Awards: Basic Science Award up to $115,000 per year for up to three years, plus 15% for indirect costs; Junior Faculty Award up to $120,000 per year for up to three years, plus 15% for indirect costs; Career Development Award of $150,000 per year for up to five years, plus 15% for indirect costs and a potential $25,000 stipend for each of the first two years for additional equipment; Innovation Award up to $50,000 per year for two years with no indirect costs; Mentor-Based Postdoctoral Fellowship of $45,000 a year for four years with no indirect costs; Mentor-Based Minority Postdoctoral Fellowship of $45,000 per year for two to three years with no indirect costs.
**Davis Foundation Postdoctoral Fellowship in Eating Disorders Research**

Departments: Biology, Chemistry, and Psychology  
Deadline: January 13, 2011, noon ET

The Foundation funds research on eating disorders, including, but not limited to, molecular genetic analysis, new chemical entities for exploratory treatment, and brain imaging approaches that identify neurochemical pathways.

Amount of Award: $43,000 to $63,000 per year, inclusive of a $3,000 expense allowance.

**American Heart Association Awards**

Departments: Biology, Chemistry, Physics, and the Connell School  
Deadlines:  
- January 11, 2011, 11:59 p.m. CT (Scientist Development Grant)  
- January 28, 2011, 11:59 p.m. CT (Postdoctoral Fellowship)

Two awards support basic and clinical science research in all disciplines, including multidisciplinary efforts, broadly related to cardiovascular disease and stroke.

Amount of Awards:  
- National Scientist Development Grant of up to $77,000, including up to 10% indirect costs, for early-career scientists;  
- Postdoctoral Fellowship of up to $96,000 for two years, for those with no more than five years postdoctoral research.

**2011 McKnight Scholar Awards**

Departments: Biology, Chemistry, Physics, and Psychology  
Deadline: January 10, 2011

Awards support innovative research designed to bring science closer to the day when diseases of the brain can be accurately diagnosed, prevented, and treated.

Amount of Award: $75,000 over three years. Indirect costs are not allowed.

**American Brain Tumor Association Basic Research Fellowships and Translational Grants**

Departments: Biology and Chemistry  
Deadline: January 7, 2011, 5:00 p.m. CT

Two awards support basic research for early career researchers and translational grants for outstanding junior or senior faculty investigators.

Amount of Awards:  
- Basic Research Fellowships of $80,000 over two-years ($35,000 salary support and $5,000 discretionary funds per year);  
- Translational Research Grants of $75,000 for faculty or junior faculty for one year of pre-clinical, translational research.

**Center for Cultural Analysis (Residential)**

Departments: Arts and Sciences  
Deadline: January 7, 2011

The Center, located at Rutgers University, invites scholars from all disciplinary perspectives and methodologies—empirical, analytical, literary, historical, and theoretical—to study the topic “Public Knowledge: Institutions, Networks, Collectives” for a one-year term.

Amount of Award: $45,000 stipend with benefits and support for research.
Klingenstein Fellowship Awards in the Neurosciences
Departments: Biology, Chemistry, and the Connell School
Deadline: January 7, 2011
Awards support early career researchers in cellular and molecular neuroscience, neural systems, and clinical research that may lead to a better understanding of neurological and psychiatric disorders.
Amount of Award: $150,000 over three years. Indirect costs are not allowed.

American Education Research Association Grants Program
Departments: Arts and Sciences and the Lynch School
Deadline: January 6, 2011
Grants support faculty, postdoctoral researchers, and other doctoral-level scholars in a variety of disciplines to stimulate research on U.S. education issues using data from the large-scale, national and international data sets supported by NCES, NSF, and other federal agencies, and to increase the number of education researchers using these data sets.
Amount of Award: Up to $20,000 for one-year projects, or up to $35,000 for two-year projects. Indirect costs are not allowed.

William T. Grant Foundation Distinguished Fellows Program
Departments: Arts and Sciences, the Lynch School, and the Graduate School of Social Work
Deadline: LOIs due January 5, 2011, 3:00 p.m. ET
The Fellows Program seeks to increase the supply of, demand for, and use of high-quality research in the service of improved youth outcomes. The program is restricted to researchers seeking to work in policy or practice settings, or policymakers and practitioners seeking to work in research settings.
Amount of Award: Up to $175,000 over two years, including 7.5% indirect costs.

American Theological Schools Lilly Theological Research Grants
Departments: The School of Theology and Ministry
Deadline: January 5, 2011
Four awards support full-time faculty, in ATS-accredited theological schools, in scholarly research that contributes to theological education, informs the life of the church, develops a greater public voice for theology in society, collaborates with other academic disciplines, and offers new perspectives on Christianity in a pluralistic setting.
Amount of Awards: Faculty Fellowships of $30,000 for support during an institutionally-approved research leave of at least one full semester; Theological Scholars Grants of up to $12,000 for research apart from a formal research leave; Research Expense Grants of up to $5,000 for direct research expenses; Collaborative Research Grants of up to $16,000 for teams of researchers (two or more scholars from the same or from different institutions).

Alzheimer’s Association Awards
Departments: Arts and Sciences, the Graduate School of Social Work, and the Connell School
Deadline: LOIs due January 3, 2011, 5:00 p.m. ET
Three distinct award mechanisms support dementia research, from basic science to social and behavioral investigations.
Amount of Awards: New Investigator Research Grant Award of $100,000 per year for up to two years; Investigator-Initiated Research Grant of $240,000 per year for up to three years; New Investigator Research Grant to Promote Diversity of $100,000 per year for up to two years. All include up to 10% indirect costs.
William T. Grant Foundation Investigator Initiated Grants
Departments: Arts and Sciences, the Lynch School, and the Graduate School of Social Work
Deadline: LOIs due early January 2011 (date not available at this time)
Grants support research on youth settings, how they affect youth development, and how they can be improved; and on studies that examine when, how, and under what conditions research evidence is used in policies and practices that affect youth and how its use can be improved.
Amount of Award: Typically range between $100,000 and $600,000 over two to three years.

Diabetes Research and Wellness Foundation Grants
Departments: Biology, Chemistry, and Physics
Deadline: December 30, 2010
Grants support research in the Foundation’s current areas of primary interest, including islet cell transplantation, macrovascular disease, and neuropathy.
Amount of Award: $50,000 per year, for up to two years. Indirect costs less than 10% for each year.

Muscular Dystrophy Development Grants
Departments: Biology and Chemistry
Deadlines: LOIs due December 15, 2010
Grants support members of a research team in the laboratory of an independent investigator. Under guidance, the applicant will conduct a neuromuscular disease research project relating to the muscular dystrophies, motor neuron diseases, peripheral nerve disorders, inflammatory myopathies, disorders of the neuromuscular junction, and metabolic diseases of muscle, among others.
Amount of Award: Maximum $60,000 per year for one to three years with 10% percent of direct costs to be included in the total amount of the grant request.

Muscular Dystrophy Research Grants
Departments: Biology and Chemistry
Deadlines: LOIs due December 15, 2010
Grants support independent investigators with interests in developing treatments for the muscular dystrophies and related diseases of the neuromuscular system. These include the muscular dystrophies, motor neuron diseases, peripheral nerve disorders, inflammatory myopathies, disorders of the neuromuscular junction, and metabolic diseases of muscle, among others.
Amount of Award: Unlimited for one to three years with a maximum of 10% percent of direct costs to be included in the total amount of the grant request.

The Huntington Fellowships (Residential)
Departments: Arts and Sciences
Deadline: December 15, 2010
Three award mechanisms for residential Fellowships are open to faculty and post-doctoral Fellows to support humanities’ research, using the Huntington’s collections, in the fields of history, art, literature, and the history of science. Fellowships are for nine to twelve months.
Amount of Awards: Barbara Thom Postdoctoral Fellowship, Mellon Fellowship, and Dornsife Fellowship awards are $50,000 each.
Christopher and Dana Reeve Foundation Individual Research Grants
Departments: Biology, Chemistry, and Physics
Deadline: December 15, 2010

The Foundation’s current research emphases are: 1) strategies to promote neural growth and survival, 2) evaluating the efficacy of drugs/interventions related to secondary neuronal injury, 3) defining anatomical characteristics of spinal cord injury, and 4) elucidating the biological mechanisms to improve concomitant functions affected by spinal cord injury and alleviate pain and spasticity.

Amount of Awards: Two-year awards for senior scientists and young investigators up to $75,000 per year (indirect costs limited to 10% of the direct); Postdoctoral Fellowships up to $60,000 per year (indirect costs limited to 10% of the direct).

Charles A. King Postdoctoral Basic Science Fellowship
Departments: Biology, Chemistry, and the Connell School
Deadline: December 15, 2010, noon ET

Fellowship supports all research disciplines in the biomedical fields for those in the later stages of their postdoctoral training.

Amount of Award: $43,500 to $51,000 per year, inclusive of a $2,000 expense allowance.

Alex’s Lemonade Stand Foundation Young Investigator and Innovation Grants
Departments: Biology, Chemistry, and Physics
Deadline: December 15, 2010, 11:59 p.m. ET (Young Investigator Grant)
          LOIs due December 15, 2010, 11:59 p.m. ET (Innovation Grant)

Grants support early and mid-career researchers who are interested in eradicating childhood cancer through basic and innovative research, career development, and opportunity to streamline translational clinical research.

Amount of Awards: Young Investigator Grants: $40,000 for up to two years; Innovation Grants: up to $100,000 per year for up to two years.

American Federation for Aging (AFAR) Research Awards
Departments: Arts and Sciences, the Graduate School of Social Work, and the Connell School
Deadline: December 15, 2010, 5:00 p.m. ET

Five awards fund early- and mid-career scientists studying the fundamental problems in the biology of aging such as diabetes, heart disease, and dementia.

Amount of Awards: AFAR Research Grants of up to $100,000 for a one- to two-year award, with 8% indirect costs, for junior investigators; Julie Martin Mid-Career Award in Aging Research of $500,000 for four years, with up to 10% direct costs, for mid-career scientists; Ellison Medical Fnd/AFAR Postdoctoral Fellows in Aging Research Program for one-year Fellowships ranging from $45,218 for a first-year Fellow to up to $59,402 for a Fellow with more than seven years of training, plus expenses; New Investigator Awards in Alzheimer’s Disease up to $100,000, for a one- to two-year award, with up to 8% in indirect costs for junior investigators; Glenn/AFAR Breakthroughs in Gerontology Awards of $200,000 support full-time faculty, at the rank of Assistant Professor or higher, in small pilot programs of relatively high risk and significant promise.
Camille Dreyfus Teacher-Scholar Awards
Departments: Biochemistry and Chemistry
Deadlines: Internal deadline for pre-proposal form: December 13, 2010
E-mail pre-proposals to Kathy.Kuy@bc.edu.
External deadline: February 10, 2011

Awards support early-career faculty in the chemical sciences. Criteria for selection include a demonstrated commitment to undergraduate teaching along with an independent body of scholarship attained within the first five years as independent researchers.

BC may nominate only one candidate for this award.

Amount of Award: $75,000 over five years, with $7,500 for departmental expenses associated with research and education. Indirect costs are not allowed.

Ellison Medical Foundation New Scholar Award in Aging
Departments: Biology and Chemistry
Deadline: Internal deadline for Pre-proposal form: December 13, 2010
E-mail pre-proposals to Kathy.Kuy@bc.edu.
External deadline: February 24, 2011, 11:59 p.m. ET

Awards support new investigators who wish to become established in the field of aging, age-related diseases, and disabilities through biomedical research, including basic biology, basic biomedicine, and epidemiology.

Boston College is invited to nominate two candidates for this award.

Amount of Award: Up to $100,000 per year for four years, including up to 8% indirect costs.

American Association for Cancer Research Fellowships
Departments: Biology, Chemistry, and Physics
Deadline: December 13, 2010, noon ET

Fellowships support mentored, basic cancer researchers within the first three years of their postdoctoral training.

Amount of Award: Up to $45,000 for one year.

Burroughs Wellcome Fund Collaborative Research Travel Grant
Department: Biology, Chemistry, Computer Science, Mathematics, and Physics
Deadline: December 1, 2010, 4:00 p.m. ET

Grants support researchers to travel either domestically or internationally to a laboratory to acquire a new research technique, to facilitate/begin collaboration, or to attend a course.

Amount of Award: Up to $15,000.

United Negro College Fund • Merck Postdoctoral Fellowship
Departments: Biology and Chemistry
Deadline: December 1, 2010

Fellowships support African-American post-graduate students who are embarking on postdoctoral training and careers in biomedical research.

Amount of Award: Up to $92,000 which includes a stipend of $77,000 plus $15,000 to the host department.
American Theological Schools Henry Luce III Fellows in Theology
Departments: The School of Theology and Ministry
Deadline: December 1, 2010

The ATS Henry Luce III Fellows in Theology program is a sabbatical program, for faculty in ATS-accredited theological schools, which supports research to advance significant theological study and understanding.

Amount of Award: Up to $75,000 to support a sabbatical, not to exceed the compensation a Fellow would receive if not on sabbatical. Matching support, one-half of total compensation, must be provided by BC.

2011 McKnight Technological Innovations in Neuroscience Awards
Departments: Biology, Chemistry, Physics, and Psychology
Deadline: LOIs due December 1, 2010

Awards support innovative, collaborative, and cross-disciplinary research that will advance the range of technologies in the neurosciences.

Amount of Award: $100,000 per year for two years.

Alzheimer’s Association Awards
Departments: Arts and Sciences, the Graduate School of Social Work, and the Connell School
Deadline: LOIs due December 1, 2010, 5:00 p.m. ET

Four distinct award mechanisms support research to advance the understanding of Alzheimer’s disease, from basic science to social and behavioral investigations.

Amount of Awards: New Investigator Research Grant Awards of $100,000 per year for up to two years; Investigator-Initiated Research Grants of $240,000 per year for up to three years; New Investigator Research Grants to Promote Diversity of $100,000 for up to two years; Mentored New Investigator Research Grants to Promote Diversity of $150,000 up to three years. All include up to 10% indirect costs.

Friends for an Earlier Breast Cancer Test: Medical Seed Grant
Departments: Biology, Chemistry, and Physics
Deadline: December 1, 2010

Grant supports both seasoned and less established investigators as they discover new methods for early detection, especially new techniques in biological or immunologic methods.

Amount of Award: Up to $40,000 over one to three years.

Schomburg Center Scholars in Residence
Departments: Arts and Sciences
Deadline: December 1, 2010

The Schomburg Center Scholars-in-Residence Program invites scholars with research interests in the black experience to spend six to twelve months in residence at the Center. It encourages research projects on Africa, Afro-American, and Afro-Caribbean history and culture.

Amount of Award: $30,000 for six months; $60,000 for twelve months.
American Foundation for Suicide Prevention
Departments: Arts and Sciences, the Graduate School of Social Work, and the Connell School
Deadline: December 1, 2010

Multiple award mechanisms support studies to increase understanding of the causes of suicide and factors related to suicide risk, or to test treatments and other interventions designed to prevent suicide. Six types of grants are awarded for neurobiological, genetic, epidemiological, clinical, or psychosocial research on suicide.
Amount of Awards: Amounts range from $30,000-$225,000 for one to two years, depending upon the award.

American Society for Mass Spectrometry Research Awards
Departments: Chemistry, Biology, Geology, and Physics
Deadline: November 30, 2010

Awards support academic research by young scientists in mass spectrometry and allied topics such as advancement of techniques and instrumentation, as well as fundamental research in chemistry, geology, forensics, biological sciences, and physics.
Amount of Award: $25,000. Indirect costs are not allowed.

Dreyfus Foundation Senior Scientist Mentor Program
Departments: Arts and Sciences
Deadline: November 11, 2010

Program supports faculty with emeritus status on or before January 2011 who maintain active research programs with undergraduates in the chemical sciences.
Amount of Award: $20,000 over two years, intended mostly for undergraduate stipends. Indirect costs are not allowed.

Ford Foundation Postdoctoral Fellows Program
Departments: Arts and Sciences and the School of Theology and Ministry
Deadline: November 8, 2010, 11:59 p.m. ET

Fellowships support individuals who demonstrate superior academic achievement, commit to a career in teaching and research at the college or university level, show promise of future achievement as scholars and teachers, and prepare to use diversity as a resource for enriching the education of all students.
Amount of Award: $40,000 for one year, a $1,500 institutional allowance, and conference expenses.

American Chemical Society Petroleum Research Fund
Departments: Chemistry, Geology, and Physics
Deadline: November 5, 2010

Three research grant programs support fundamental research in the petroleum and energy fields. Research areas supported include chemistry, the earth sciences, chemical and petroleum engineering, and related fields such as polymers and materials science.
Amount of Awards: New Directions of $100,000 over two years; Doctoral New Investigator Grants of $100,000 over two years; Undergraduate New Investigator Grants of $50,000 over two years.
National Academy of Education/Spencer Postdoctoral Fellowships
Departments: Arts and Sciences and the Lynch School of Education
Deadline: November 5, 2010

Fellowships support early career scholars working in critical areas of education research and also develop the careers of its recipients through professional development activities involving members of the National Academy of Education.

Amount of Award: $55,000 for one full academic year or $27,500 for each of two contiguous, half-time years.

Juvenile Diabetes Research Foundation (JDRF) Priority Research Grants and High Priority Bridge Awards
Departments: Biology and Chemistry
Deadlines: November 3, 2010 (Priority Research Grant)
December 1, 2010 (High Priority Bridge Award)

Awards support investigators who are conducting leading-edge research or who are facing delayed or curtailed funding. JDRF encourages submission of innovative, high-risk/high-reward, field-changing research proposals to accelerate its mission.

Amount of Awards: Priority Research Grants of up to $165,000 per year for up to three years; Bridge Awards of $55,000, for up to one year, including 10% indirect costs.

Brookdale Foundation Group Leadership in Aging Fellowship Program
Departments: Arts and Sciences, the Connell School, and the Graduate School of Social Work
Deadline: November 1, 2010

Fellowships support a broad range of disciplines related to the field of aging including, but not limited to, the medical, biological, and basic sciences; nursing; social sciences; the arts; and humanities.

Amount of Award: Up to $125,000 each year for two years to cover 75% of the Fellow’s time including base salary and fringe benefits.

American Health Assistance Foundation
Alzheimer’s Disease Standard, Pilot, and Postdoctoral Fellowship Awards
Departments: Arts and Sciences, the Connell School, and the Graduate School of Social Work
Deadline: October 19, 2010, 11:30 p.m. ET

Multiple grant opportunities support research that will lead to additional funding from industrial or governmental funding agencies.

Amount of Award: Amounts range from $100,000 to $400,000 for two to three years.

John Templeton Foundation
Departments: Arts and Sciences and the School of Theology and Ministry
Deadline: October 15, 2010

The Foundation’s resources are devoted to research (and disseminating the results of research) on issues surrounding altruism, creativity, free will, generosity, gratitude, intellect, love, prayer, and purpose.

Amount of Award: Most recent published reports from 2008 indicate that the average grant was approximately $550,000, with two-thirds under $250,000.
Robert Bosch Foundation Fellowship Program  
Departments: Arts and Sciences, the Carroll School, and the Law School  
Deadline: October 15, 2010  

Fellows from the fields of business administration, economics, journalism, law, political science, and public policy participate in two high-level work placements in the federal government and private sector in Germany.  

Amount of Award: A monthly stipend of approximately $2,450 for the duration of the program in Germany (September-May) and additional stipends for travel, insurance, and language training.

National Humanities Center Fellowships  
Departments: Arts and Sciences and the School of Theology and Ministry  
Deadline: October 15, 2010  

Fellowships support scholars from all fields in the humanities including the natural and social sciences, the arts, the professions, and public life.  

Amount of Award: Amounts range according to the needs of the Fellow and the Center's ability to meet them. The Center seeks to provide at least half salary and cover travel expenses to and from North Carolina for Fellows and dependents.

American Cancer Society Grants and Awards  
Departments: Arts and Sciences, the Connell School, and the Graduate School of Social Work  
Deadline: October 15, 2010, 5:00 p.m. ET  

Multiple grant opportunities support high impact and innovative cancer research and training across a wide range of disciplines to meet critically important needs in the control of cancer via a variety of programs. Grant areas include Research Grants for Independent Investigators, Mentored Training and Career Development Grants, and New Initiatives and RFAs in Health Disparities, Palliative Care, and Canary Foundation/ACS Fellowships.  

Amount of Awards: Amounts range from $60,000 to $200,000 per year, plus indirect costs, depending upon the award.

Stanford Humanities Center Residential Fellowships  
Departments: Arts and Sciences  
Deadline: October 1, 2010  

Fellowships support advanced research into the historical, philosophical, and cultural dimensions of human experience.  

Amount of Award: Up to $60,000 plus a moving allowance.

Woodrow Wilson International Center for Scholars Fellowships  
Departments: Arts and Sciences and the Carroll School  
Deadline: October 1, 2010  

Fellowships (residential) support outstanding projects in a broad range of the social sciences and humanities on national and/or international issues.  

Amount of Award: $26,000 to $85,000.
Society for the Humanities Fellowships
Departments: Arts and Sciences

Fellowships support scholarly reflections on “Sound: Culture, Theory, Practice, Politics,” the Society’s focal theme for 2011-2012.

Amount of Award: $45,000.

Irvington Institute Fellowship Program of the Cancer Research Institute
Departments: Biology and Chemistry
Deadline: October 1, 2010

Fellowships support qualified scientists who wish to receive training in cancer immunology or general immunology.

Amount of Award: $45,000 for the first year, $47,000 for the second year, and $49,000 for the third year, with an additional $1,500 each year to help pay for research supplies, travel to scientific meetings, or health insurance.

Radcliffe Institute for Advanced Study Fellows
Departments: Arts and Sciences
Deadline: For creative arts, humanities, and social sciences: October 1, 2010, 11:59 p.m. ET
For mathematics and natural sciences: November 15, 2010, 11:59 p.m. ET

Fellowships (residential) support scholars, scientists, artists, and writers of exceptional promise and demonstrated accomplishments who wish to pursue work in academic and professional fields and in the creative arts.

Amount of Award: $65,000.

PhARMA Health Outcomes
Departments: Arts and Sciences, the Connell School, and the Graduate School of Social Work
Deadline: October 1, 2010

Fellowships and grants support research in a broad spectrum of issues ranging from the efficacy of a particular pharmaceutical intervention to the impact of reimbursement policies on the outcome of care.

Amount of Awards: Postdoctoral Fellowships of $55,000 for two years; Sabbatical Fellowships of up to $40,000 for one year; Research Starter Grants of $60,000 for one year. Indirect costs are not allowed.

Life Sciences Research Foundation Postdoctoral Fellowships
Departments: Arts and Sciences
Deadline: October 1, 2010

Fellowships support researchers across the spectrum of the life sciences: biochemistry; cell, developmental, molecular, plant, structural, organismic population, and evolutionary biology; endocrinology; immunology; microbiology; neurobiology; physiology; and virology.

Amount of Award: $43,000 for a first-year postdoctoral, $45,500 for a second year, and $47,000 thereafter (with up to $2,000 for fringe benefits). Indirect costs are not allowed.
John Merck Scholars Program in the Biology of Developmental Disabilities in Children
Departments: Arts and Sciences
Deadline: Pre-proposal due September 30, 2010

The Fund supports the most promising basic research into the processes that impair the lives of the developmentally disabled, focusing on investigations by neurobiologists and by cognitive scientists of the underlying causes of developmental disabilities.

Amount of Award: $75,000 per year for a four-year period.

American Council of Learned Sciences Collaborative Research Fellowships
Departments: Arts and Sciences
Deadline: September 29, 2010, 9:00 p.m. ET

Fellowships support collaborative research in small teams of two or more in all disciplines of the humanities and humanities-related social sciences.

Amount of Award: Up to $35,000 for assistant professor, up to $40,000 for associate professor, and up to $60,000 for full professor, not to exceed $140,000 for any one project, as well as up to $20,000 which may be used for travel, materials, or research assistance.

American Council of Learned Sciences Fellowships
Departments: Arts and Sciences
Deadline: September 29, 2010, 9:00 p.m. ET

Fellowships support faculty in the humanities and humanities-related social sciences in preparing a major piece of scholarly work.

Amount of Award: Up to $35,000 for assistant professor, up to $40,000 for associate professor, and up to $60,000 for full professor.

American Council of Learned Sciences Digital Innovation Fellowships
Departments: Arts and Sciences
Deadline: September 29, 2010, 9:00 p.m. ET

Fellowships support digitally-based research projects in all disciplines of the humanities and humanities-related social sciences.

Amount of Award: Up to $60,000 towards an academic year’s leave, plus project costs of up to $25,000.

American Council of Learned Sciences Burkhardt Residential Fellowships
Departments: Arts and Sciences
Deadline: September 29, 2010, 9:00 p.m. ET

Fellowships support long-term, unusually ambitious projects in the humanities and humanities-related social sciences at one of the participating residential research centers.

Amount of Award: $75,000.
American Council of Learned Sciences Ryskamp Fellowships
Departments: Arts and Sciences
Deadline: September 29, 2010, 9:00 p.m. ET

Fellowships support advanced assistant professors and untenured associate professors in the humanities and humanities-related social sciences whose scholarly contributions have advanced their fields and who have well designed and carefully developed plans for new research.

Amount of Award: $64,000, a summer stipend of $14,222, and $2,500 for research and travel expenses.

Charles H. Hood Foundation Child Health Research Awards Program
Departments: Biology, Chemistry, the Connell School, and the Lynch School
Deadline: September 22, 2010, noon ET

Awards support hypothesis-driven clinical, basic science, public health, health services research, and epidemiology projects with direct relevance to child health, for recently appointed instructors, assistant professors, or equivalent positions who are conducting independent research.

Amount of Award: Two-year grants of $150,000 ($75,000 per year inclusive of 10% indirect costs).
